NOTICE

JOINT MEETING OF THE VILLAGE BOARD COMMITTEE OF THE WHOLE & COMMITTEES

MONDAY, MAY 4, 2026 AT 6:45 PM

Village Hall Council Room
250 Williams Street
Williams Bay, WI 53191

The meeting will be live-streamed on the Village of Williams Bay's YouTube, which can be found here: https://youtube.com/live/rUCgtMm9zdM?feature=share

AGENDA

The following agenda items may be considered for Discussion, Consideration, or Action

I. Village Board Committee of the Whole

- **a.** Call to Order
- **b.** Roll Call
- **c.** Meeting Decorum. *According to Robert's Rules of Order, meeting decorum means maintaining respectful and orderly behavior during a discussion, including addressing the chair to speak, staying relevant to the topic at hand, avoiding personal attacks, and generally adhering to courteous conduct while debating issues; essentially, ensuring that discussions are focused and civil, with only one person speaking at a time when recognized by the chair. Violators of meeting decorum will be excused from the meeting.*
- **d.** Joint Village Board Committee of the Whole & Committees Meeting Minutes of April 6, 2026

II. Parks & Lakefront Committee – Russell, Wright, Franzen

- **a.** Call to Order
- **b.** Roll Call
- **c.** Discussion and Possible Action on 2026 Memorandum of Understanding Between the Village of Williams Bay and the Town of Linn for the Purchase of Beach passes
- **d.** Boat Launch Cashless Payments - *Informational Update*
- **e.** Village Boat Pier Installation - *Informational Update*
- **f.** Adjourn

III. Water & Sewer Committee – Umans, Russell, Bartholomew

- **a.** Call to Order
- **b.** Roll Call
- **c.** Village Engineers Report

d. Adjourn

IV. Streets & Highways Committee – Bartholomew, Vlach, Wright

a. Call to Order

b. Roll Call

c. Approval of Streets & Highways Committee Meeting Minutes: April 1, 2026

d. Discussion and Possible Action on the State of Wisconsin Department of Economic Development Vibrant Spaces Grant

e. Adjourn

V. Building, Zoning & Ordinance Committee – Franzen, Vlach, Russell

a. Call to Order

b. Roll Call

c. Discussion and Prioritization of Current Code Review Priorities

d. Adjourn

VI. Protective Services Committee – Vlach, Umans, Franzen

a. Call to Order

b. Roll Call

c. Discussion and Possible Action on Proposals for Williams Bay Fire Protection Services; (1) Town of Delavan and (2) Village of Fontana

d. Fontana Emergency Medical (EMS) Monthly Numbers

e. Williams Bay Police Chief's Monthly Report

f. Williams Bay Police Department Monthly Numbers

g. Adjourn

VII. Finance & Personnel Committee – Wright, Umans, Bartholomew

a. Call to Order

b. Roll Call

c. Approval of Finance and Personnel Committee Meeting Minutes of April 27, 2026

d. Discussion and Possible Action on 2026 Memorandum of Understanding Between the Village of Williams Bay and the Town of Linn for the Purchase of Beach passes

e. Discussion and Possible Action on a Contract with Janesville Janitor Service & Industrial Supply Inc. for Regular Janitorial Services for Village Administrative Offices Located at 121 N. Walworth Street

f. Discussion and Possible Action on Williams Bay Police Department Community Service Officer Funding, Including Possible Amendment to the Current Year Budget 2026

g. Discussion and Possible Action on Proposals Received for Williams Bay Fire Protection Services

1. Town of Delavan - Proposal for Fire Protection Services
2. Village of Fontana - Proposal for Fire Protection Services

h. Adjourn

VIII. Village Board Committee of the Whole

Possible Action on Matters Discussed in Committee (Village Board Committee of the Whole)

1. R-32-26 Resolution Approving 2026 Memorandum of Understanding Between the Village of Williams Bay and the Town of Linn for the Purchase of Beach passes
2. **Closed Session.** Closed session pursuant to Wis. Stat. Sec. 19.85 (1) (e) Deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session: Yerkes Future Foundation (YFF) Development Agreement. *There will be no action taken or discussion following Open Session. The earliest that any action will be taken on this item will be the next regularly scheduled Village Board Meeting on Monday, May 18, 2026.*
3. **Return to Open Session.** There will be no action taken or discussion following Open Session. The earliest that any action will be taken on this item will be the next regularly scheduled Village Board Meeting on Monday, May 18, 2026.

b. Adjourn

IX. Other Items

Requests from persons with disabilities, who need assistance to participate in this meeting or hearing, should be made to the Village Clerk's office in advance so the appropriate accommodations can be made.

Posted: 05/01/2026 5:00 PM

The motion to move into Closed session pursuant to Wis. Stat. Sec. 19.85 (1) (e) Deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session: Yerkes Future Foundation (YFF) Development Agreement. *There will be no action taken or discussion following Open Session. The earliest that any action will be taken on this item will be the next regularly scheduled Village Board Meeting on Monday, April 20, 2026.* was initiated by Trustee Umans and seconded by Trustee Bartholomew at 09:20pm.

Votes:
Yes: President Jaramillo, Trustees Bartholomew, Umans, Wright, Vlach, Russell, and Franzen
No: None
Abstain: None

Result: Passes

h. **Return to Open Session.** There will be no action taken or discussion following Open Session. The earliest that any action will be taken on this item will be the next regularly scheduled Village Board Meeting on Monday, April 20, 2026.

The motion to return to open session was initiated by Trustee Wright and seconded by Trustee Bartholomew at 09:40pm. Unanimously carried.

i. Adjourn

The motion to adjourn was initiated by Trustee Wright and seconded by Trustee Bartholomew at 09:40pm. Unanimously carried.

/s/ Tina Kolls, Village Clerk

These are not official Minutes until approved by the Governing Body.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is entered into between the Village of Williams Bay (the Village) and the Town of Linn (the Town), effective as of the date of the last signature of the parties to this Agreement.

RECITALS

A. The Village operates a municipal beach within the corporate boundaries of the Village which provides access to Geneva Lake (the Beach).

B. The Village has determined that it is appropriate in 2026 to allow access to the Beach by individuals who are not residents of the Village, subject to the purchase of beach tags for that purpose.

AGREEMENT

In consideration of the Recitals and provisions which follow, the Village and the Town agree to the following.

1. The Village agrees to provide and bill the Town for 200 beach tags at the non-resident rate of $95.00 each. If additional tags are needed, the Village will provide and bill the requested amount. Any unsold tags will be returned to the Village, and a refund will be issued.

2. The Town agrees to pay the billing from the Village for the beach tags within 30 days of receipt of tags. Unsold tags will need to be returned to the Village on or before October 1, 2026. Refund will be issued to the Town within 30 days of receipt.

3. This MOU may be executed in multiple counterparts. Signatures transmitted by e-mail in PDF shall be treated as originals.

APPROVED by the Village Board of the Village of Williams Bay this ___ day of April 2026.

VILLAGE OF WILLIAMS BAY
Engineer's Report
May 1, 2026

STH 67 Reconstruction: East – West Section – Project No. 230260

- We will begin the final design on the water main after the WDOT provides a current preliminary field survey for the route; we expect this in the next month.
- The signed SMA was recently provided to the WDOT.
- The Village should replace any non-PVC sanitary sewer laterals in the right of way to prevent the vibratory roller from damaging the clay laterals, requiring the homeowner to patch the new roadway. We may need additional televising to determine the ones that are not PVC. The WDOT does not need to know about this work until after they issue the 60 percent plans.

Women's Leadership Center – Project Number 222626 No Changes

- The water main is installed and operational. We will issue a punch list just after binder installation. When complete, the Village will need to accept the water main by resolution.
- WLC will request the Village to vacate the west 1/3rd of the installed main. WLC will prepare the necessary documents.

Water Plant Letter Flood Map Revision (LOMR) Assistance—Project No. 2325347
No Changes

- SEWRPC submitted a response to the FEMA comments received 12/19/25.
- SEWRPC will send letters to impacted residents and hold a public hearing following FEMA approval.
- FEMA is currently closed but it appears to be reopening soon.

Corrosion Control Study – Improvements to Water Plant —Project No. 211778
No Changes

- August Winters & Son is the Contractor; they are currently assembling the final payment application.
- Project completion may be as early as May of 2026.

Street Rehabilitation Program – Project No. 2400607.00

- Rock Road is the Contractor; they submitted a final payment application without completing their work and without paying the subcontractors.
- We issued a notice to the bonding company which was reviewed with committee in April; the bonding company verbally noted that they will not get involved until a subcontractor files a mechanics lien.
- We are preparing a submittal to the attorney for his assistance in closing this contract; the additional cost should be deducted as actual costs from the amount due to the Contractor.

Well 3 Pump Replacement– Project Nos. 201436 / 221236

No Changes

- The Contractor is still waiting for the column pipe.
- It will be another week before they mobilize and test the existing pump; they plan to invoice in May.

Park Place CSM – Project No. 2400339

No Changes

- The developer is Jack Pease/Super-Mix Aggregates.
- The water main is installed and operational. They still need to connect two water services and complete the paving; they are waiting for Payne & Dolan to open the plant.

Preserve Development – Former GW College – Project No. 2326581

No Changes

- We met with the design team in the week of February 11th to discuss bidding of the public improvements; there has been no real action since.
- They noted today that they are still at least a month away from finalizing a private bid package, the public bid package will follow at least 60 days later.
- We don't expect the need for Village action until July.

East Geneva Street Canyon Development – Former Levar – Project No. 2326015

No Changes

- The developer is requesting regulatory approvals.
- We will observe construction of the public improvements.

