Tina,

1. This first picture is on the west side of the lakefront on the west side of the walking bridge. One or two trees could be planted, American Sycamore or Special Aldars.
2. The second picture shows the trees on the west side of the creek on the west side of the lakefront . A group of similar trees could be planted on the east side of the creek.
3. The third picture shows a bench where Serviceberry bushes could be planted. There are probably other benches where these types of bushes could be planted.