Sanitary Sewer Replacement – Project No. 2501134

- The project includes the replacement of sanitary sewer at two locations: Oakwood Street from Center Street south to mid-block and then west through existing easements to Orchard Street and the Lift Station 4 gravity sewer along the lakefront from just north of Gage Marine to Bay Shore Villas.
- The plans are ready for permitting and bidding; we delayed the bidding due to the geopolitical climate, diesel at $6.00/gallon, and the impact on bid pricing and since we don't plan to begin construction after Labor Day.
- We should have bids for the July 7th committee meeting.

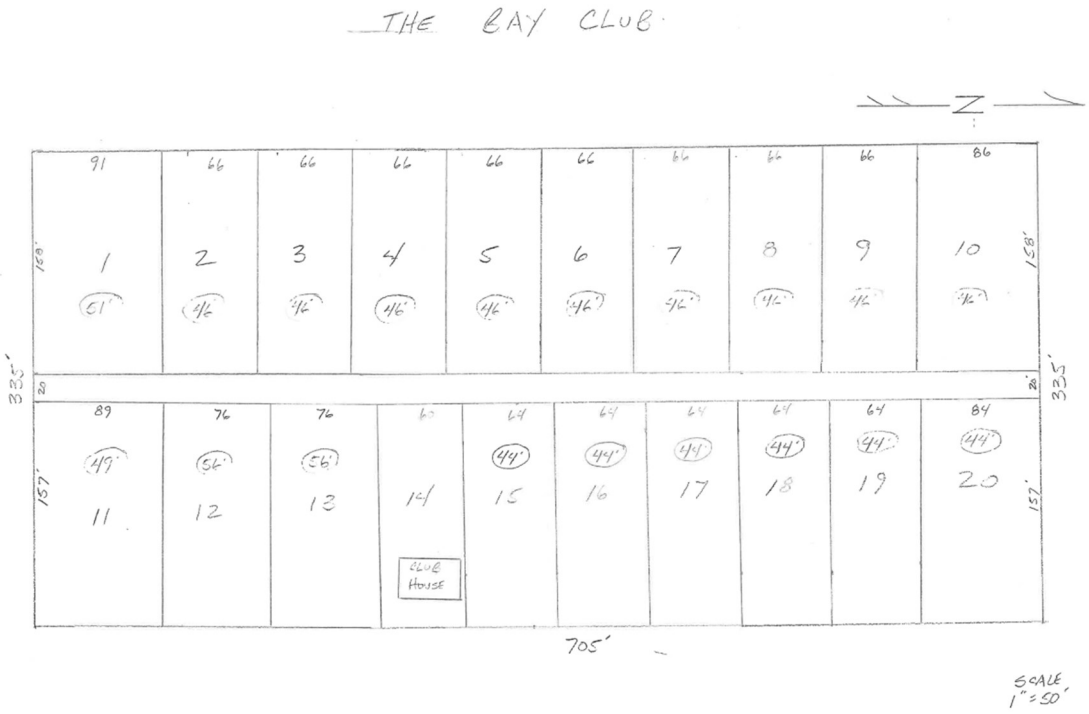

Navillo Development – 80 N. Walworth

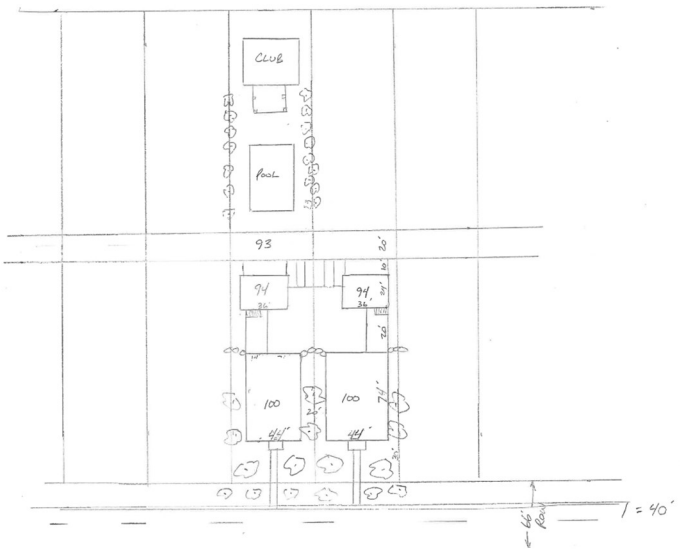

No Changes

- We reviewed a concept and requested additional information from the applicant.
- The concept plan does not address lack of storm sewer, onsite vehicle parking and maneuvering, the need to block traffic for deliveries, the stormwater design possible soil contamination, and requests for retaining walls on lot lines.

Former Elementary School Development – Jack Pease – Project No. 2501550

- We met with Developer Jack Pease on April 14, 2026; they have a revised concept that will more closely match the lot size and building styles of the neighborhood—see the snips below for the parcel size and planned layout of the typical lots. All utilities except water will be private and installed in the private alley between the lots.
- The next step is planning commission for concept approval.

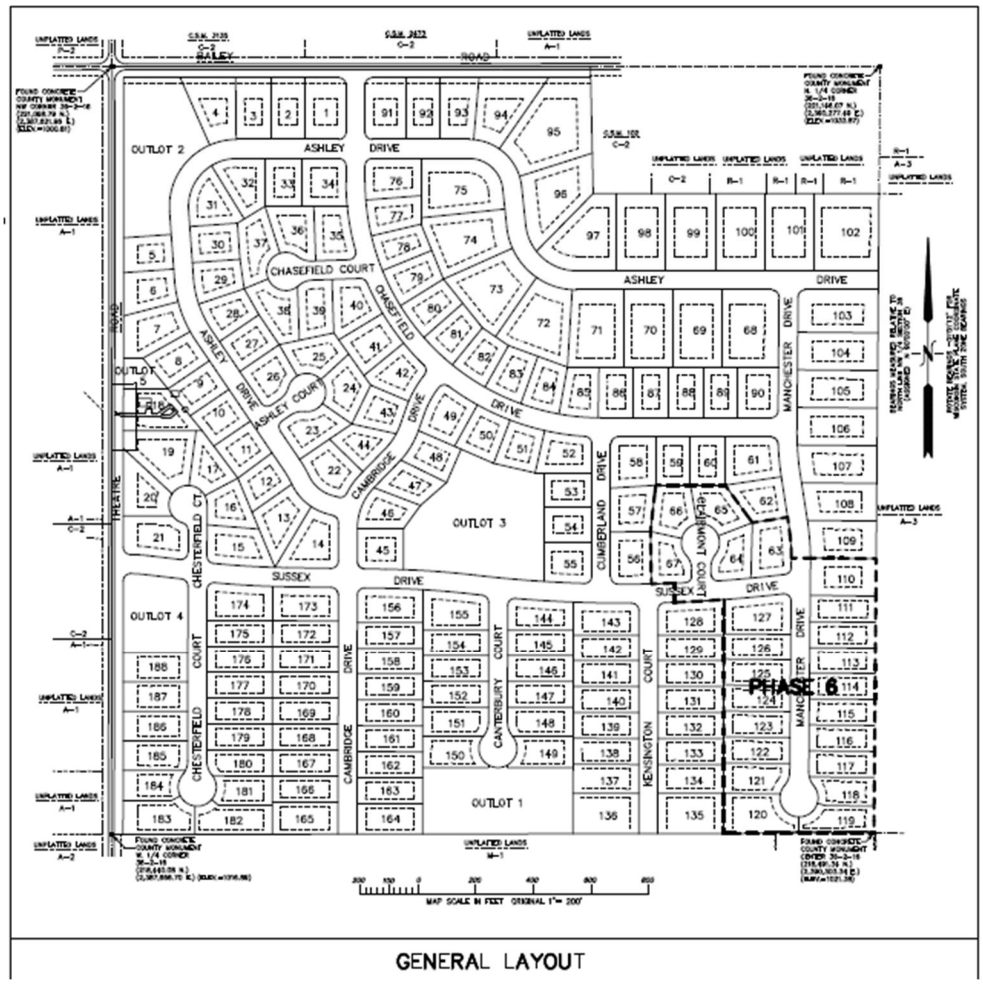

Willabay Meadows Subdivision – Project No. 0210482

No Changes

- The Village approved the annexation and developer agreement.
- The developer is obtaining regulatory approvals and dealing with issues with unplanned tree removal on private property issues.
- We will observe the construction of public improvements.

Bailey Estates – Drainage Dedication-- Phase 6—Phase 7 – Project No. 2501884

- Gerstad Builders is correcting drainage issues near Lot 164. We observed the drainage in the subdivision just after the 2.1-inch rainfall in April, just after a week of rainfall; the infiltration basin on Outlot 2 was near capacity—it is the first time we witnessed standing water in the basin; the upstream swales were functioning as designed.
- Phase 6: Utilities are installed.
- Phase 7 north of Phase 6 is still in the permitting phase.

Phase 6

VILLAGE OF WILLIAMS BAY

250 Williams Street | PO Box 580 | Williams Bay | WI | 53191 | vi.williamsbay.wi.gov

I. Call to Order

Trustee Bartholomew called the meeting to order at 09:00am.

II. Roll Call

Present: Trustees Mary Bartholomew, George Vlach, Lowell Wright
Also Present: Administrator David Lothspeich, Police Chief Justin Timm

III. Streets & Highways Committee Recommendation Re: Extending Two (2) Hour Parking on Walworth Avenue South to Liechty Drive and North to Olive Street on Both Sides of the Street and Elm Street to Williams Street on Both Sides of the Street, Offering one Resident Mirror Hanging Placard per Vehicle at a cost of $3.00 each to Residents with Proof of Residency on those Streets

The motion to recommend Village Board approval of Withdrawing the previous recommendation by Streets & Highways Committee Extending Two (2) Hour Parking on Walworth Avenue South to Liechty Drive and North to Olive Street on Both Sides of the Street and Elm Street to Williams Street on Both Sides of the Street, Offering one Resident Mirror Hanging Placard per Vehicle at a cost of $3.00 each to Residents with Proof of Residency on those Streets was initiated by Trustee Bartholomew and seconded by Trustee Vlach. Unanimously carried.

IV. Discussion and Possible Action on Downtown Parking

The Committee discussed Downtown Parking.

V. State Municipal Agreements Between the State of Wisconsin and the Village of Williams Bay Re: State Highway 67 Improvements

The Committee discussed the State Municipal Agreements Between the State of Wisconsin and the Village of Williams Bay Regarding State Highway 67 Improvements.

VI. 2024 Streets Maintenance Program - Status Update

The Committee discussed the 2024 Street Maintenance Program.

VII. Adjourn

The motion to adjourn was initiated by Trustee Bartholomew and seconded by Trustee Vlach at 10:12 am. Unanimously carried.

/s/ Tina Kolls, Village Clerk

These are not official Minutes until approved by the Governing Body.

VIBRANT SPACES GRANT

WISCONSIN ECONOMIC DEVELOPMENT

ENCOURAGING PLACEMAKING EFFORTS IN WISCONSIN COMMUNITIES

The **Vibrant Spaces Grant**, an element of the Wisconsin Economic Development Corporation's (WEDC's) Community Development Investment (CDI) Grant Program, is designed to assist communities in creating vibrant and engaging spaces that make it easier to recruit and retain residents, sustain a robust labor force, and enhance local quality of life. With the help of this grant, new and enhanced public gathering places will foster community connections and provide accessible locations for the programming and amenities local residents desire—with the additional benefit of boosting foot traffic for area businesses.

How it works

Grants in amounts from $25,000 to $50,000 are available to help local communities develop and enhance public spaces. The application must come from the municipality, and only one application per municipality will be considered per fiscal year. Previous awardees must wait at least one fiscal year between Vibrant Spaces awards (except for the City of Milwaukee, in which different commercial corridors may apply for a grant award annually). A Vibrant Spaces Grant application does not affect a community's broader eligibility for a CDI Grant. In the FY26 grant cycle, no more than 40 grants will be awarded. Applicants must provide a 1:1 match of the grant amount, with the exception of economically distressed communities or communities with population less than 5,000, which need only provide a 25% match.

Eligibility requirements

Competitive projects will:

- Incorporate multiple improvements within or associated with one public space.
- Demonstrate community engagement and support via a community document/plan and/or via letters of support from public, private, and civic partners.
- Be ready to begin construction during the current WEDC fiscal year.
- Create visible and lasting transformations that foster public activity.

Eligible activities

Applications will be evaluated based on criteria including:

- Creation of visible and pedestrian-oriented public space
- Potential of the space to attract multiple user groups and activities

LEARN MORE

For more information about applying for a Vibrant Spaces Grant, contact a WEDC regional economic development director.

You can find the list of regional directors and territories covered at **wedc.org/regional**.

- Impact of the project on the community, the district, and nearby businesses
- Demonstrated community support for the project (e.g., multiple funding partners, civic organization participation)

WISCONSIN ECONOMIC DEVELOPMENT

Community Development Investment Program

Program Guidelines for Fiscal Year 2026
Lead Division: Business and Community Development ☐ **New** ☒ **Revised** 7/1/2025 ☒**Grant** ☐ **Loan** ☐**Tax Credit** ☐**Technical Assistance**

Introduction

Background Information: The Community Development Investment (CDI) program will support urban, small city and rural community redevelopment efforts by providing financial incentives for catalytic, shovel-ready projects emphasizing commercial corridor driven efforts. Funded activities should lead to measurable benefits in job opportunities, property values and/or leveraged investment by local and private partners.

Program's Purpose: The program will support urban, small city and rural community redevelopment efforts by providing financial incentives for catalytic, shovel-ready projects emphasizing commercial corridor driven efforts.

Eligibility Requirements

Eligible Applicants: Community Development Investment grant applicants must meet the following criteria:

- Be a municipality (including counties, cities, villages, and towns), Tribal entity, other governmental authority, or a private developer designated by a municipality to apply on its behalf
- Provide a signed resolution by the elected governing body authorizing the submittal of the application(s) to the CDI Grant Program.
- Propose a project that does one or more of the following:
    - Develops significant destination attractions.
    - Rehabilitates and reuses underutilized or landmark buildings.
    - Infill development.
    - Historic preservation.
    - Infrastructure efforts, including disaster prevention measures, providing substantial benefits to downtown residents or property owners.
    - Mixed-use development (not exclusively residential).

Vibrant Spaces: The Vibrant Spaces funds are awarded to communities for investment in public projects that will enhance the community as an attractive place to live. The project must demonstrate a measurable quality of life enhancement to the community in a proactive, collaborative, community-driven effort.

Eligible applicants must:

- Be a municipality (including counties, cities, villages, and towns), Tribal entity, or other governmental authority.
- Provide a signed resolution by the elected governing body authorizing the submittal of the application(s) to the CDI-VS Grant Program.

Eligible Use of Funds: Development CDIs can fund the following activities:

- Building renovation
- Historic preservation
- Demolition
- New construction
- Infrastructure investment
- Building Relocation of CDI project property

An applicant that was impacted by an event that has resulted in a State or Federal Disaster Declaration within the 24 months prior to applying may receive funds for mitigation or preparedness planning and will receive additional considerations including the following:

- WEDC may reduce or waive the match requirements
- Applicants must demonstrate that other funding mechanisms (CDBG, WI Disaster Fund, FEMA, etc.) have been evaluated and fully utilized before applying for WEDC CDI Grant funding.

Vibrant Spaces: Vibrant Spaces grants can fund site-specific improvements that foster commercial corridor activation such as the following activities:

- Public Space Enhancements (including, but not limited to alleys, programmable plazas and park spaces). Enhancements can include landscaping, lighting, art, water features, and other fixtures.
- Public Signage within the space (e.g. wayfinding, interpretative signage, kiosks)
- Seasonal equipment with the intent to be used annually (such as tables, chairs, benches, bike racks, etc.)
- Parklets, parking lot conversions, or parking space conversions
- New public infrastructure projects (including site preparation and build-out of performance areas, programmable spaces and public restrooms to serve public spaces, and electrical)

Ineligible Use of Funds: Activities ineligible for program assistance or match include, but are not limited to:

- Event, staffing, and programming
- Buildings including demolition and new buildings (except for restrooms)
- Private spaces that are not open to the public
- Single-use spaces or sporting courts/facilities
- Activities that are otherwise eligible to be funded through other programs offered by WEDC
- Past costs
- In-kind contributions
- Indirect expenses (a.k.a. "soft costs")
- Ongoing maintenance costs

Matching: The applicant must provide matching funds in an amount of 3:1 of the CDI Grant being requested. In any of the following circumstances, the matching funds requirement is reduced to 1:1:

- The project is located in an Economically Distressed or Rural Community.
- The project is located in an Opportunity Zone.
- A key component of a secured/defined development is to provide childcare services or expand housing availability.
- For applicants where the project is in the designated district of a WEDC Main Street Community.

No more than 50% of eligible project costs may consist of other state and/or federal grant sources, excluding federal ARPA funds; exceptions can be made for projects utilizing federal ARPA funds.

Vibrant Spaces: The applicant must provide matching funds in the amount of 1:1 of the Vibrant Spaces grant being requested. Economically distressed communities (see definition below) or communities with populations of under 5,000 must provide a match of 25% of the grant being requested.

Available Incentives

FY26: $ 5,250,000

Vibrant Spaces: $ 1,000,000

Award Sizes: The maximum Development CDI grant may not exceed $250,000.

Vibrant Spaces grants will be between $25,000 and $50,000.

Awards per Applicant: No more than one grant per fiscal year shall be located within the boundary of a municipality, unless the applicant is in an economically distressed community or opportunity zone; in which case applicants can apply for up to two CDI grants per fiscal year.

Vibrant Spaces: Applicants may receive one Vibrant Spaces Grant every two fiscal years. In each fiscal year, applicants can only receive one Vibrant Spaces award per community/municipal boundary, except for the City of Milwaukee, which annually may apply for and receive a Vibrant Space award for one or more commercial corridors. Receiving a Vibrant Spaces grant does not preclude a community from applying for general CDI grants.

WEDC anticipates 20% of Vibrant Spaces to be awarded to communities under 5,000 in population.

Activities and Expected Outcomes

Assist 21 communities and achieve a 12:1 leverage of other investment.

Vibrant Spaces: Assist communities in creating a community space for public use in their commercial corridor and achieve a 1:1 leverage of other investment.

Impact: Funded activities should lead to measurable benefits in property values and/or leveraged investment by local and private partners.

Vibrant Spaces: Funded activities should lead to an increase in site usage and overall visitor traffic to the corridor, adding to the commerce potential for local businesses.

Metrics: As a community development program focused on real estate development, performance reporting metrics for CDI are focused around measuring eligible site work cost. CDI program metrics include the following list, and each project will include one or more of these metrics in its reporting requirements depending on the project's specified use of funds.

- Capital Investment
- Site Work
- Leverage – Total

Vibrant Spaces:

- Capital Investment
- Site Work
- Leverage – Total

Review Considerations: WEDC may take the following into account when considering a CDI award:

- Impact on the community.
- Located in an Economically Distressed community.
- Financial justification.
- Previous planning efforts.
- Alignment with Comprehensive Economic Development Strategy (CEDS)/Economic Development District (EDD) plan for the region.
- Readiness to proceed demonstrated by financial commitments in place.
- Involvement of public-private partnerships and public/community support and collaboration.
- Demonstrates involvement of diverse businesses, including women and veteran owned contractors, in eligible project costs.
- Primary building occupant is a diverse-, woman-, or veteran-owned business(es).
- Primary building purpose serves the communities of diverse-, women-, veteran-, or low- and moderate-income individuals.
- Clean energy technology investments included in the project (ex. solar panels, electric vehicle charging stations, use of state energy audit and/or energy rebate programs, etc.).
- Quality Urban Design: balancing preservation of existing heritage structures and streetscapes with new development.
- Other factors determined by WEDC.

Vibrant Spaces: WEDC may take the following into account when considering a Vibrant Spaces award:

- Demonstrated community support and partnerships.
- Impact on community, district, and businesses.
- Space attracts multiple user groups/activities.
- Visible pedestrian-oriented public space.
- Project readiness to proceed demonstrated by financial commitments in place.
- Alignment with destination creation strategies, including four-season use, and day and night activation potential.

Application Guideline

Timeline: The Development CDI and CDI-Vibrant Spaces programs have continuous application processes.

How to Apply: An interested applicant should contact a WEDC Account Manager to determine if their project is right for the program. Upon review of the project, and alignment with eligibility criteria, an applicant will be invited to submit their application through Network Wisconsin.

Award Process: The completed application will be assigned to an underwriter and go through the award review process.

Performance Reporting: Recipients must annually submit a performance report documenting capital investment, assessed taxable property values, and any other contract deliverable. Vibrant Spaces recipients will submit one performance report at the project's completion.

WEDC annually selects awards over $100,000 on a sample basis for an audit. All backup to the performance report and financial records are required to be maintained by the Recipient for a period of at least three (3) years after the last performance report is due.

WEDC may impose additional reporting requirements to evaluate project performance and to ensure compliance with contract deliverables.

Helpful Information

Definitions:

"Economically Distressed" - a county or municipality so designated by WEDC by considering the most current area and state data available for the following indicators:

- Unemployment rate
- Percentage of families with incomes below the poverty line
- Median family income
- Median per capita income
- Average annual wage
- Manufacturing assessment values by county

- Other significant or irregular indicators of economic distress – such as a natural disaster, or plant closings and layoffs

"Opportunity Zone" - a designated qualified opportunity zone in the State of Wisconsin under Internal Revenue Code § 1400Z-1.

"Rural Community" - a city, village, or town with a population less than 5,000.

Revision History

Program Inception – Fiscal Year 2013

- 7/1/2017: Consideration of multiple applications per community per fiscal year when funding is available, removes limitation of one CDI or BF grant per project, Added project or site development planning as eligible activity
- 7/1/2018: Allow applicants in a Designated Rural County to receive more than one grant per fiscal year, Reserve 50 percent of program funding for projects in a Designated Rural County
- 7/1/ 2019: Allow applicants in an Opportunity Zone to receive more than one grant per fiscal year; allow recipients to submit performance reports annually; clarify performance reporting requirements
- 7/1/2020: Expanded eligibility and funding for COVID-19 recovery initiative.
- 7/1/2021: Eliminated temporary CARES Act provisions; removed eligibility for planning projects; replaced Designated Rural County with Economically Distressed; added consideration for diverse businesses
- 7/1/2022: Expands considerations to determine making a CDI Grant; Adds Vibrant Spaces Pilot
- 7/1/2023: Defines Rural Community; reduces match requirement for rural communities and projects with key components of providing childcare our expanding housing availability; allows for developers to be the applicant/recipient entity.
- 7/1/2024: Expands eligible use of funds; updated review considerations to include clean energy investments; funds Vibrant Spaces
- 7/1/2025: Updates Vibrant Spaces to non-competitive; reduced Vibrant Spaces match requirement for projects in Economically Distressed Communities or communities under 5,000 in population; restricts number of applications per community

APPLICATION CHECKLIST AND INSTRUCTIONS

Network Wisconsin
Applicants will be required to submit applications through Network Wisconsin. Contact your Regional Economic Development Director to receive a grant application and instructions on how to use Network Wisconsin. WEDC Regional Director map and contact info.: wedc.org/regional

Project Deliverables
All project contracts will require:

- Start the project in WEDC's FY26. End the project and final performance report within two (2) years.
- Photos of the completed project
- WEDC logo on project signage
- Narrative identifying project impact including: the increase in the number and type of audiences using the space, impact on nearby businesses, number of events held

Application Checklist

1) Municipal resolution to apply.
2) Relevant community plan, records/minutes indicating previous project identification/discussion and/or letters of support that identify the project as a positive community investment.
3) Completed budget and cost estimates.
4) Photos and plans for the space (pictures of the amenities to be installed or project renderings).

Vibrant Spaces Grant

WISCONSIN ECONOMIC DEVELOPMENT

FREQUENTLY ASKED QUESTIONS

Project Selection

Project elements:

1) My space is specifically designed for one use, but will be open to others to use, is it eligible? **Answer:** No, projects must accommodate multiple uses.
2) Is a project to build new pickle ball courts eligible? **Answer:** No, because projects must accommodate multiple user groups and activities.
3) Is my boat ramp and fishing pier eligible? **Answer:** If the ramp and pier are elements of a projects improving a space accessible and visible from a commercial corridor and are part of a broader project, they are eligible, but standalone waterfront projects or those not adjacent to commercial uses would not be.
4) Are streetscaping elements eligible? **Answer:** Landscaping and public amenities within a defined space are eligible. Streetscaping or amenities for an entire corridor are not.
5) Are alley improvements eligible? **Answer:** Yes, but the alley should be a defined space that can be programmed for use. Alley improvements over multiple blocks and/or alleys that do not cater to pedestrians are not eligible.
6) Can the grant be used to renovate the inside and outside of a building in the space? **Answer:** The only interior renovations allowed inside of buildings are the construction (and renovation) of restrooms. Other renovations to the structure are not eligible (Those elements in the space - e.g. concessions - could be done separately from the grant).
7) Can the space be fenced and have operating hours for public use? Can the space be used for private events? **Answer:** Yes, provided that the space is generally accessible to the public, it may be fully/partially fenced to accommodate certain activities. Operating hours (such as nighttime closures of restrooms) are permissible. Private events may also be permitted – as often seen in other municipal public spaces.
8) Is fencing an eligible expense? **Answer:** Yes, if it is associated with the space.
9) Would relocation of a memorial be an allowable expense as part of the overall project? **Answer:** Site preparation is eligible as a match, so the grading work associated with the relocation would be a match. The relocation itself would be outside of the grant and not eligible as a match expense.
10) Would a PA system be eligible? **Answer:** Yes, as long as its use is related to the space.

Project location:

11) Can the project be located on privately-owned property? **Answer:** Yes, but the site/property does need to be publicly accessible. If privately-owned, then a multi-year lease agreement or formal Memorandum of Understanding will be needed as well as property owner permission to carry out activities on the site.
    a. How long does the lease term need to be? **Answer:** Suggestion of two years or more.
12) Can the grant be used in a neighborhood park that isn't necessarily in a downtown space? **Answer:** Yes, but only if you can show the impact to neighborhood businesses.

Project Logistics and Funding

Applicants:

1) Can previous Vibrant Spaces grant recipients apply? **Answer:** Applicants may receive one award every two fiscal years, except for the City of Milwaukee, in which different commercial corridors may apply for and receive a VS award annually.
2) How do you define a community? **Answer:** Municipal boundaries define a community. One (1) application per community is allowed due to limited funds.

LOOK FORWARD

FREQUENTLY ASKED QUESTIONS, CONT.

3) Does the municipality have to be the entity carrying out the project? **Answer:** No, the municipality has to be the applicant and pass a resolution in support of the project, but the space can be built out/managed/programmed by community partners including but not limited to Business Improvement Districts, Chambers, Downtown Associations, Arts Districts, Libraries, etc.
4) Can the County or Redevelopment Authority (RDA) apply on behalf of a project in a municipality in the region? **Answer:** Yes, a County or RDA may be the applicant for a project, but only one application per municipal boundary will be accepted regardless of the applicant.
5) Can contiguous municipalities submit coordinated applications relating to projects such as a bicycle/pedestrian trail that would connect multiple communities? **Answer:** Trail extension is not eligible, but trail head and gathering spaces along trails that would benefit commercial district businesses, and that will be used for multiple audiences, are eligible. If a space spans municipalities, is recommended that one or both municipalities submit grants for their portion of the project, as contracts will be with a single entity.
6) How do we find out who to contact at our local municipality? **Answer:** Contact your WEDC Regional Director and they will provide you with the appropriate community contact information.

Funding:

7) Do I have to have all 'match sources' secured at the time of application? **Answer:** At the time of application, WEDC will look to have 80% of total project funding secured, the remaining should have a strong plan in place to get funding commitments secured.
8) WEDC will allow a total of two (2) draw requests for the project. Grant funds will be disbursed on a pro-rata basis to match the amount of matching funds identified with the draw(s).
9) Is ongoing maintenance of the site eligible? **Answer:** No, but we encourage applicants to have a plan to maintain their project/installation and to address that plan in their application.
10) What are eligible grant and match activities? **Answer:** Eligible activities include the following:
    a. Public Space Enhancements (projects activating alleys, programmable park spaces, vacant parcels, and underutilized parking lots including elements such as public art, landscaping, benches, bike racks, etc.)
    b. Public Signage (wayfinding, interpretive signage, kiosks and other signage located in and associated with the space)
    c. Public Infrastructure (restrooms, water features, electrical, lighting, site preparation)
    d. Seasonal Equipment with the intent to use annually (tables, chairs, umbrellas, heaters)
    e. Site preparation such as grading, stormwater, etc. (Both grant and match eligible in FY23.)
11) What are ineligible grant and match activities? **Answer:** Ineligible activities include the following:
    a. Building improvements (other than restrooms for public space use) – no interior renovations
    b. District- or community-wide improvement projects
    c. Events, staffing, programming, ongoing maintenance
    d. Private spaces not open and accessible to the public
    e. Site acquisition costs and lease costs
    f. Activities otherwise eligible to be funded through other WEDC programs
    g. In-kind contributions of materials or labor
    h. Demolition
12) Can donated goods or services be used as match for the grant? **Answer:** No, but the value/impact of the donations should be summarized in the narrative.

LOOK FORWARD ›

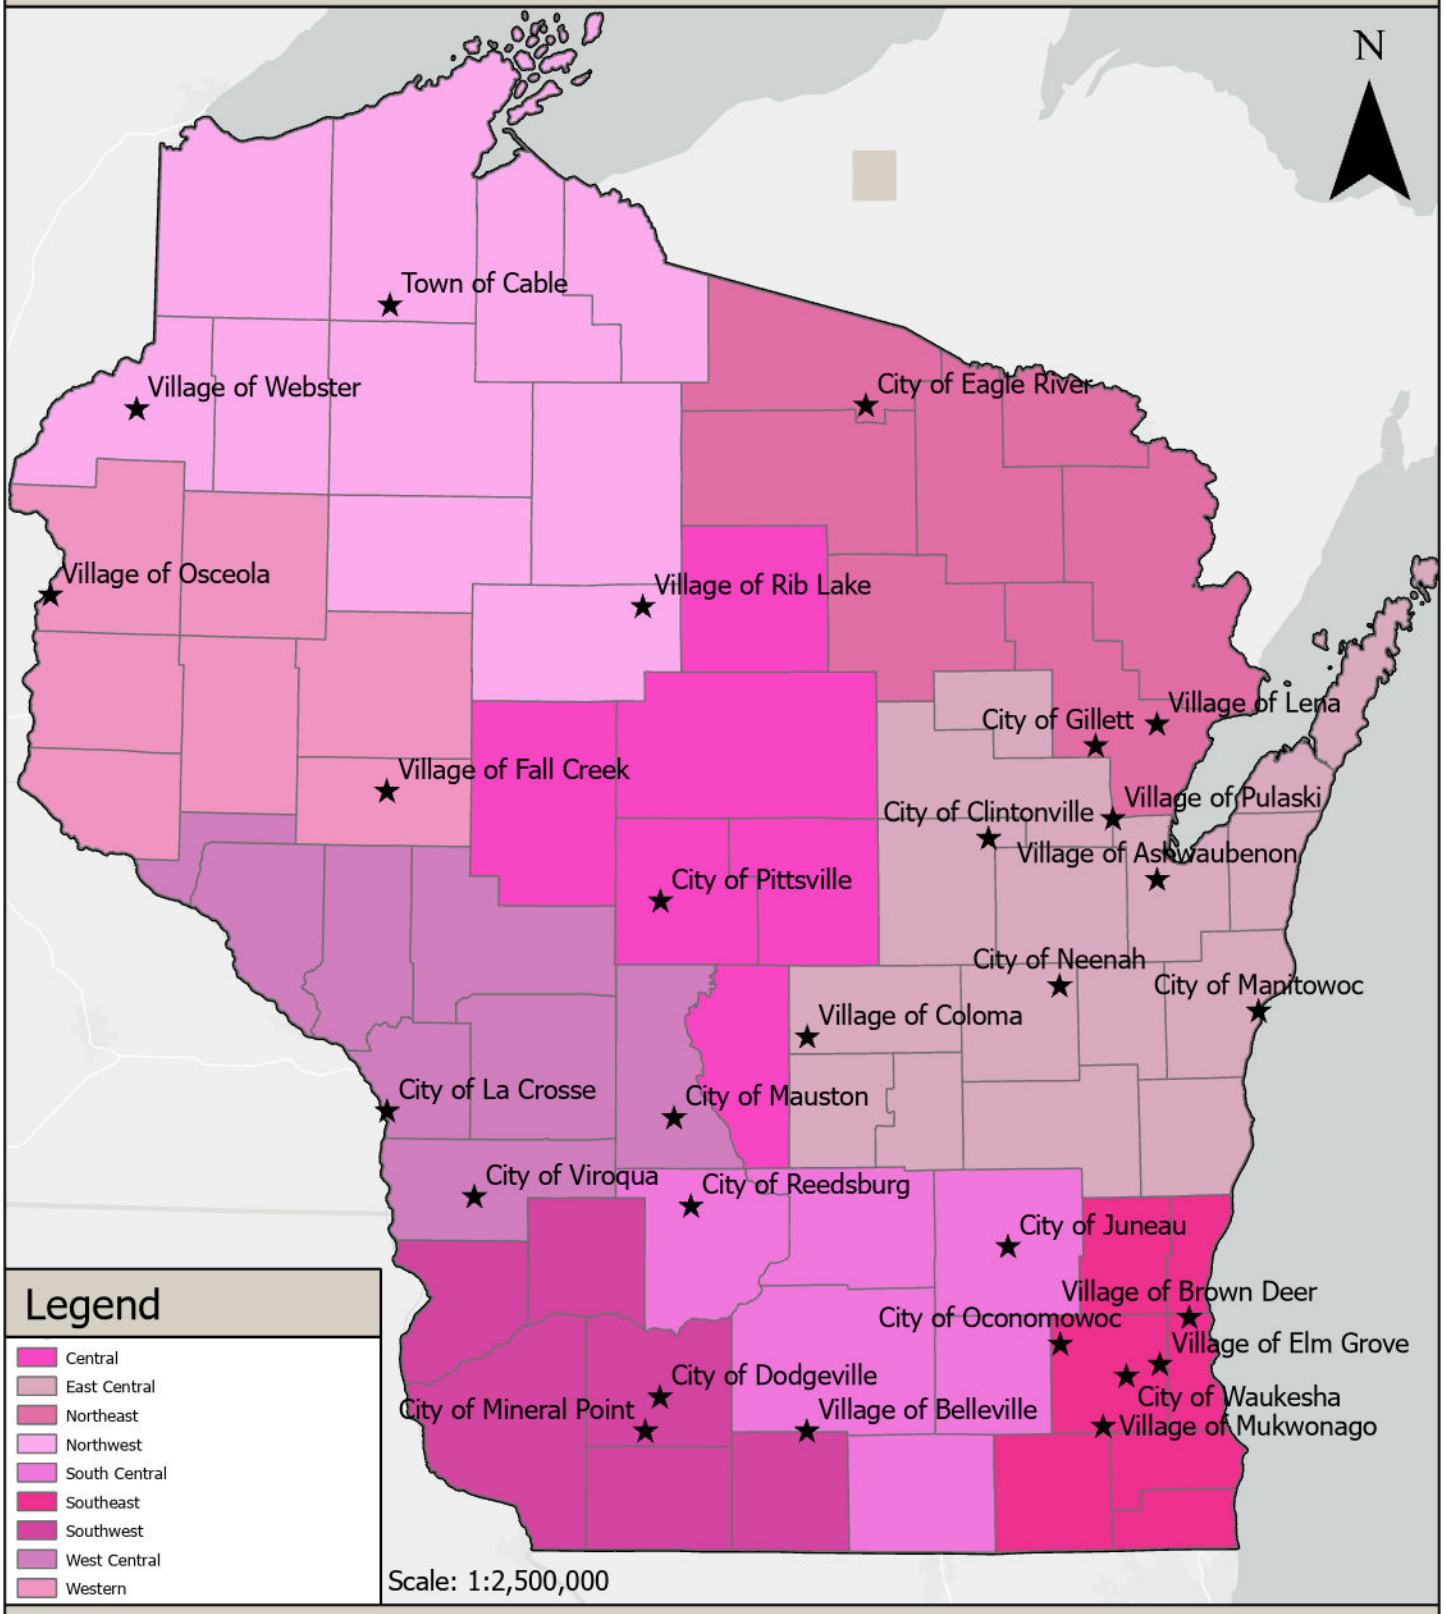

FREQUENTLY ASKED QUESTIONS, CONT.

Grant Application and Process

1) How long do we have to complete the project? **Answer:** Project must start after the application is accepted into WEDC's Underwriting. Contracts will be for two (2) years.
2) Is the space design expected to be final by the time of application? **Answer:** No, but a close representation of the future space needs to be provided with the application to have an accurate budget, and stakeholder/partner consensus regarding the project and process must be very well defined within the application.
3) If we are planning to start some of the project before we submit a VS application, can we still apply? **Answer:** Yes, once a completed application is received (and accepted as complete into WEDC's Underwriting), costs incurred on and after the acceptance date may be considered eligible as match, assuming the grant is awarded. Project elements completed prior to that date will not be eligible for match or reimbursement, but prior progress does not impact the eligibility for funding of the space. Provided sufficient costs remain after the acceptance date to support both match and funding, projects may still apply.
4) Can your project be out to bid, but just not have started yet? **Answer:** Yes.
5) Is a project eligible to apply that already has site work started? **Answer:** Yes, but the date the application is accepted into WEDC's Underwriting is the "start date" for the project. Only after the "start date" will expenses be considered grant and match eligible.
6) If I don't have a community plan that identifies the project, what other documentation would be acceptable to provide? **Answer:** Meeting minutes, news articles, community meeting announcements, and/or documentation of the conversations/meetings that have been had to date with partners/stakeholders regarding the project.
7) Are there any requirements or advantages for rural or low-income areas? **Answer:** Yes. Match requirement has been reduced from 50% to 25% for CDI-VS grants in which:
    - The project is in an Economically Distressed Community.
    - The project is in a community under 5,000 people.
        - Twenty percent of annual CDI-VS funding will be intended to finance projects in communities under 5,000 in population.
8) Deadline for Regional Directors to submit applications into Underwriting for FY26 funding is February 1, 2026.

CDI-VS Finalists

CDI-VS Finalist Communities for FY2025

Wisconsin Economic Development Corporation, 2025

Village of Williams Bay Ordinance / Code Review Priorities

Code #	Code Name	Date last ame	Reason for Review	Status	Notes	Timeline
229-3, 229-8, 390-0807	Lighting Outdoor>Shielding of outdoor light fixtures and Architectural lighting		Review lighting ordinance with Yerkes Observatory and revise with "dark skies" in mind. (Yerkes concern)			
390-0312	Zoning>Land Use Regulations>Storage Land Uses		Review for enforceability of item storage in yards to ensure yards do not become overloaded with items. (resident concern)		Notes by Allison- Per ordinance we currently allow a certain amount of boats/trailers to be parked on site (2). Will need more information about types of storage.	
327	Transient Merchant		Review and consider revising to change “eleemosynary” to “charitable” or similar. Review and consider whether food trucks might fall under the definition of Transient Merchant. Ensure clarity as to registration for all employees or contractors of Transient Merchant, versus the company. Review current relevance of health certification 327-4 (B3). Provide a process for code enforcement?		03/05/26 - Combine with 390-0316 - produce state license for annual license (Allison & Susan)	Summer 2026
390-0316	Zoning>Land Use Regulations>Temporary Land Uses		Review B for potential revision to address food trucks – do these need their own ordinance? Identify allowable location(s), events & permits, and commercial food trucks on private (residential) property. Clerk receives 1-2 requests/month.		03/05/26 - Combine with 327 and plan to update by summer (Allison & Susan). Notes by Allison- This should be its own ordinance, and should be in our licensing code.	Summer 2026
345-10	Mirroring county fee schedule for police fees		Consider revising this code to indicate that applicable fees will “mirror” the Walworth County Fee. Work with Chief Timm on this.			
Article 10: 390-1012 and 390-1212	Signs		Discuss with Zoning Administrator about potential issues / enforcement with signage.		03/05/26 - #2 priority, especially setback placement (Allison & Susan) - no concerns about signage voiced at 3/7 listening session. Notes by Allison- Need a full sign code re-write (TOP PRIORITY ITEM FOR ZONING)	
390-0809	Fencing Standards		Review and consideration of any updates. Review number and type of requested variances to fencing code. How many have been approved? Denied?		03/07/26 - Listening session - support for up to 6" setback from property lines. Residents don't want to lose land on the other side of their fence. 03/05/26 - #1a priority (tied w/390 Art 6) (Allison & Susan). Notes by Allison- Need a full re-write on this section. (TOP PRIORITY ITEM FOR ZONING)	
Code?	Waterway Structure permits		Village Administrator identified this potential issue. More research is needed.			
Code?	Delivery trucks		Loading zones for delivery trucks in the business district where residential homes exist.		03/02/26 - Streets & Highways is investigating recommendations for code change. For GG - could remove three parallel parking spots on West side of South Walworth St.	
NEW	Business license		Require business license with annual inspections (requested by Code Enforcement Officer as need - Heat Wave Yoga signage issue). Review Fontana & Elkhorn license code as reference. Consider bundling annual business license with alarm permit fees and annual inspection fees. If ordinance is created, would need form, fee structure, and coordination process with Building Inspector and Village admin. Consider shifting process so that building occupancy permits go to zoning to issue the business license to ensure compliance.		03/05/26 - Combine with 125-6 to be proposed by end of summer 2026 (Allison & Susan). Notes by Allison- This was discussed in our last meeting, we need to develop an ordinance to allow us to request business/occupancy licenses to all commercially zoned property.	Summer 2026
125-6	Alarm permits		Review and revise with enforceable language to ensure alarm permits are paid annually.		03/05/26Combine with NEW Business license by end of summer 2026 (Allison & Susan).	Summer 2026
390 Article 6	Non-conforming structures		Code Enforcement Officer requested review as Village code seems outdated. Other communities have more detailed code. Need to review state statute. Village is currently issuing permits that don't comply with code.		03/05/26 - #1b priority (Allison & Susan)Notes by Allison- This was discussed in our last meeting, this section needs a full update. (TOP PRIORITY ITEM FOR ZONING)	

390-0213	Cedar Point Park Zoning Code (CPPA)	Code has several discrepancies from every other residential zoning district, such as maximum lot coverage, landscape surface ratio, lake setbacks etc. There are many grey areas and missing items in this code. CCP is willing to work together with us on a re-write. Current board would like to reduce discrepancies between Village Code and their HOA ordinances per discussion on 4/9/26. Specific interests: 50% green space; tree permit enforcement; systemic stormwater approach; stronger partnership in code development and enforcement.		03/05/26 - Susan to contact CPP association president to determine their timeline for this. Notes by Allison- There is so much ongoing construction in CPP this is a (TOP PRIORITY ITEM FOR ZONING) because the construction is not going to slow down. Allison agrees the 50% green space should be a requirement across the district. Doug Snyder reviews stormwater. Dave indicated that the Village cannot require association approval before acceptance and issuance of permits.	
No section	Overall zoning code update	Our ordinance does not address the definition of an alley, the setback requirements from an alley, or garage construction off an alley. This needs to be clarified for all residential properties that have an alleyway. (also a CPPA concern)			
205-?	Long-term rental annual registration	Current ordinance requires a $10 fee for long-term rental properties (leased). This is not enforced, per Allison.		03/05/26 - recommend revising to require annual registration and inspections for tenant and property-owner safety (Allison & Susan)	
345-4 + various 390- ordinances	Parking Restrictions	Outdated and insufficient.		Need to remove reference to Collie Street parking which was based on the school. Need to address street parking of boat trailers on residential streets - especially in the central business district / near the lake. Work with Streets & Highways. Consider a separate parking ordinance that is referenced in multiple places versus having parking dispersed across multiple uses. Working on pulling all parking references.	May-26
	Bird City Renewal	Jim Killian is completing application for Bird City Renewal. They are requiring an ordinance for cats to be on leashes when outdoors. They are also requiring information about how our community regulates communication tower construction, siting, and lighting to mitigate their risk to migrating birds.	No action needed at this time.	WB does not currently include leashing cats in its ordinance, just dogs. Dave indicated the only lighting on th ecell tower is what is required to be included by the FAA and restricting lighting may create a safety issue.	
	Trees - 262-249-6701 - call for concerns				

Currently, parking is fragmented and duplicated across three main chapters: Land Use, Zoning Districts, and Vehicle Ordinance. There are over 50 individual ordinance sections that reference parking across the code:

- Article 3 repeats parking requirements across many use types
- Article 2 references parking in multiple districts
- Article 8 includes multiple detailed standards
- Nonconforming and other cross-references

In addition to several sections needing to be updated based on recent needs, the current model is partially centralized with references to Article 3 and Article 8, but inconsistent in repetition and cross-referencing.

This creates redundancy, a risk of inconsistency over time, more difficult enforcement (staff must check multiple chapters), and more time-consuming updates (changes must be made in multiple places).

Ordinance Model	Pros	Cons
Distributed (current model)	• Context- specific (rules are embedded where used) • Familiar structure for legacy code	• Duplication • Misalignment of future amendments • Difficult for developers or residents to interpret • Enforcement ambiguity
Centralized Parking Ordinance	• Single source of truth • Easier updates (change once – applies everywhere) • Cleaner zoning code (less clutter) • Better enforcement consistency • Aligns with best practice in modern municipal codes (Madison - Ch. 28.141, LaCrosse – Ch. 115 hybrid), Mount Horeb – Ch. 17)	• Requires initial restructuring effort (BZO chair / Zoning Administrator; legal review) • Need to carefully manage cross-references

Recommendation: By the end of May 2026, ***create a centralized parking ordinance for Zoning*** *but keep vehicle behavior ordinances (189-5, 242, 345-4, etc.) separate yet coordinated.* ***Integrate loading requirements*** *for commercial use.* ***Update ordinance*** *to address concerns on South and North Walworth Avenue, East Cherry, outdated requirements on Collie Street, and Streets & Highways recommendations.* ***Replace duplicative language*** *with "Parking shall comply with Chapter XXX – Parking and Loading."*

Town of Delavan Fire & Rescue Department
April 24, 2026

PROPOSAL FOR FIRE PROTECTION SERVICES

Village of Williams Bay, Wisconsin

---

1. COVER LETTER

The Town of Delavan Fire and Rescue Department respectfully submits this proposal to provide Fire Protection Services to the Village of Williams Bay. While this proposal focuses specifically on Fire Protection, it is supported by the full capabilities of a combination Fire/EMS department, including Advanced Life Support (ALS), technical rescue, hazardous materials response, and emergency management.

Our proposal is built on a **team-based, shared service approach**, focused on working together with the Village to strengthen response reliability, improve consistency, and provide a practical, sustainable path forward. This approach builds on the strong working relationships that already exist between our departments and reflects a commitment to supporting one another while maintaining local identity.

Supporting this proposal are the Department's **2025 Annual Report** and the independent **2026 McMahon Staffing Study**, which provide additional context on current operations, performance trends, and future service considerations.

In preparing a detailed and responsible proposal, there are several items where additional clarification from the Village would help ensure accuracy, alignment, and long-term success.

To better align this proposal with the Village's expectations, we respectfully request clarification on the following:

- How does the Village envision balancing investment in its current department with any future partnership or shared service model?
- Has the Village considered a broader shared service approach involving multiple neighboring departments to address regional staffing challenges?
- What contract term is the Village considering for this service agreement?
- What is the long-term vision for fire protection services within the Village of Williams Bay?
- How does the Village plan to handle fire inspections and associated revenues such as 2% dues under a new service model?
- What are the Village's long-term plans regarding station use, staffing, and facility needs within Williams Bay?
- How would ambulance response be coordinated during fire incidents under a new service agreement?

These questions are intended to help both parties better understand expectations and ensure that any proposed service model is practical, sustainable, and aligned with the Village's long-term goals.

---

2. DEPARTMENT BACKGROUND & STAFF EXPERIENCE

Established in 1925, the Town of Delavan Fire and Rescue Department has grown from a volunteer organization into a modern combination fire and EMS agency providing 24/7 service. The Department operates from two stations and serves a diverse response area including rural, residential, commercial, and lakefront environments.

The Department is led by experienced command staff and includes full-time and paid-per-call personnel. Services include fire suppression, ALS EMS transport, technical rescue, hazardous materials response, fire prevention, and emergency management.

The Department regularly operates within MABAS Division 103 and maintains strong working relationships with neighboring communities, including the Village of Williams Bay.

---

3. SERVICES TO BE PROVIDED (A–J)

A. Governance & Oversight

The Department operates under municipal ordinance, approved bylaws, and oversight by an independent Police and Fire Commission. This structure ensures accountability, transparency, and compliance with Wisconsin statutes.

B. Organizational Structure

A clearly defined chain of command (Chief → Assistant Chief → Captains → Lieutenants → Personnel) supports effective supervision, communication, and decision-making. This structure aligns with ICS/NIMS principles.

The Department also maintains established working relationships with neighboring agencies through automatic aid, joint training, and coordinated response practices. These existing relationships provide a strong foundation for enhanced cooperation without requiring structural changes.

C. Level of Service

The Department responds to approximately **700–900 calls annually** and maintains 24/7 response capability. ALS-level response and multi-unit fire suppression capability are available at all times. Response times average approximately **6–7 minutes**, as documented in the 2025 Annual Report.

D. Staffing Model

A combination staffing model includes both full-time personnel and paid-per-call members. This structure provides flexibility while ensuring reliable coverage. Current trends indicate increasing demand and regional staffing challenges.

E. Future Growth

The independent **2026 McMahon Staffing Study** identifies the need for additional full-time staffing over time and supports consideration of shared service approaches as a practical long-term solution. The Department is positioned to scale services responsibly to meet future demand while maintaining service reliability.

F. Equipment / Vehicles

The Department maintains a modern and diverse fleet designed to support all-hazard response across urban, rural, and lakefront environments. The current fleet includes:

Fire Suppression Apparatus

- Engines: 2
- Ladder / Tower: 1
- Brush/Grass Units: 1

Water Supply (Rural Operations)

- Water Tenders / Tankers: 2

Rescue & Specialty Units

- Heavy Rescue Units: 1
- Utility/Support Vehicles (including pickups): 3
- Personnel Chase Vehicles: 2

EMS (Support Capability)

- ALS/AEMT Ambulances: 3

Specialized Equipment

- UTV / Off-road Units (with trailer): 1
- Airboat / Water Rescue Units (with trailer): 1
- Division Hazardous Materials Truck
- Storage Trailer: 1

All apparatus and equipment are maintained through a structured inspection and maintenance program to ensure operational readiness. This fleet allows the Department to scale response appropriately—from single-unit incidents to multi-company fire events—and to support regional mutual aid operations when needed. The Department's apparatus configuration and deployment capability are consistent with the operational demands and response expectations identified in the **2026 McMahon Staffing Study**.

G. Facilities

The Department operates from two stations that provide geographic coverage, operational flexibility, and support for both fire and EMS services. These facilities are configured to support both daily response needs and larger-scale incident operations.

Station 1 – Headquarters (5698 Town Hall Road)

Station 1 is a **20,000-square-foot, full-service facility** that serves as the Department's primary headquarters and houses both personnel and frontline apparatus.

Apparatus & Bay Configuration

- 9 apparatus bays with expansion capability
- Supports deployment of primary fire, rescue, EMS, and specialty units

Operational Support Areas

- Dedicated decontamination and gear processing areas
- SCBA compressor and maintenance workstations
- Medical supply, tool, and equipment storage rooms
- Laundry and utility support areas

Administrative & Training Facilities

- Multiple administrative offices for command staff and inspectors
- Radio/report writing room supporting operational documentation
- Conference and training/assembly room for department and regional use
- IT and communications infrastructure supporting operations

Personnel Accommodations

- Living areas, kitchen, and bunk rooms supporting 24/7 staffing
- On-site facilities that support extended operations and shift staffing

This facility supports continuous operations, training, administrative functions, and serves as a central hub for large-scale incident coordination and regional response.

Station 2 – Satellite Station (2702 County Road O)

Station 2 is a **3,600-square-foot satellite facility** that enhances response coverage across the service area and provides strategic apparatus placement.

Apparatus & Bay Configuration

- 3 apparatus bays with capacity for up to 4 units
- Supports deployment of engine, tender, ambulance, and support vehicles

Operational Role

- Improves response times in outlying areas of the district
- Provides a secondary response location for personnel
- Supports mutual aid coordination and regional response needs

Basic Support Facilities

- Living room, kitchen, and bathroom facilities
- Supports short-duration operations and staging

While Station 2 currently has limited accommodations for continuous staffing, it plays a critical role in extending coverage, improving response times, and supporting overall system flexibility across the Town.

H. Department Inventory

Comprehensive inventory systems are maintained for apparatus, equipment, and EMS supplies, supported by regular inspection and maintenance procedures.

I. Operations

Operations are guided by established Standard Operating Guidelines (SOGs) covering fire suppression, EMS, hazardous materials response, safety, and training. The Department maintains an ISO Class 6 rating and operates under a DHS-approved EMS Operational Plan.

J. Implementation Strategy

Implementation would occur in phases:

- Phase 1: Agreement finalization and operational alignment
- Phase 2: Training integration and deployment refinement
- Phase 3: Long-term evaluation and adjustment

---

5. COST PROPOSAL

The Town of Delavan Fire and Rescue Department proposes a cost structure based on actual service demand, utilizing a per-call structure derived from current operational cost data and historical call volume.

Based on 2023–2025 call data, the Williams Bay Fire Department averages approximately 118 fire-related calls annually, which serves as the basis for the cost scenarios below. Detailed call data and cost calculations are attached.

Per-Call Cost Options

The following cost options reflect calculated per-call costs based on actual operational expenses and call volume.

Cost Option 1: EMS Staffing & Ambulance included
Estimated Annual Cost: $325,810
Estimated Cost Per Call: $2,761

This option reflects the calculated cost per call based on actual operational expenses and call volume.

Costs include:
· Personnel response at time of call
· Apparatus usage and operational deployment
· Proportional equipment and maintenance costs

Cost Option 2: EMS Staffing included, no Ambulance
Estimated Annual Cost: $319,805
Estimated Cost Per Call: $2,710

This option reflects the calculated cost per call based on actual operational expenses and call volume.

Costs include:
· Personnel response at time of call
· Apparatus usage and operational deployment
· Proportional equipment and maintenance costs

Cost Option 3: No EMS Staffing or Ambulance included
Estimated Annual Cost: $194,123
Estimated Cost Per Call: $1,645

This option reflects the calculated cost per call based on actual operational expenses and call volume.

Costs include:
· Personnel response at time of call
· Apparatus usage and operational deployment
· Proportional equipment and maintenance costs

Cost Flexibility

If Williams Bay prefers, the total annual cost may be adjusted based on the actual number of calls responded to annually during the contract period.

6. CONCLUSION

The Town of Delavan Fire and Rescue Department offers a proven, practical, and customizable approach to meeting the Village's Fire Protection needs.

This proposal reflects a **team-oriented, shared service approach** focused on reliability, sustainability, and cooperation.

The attached **2025 Annual Report** and **2026 McMahon Staffing Study** further demonstrate the Department's performance, operational capacity, and readiness to support future service needs.

This proposal is designed to provide a practical, sustainable path forward while maintaining flexibility for the Village's future decision-making.

POLICE & FIRE STAFFING ANALYSIS

TOWN OF DELAVAN

WALWORTH COUNTY

WISCONSIN

DATE: April 21, 2026
McM. No. D0709-04-26-00101

I. INTRODUCTION

McMahon Associates, Inc. (McMahon) was retained by the Town of Delavan to conduct an organizational review of the Delavan Police and Fire Departments. Included in this analysis is a review of current organizational structure, staffing, operational effectiveness, and governance structure.

This Study provides a review of the Departments and an analysis of future needs for fire protection in the service area.

II. PROJECT WORK TASKS

To complete the objectives set forth, McMahon evaluated the operations of both the police and fire departments to provide recommendations to improve its current operations. The McMahon Team also studied future growth in the community to develop a future needs analysis for the police and fire departments.

In conducting this study, McMahon consulting staff met with the Police Chief and the Fire Chief, as well as the Delavan Town Administrator. The leadership of the police and fire departments was also requested to provide a wide range of documentation to McMahon including budgets, call data, policies, procedures, etc.

The following presents an overview of the work tasks completed by McMahon during the project.

1. Developed a project team of appropriate users and stakeholders to oversee and participate in the project.
2. Conducted a Project Planning Meeting with the McMahon Project Manager, the Project Team and key project personnel. Defined scope and mission, discussed work plans, established liaison responsibilities, coordinated project schedules, and confirmed other general arrangements.
3. Obtained and reviewed documentation provided by the project team pertaining to the project.
4. Conducted interviews to evaluate the current and future needs and standards of performance of the departments. In conducting this study, we conducted virtual interviews with the following personnel:

- Delavan Town Administrator
- Delavan Police Chief
- Delavan Fire Chief

Interviews and observations primarily focused on the following:

- Current fire and police operations, staffing and levels of service
- Fire personnel and police workload, call volume and activity
- Administrative organizational structure
- Governance structure
- Population trends

5. Prepared for and facilitated a project status meeting to discuss the results of the interviews and observations with the Project Team.

6. Determined any public safety industry standards and trends related to the Department's operational requirements. During the development of all recommendations, McMahon considered many factors and standards as a basis for recommendations, including:

- National Highway Safety Traffic Administration (NHSTA)
- National Fire Service Accreditation Program (NFSAP)
- National Fire Protection Association (NFPA)
- Commission on Accreditation of Law Enforcement
- Federal Emergency Management Association (FEMA)
- National Fire Administration (NFA)
- Occupational Safety and Health Administration (OSHA)
- Insurance Services Office (ISO) Rating Schedule
- Federal Bureau of Investigation data (FBI)
- Bureau of Justice Statistics
- US Census Bureau

7. Developed a comprehensive Police and Fire Department staffing review and future needs analysis, utilizing the information provided by the documentation received, the interviews, and review of national standards. The projected growth and level of service needs were considered during the development of these recommendations. Recommendations included:

- Effectiveness and performance of current police and fire operations
- Efficient utilization of organizational resources
- Administrative growth and organizational structure
- Analysis of personnel and staffing needs
- Analysis of current governance structure

- Recommended an effective implementation plan

8. Facilitated a recommendation meeting to present preliminary recommendations and obtain feedback from the Project Team.

9. Listed and described the findings and recommendations on the police department and the fire department staffing needs, assessment and planning, and all other items evaluated and analyzed during the project.

10. Assembled the study report. Performed a detailed quality assurance review of the document to ensure that the document meets the expectations of the Project Team and conforms to McMahon's standards.

11. Prepared and delivered the draft report to the Project Team for review.

12. The Project Team's feedback into the draft report, adjusting the analysis where appropriate. Finalized the document and provided completed copies to all members of the Project Team.

III. PROJECT FINDINGS

The Town of Delavan's population has remained relatively stable since 2000, with no significant long-term increases or decreases. The community is characterized by a blend of urbanized corridors, rural agricultural areas, and lake-oriented residential neighborhoods. Lake Delavan, in particular, contributes to a unique demographic profile, with a mix of full-time residents, seasonal homeowners, and a growing number of short-term rental properties.

The following chart demonstrates the population changes over the past 24 years.

Figure: 1

2000 Population	2010 Population	2021 Population	2024 Estimated Population
4,559	5,285	5,210	5,179

Source: US Census Bureau

It should be noted that population levels fluctuate noticeably throughout the year. During the summer months, particularly June, July, and August, the Town experiences a substantial influx of visitors and temporary residents drawn to the lake and the area's proximity to Lake Geneva. The Town of Delevan has 3741 total housing units. 35% of the total housing units are seasonal, representing 1309 of those units. Comparatively the City of Delevan has 3572 total housing units. 39 of those units are considered seasonal. This seasonal surge has the potential to increase demand on public safety services, roadway capacity, and recreational oversight, especially around the waterfront and short-term rental clusters.

These seasonal dynamics, combined with the Town's mixed urban-rural character, create a service environment that may differ from communities with more static populations. Understanding these patterns is essential for planning staffing levels, deployment strategies, and resource allocation. Full-time population trends are provided below to illustrate the stable year-around residential environment.

Community Wide Risk Assessment

The Delavan Police and Fire Departments serve a community that has a growing seasonal population but is also becoming increasingly complex in its service needs. To remain effective, both departments must maintain a comprehensive understanding of the risks and demands present within their shared jurisdiction.

For the police department, the community's diverse land-use profile creates a wide range of law-enforcement responsibilities. Residential areas generate calls related to community safety, welfare checks, and neighborhood policing. Commercial and industrial zones increase the need for patrol presence, traffic enforcement, crime prevention, and incident investigation. Agricultural areas introduce challenges such as remote access, property-related incidents, and seasonal population fluctuations. As the community continues to grow, the police department must balance proactive policing with the ability to respond effectively to increasingly complex calls for service.

Covering approximately 36 square miles, the Town of Delavan includes a mix of residential neighborhoods, commercial districts, agricultural land, and industrial facilities. Each of these land-use categories introduces unique hazards, operational challenges, and service expectations that directly influence how both fire and police resources are deployed.

These demands shift noticeably with the seasons. Summer tourism dramatically increases population density and potential call volume, winter weather elevates risks related to roadway incidents and delayed response times, and spring and fall bring agricultural activity, brush-fire potential, and transitional weather hazards. Together, these factors shape the operational profile of the Delavan Police and Fire Departments and underscore the importance of coordinated planning, data-driven decision-making, and long-term resource development.

POLICE DEPARTMENT

To build a reliable and effective public safety network, police departments depend on a diverse set of systems, resources, and organizational structures. These include established departmental policies, specialized units and equipment, advanced communication and dispatch technologies, investigative and patrol procedures, and continuous training programs that ensure officers remain prepared for evolving challenges. Together, these elements create an integrated framework that supports proactive policing, rapid response, and the protection of community well-being.

The Police department is currently fully staffed with no vacancies. The department's authorized personnel of 14 sworn officers consist of the Chief of Police, Captain, Detective Sergeant, Patrol Sergeant, Uniformed Detective, and 9 patrol officers. The department has one administrative assistant and two Community Service Officers.

Patrol officers work a 5/2- 5/3 rotation 8.5-hour shift. There are two overlap shifts. One is 1030 AM-7 PM and the other is 7:30 PM-4 AM. The other shifts are as follows: day shift 6:30 AM-3:00 PM, afternoon shift 2:30 PM-11:00PM, and night shift 10:30 PM-7AM. The department maintains a minimum staffing level of 2 officers

on duty per shift. The overlap shifts are frequently used to cover open shifts for sick calls, vacation coverage, training absences, and temporary shift vacancies.

The department has a Marine unit that is staffed by one Community Service Officer (CSO) and a sworn officer. The mid-day overlap shift is the primary patrol unit assigned to the marine unit during the seasonal enforcement period. Marine staffing is impacted when the mid-day overlap shift is needed to fill road patrol vacancies. Currently the Captain and Detective Sergeant remain in the patrol rotation. They regularly flex to road patrol to cover open vacancies which affects their ability to fulfill their core supervisory and investigative responsibilities.

Call volume has shown a slow but steady increase over the last five years. The increase is due mainly to increased traffic enforcement. The population and call volume increase for the summer months due to it being a summer vacation destination. The Police Department does have 2 members on the County-wide SWAT team. They do not have a canine officer and have no schools in their jurisdiction, thus no School Resource Officer (SRO) program. The Police Department recently added sworn positions in 2018, 2021, and 2024.

As of 2025, the part-time police officer program was eliminated due to budget constraints. Historically, part-time officers played a vital role in maintaining operational continuity by filling shifts during full-time staff vacancies caused by leave, training, or illness. They also provided essential seasonal support to the Marine Unit, supplementing staffing during the summer months to ensure effective patrol coverage on Delavan Lake.

The Town of Delavan operates a single police facility totaling approximately 3,500 square feet. The building includes dedicated offices for the Chief, Captain, and two Sergeants, while the remaining sworn personnel share nine workstations in an open-cubicle configuration. The station also contains a public lobby and reception area, an administrative assistant workspace, a kitchen/breakroom, locker storage, and a small shower room.

Interview and training functions are supported by one training room and two interview rooms. Restroom facilities consist of one public restroom, one employee restroom, and one secure restroom designated for individuals brought into custody. Operational processing areas include an evidence processing room, secure evidence storage, a fingerprinting space, and an intoximeter/breath-testing room. Additional storage is limited to two small closets and a compact technology room.

The department also utilizes an unattached garage with one small bay and one large bay. This structure houses approximately five squad vehicles and provides storage for the radar trailer and other essential operational and training equipment.

Given the limited square footage and the number of specialized functions housed within the facility, space constraints remain a significant consideration as staffing levels and service demands continue to grow. Any future staffing expansion will require a careful evaluation of workspace capacity, evidence storage needs, and operational support areas to ensure the department can continue to meet the evolving public safety needs of the Town.

The Chief also noted that open-records requests have increasingly strained administrative capacity. The department uses Lexipol for policy and procedure management and is seeking authorization for one additional sworn officer through a potential referendum this fall.

Police Department Calls for Service Analysis

The FBI's National Incident-Based Reporting System (NIBRS) categorizes crimes into Group A and Group B offenses for reporting purposes.

Group A offenses are more serious or complex crimes that require detailed incident-based reporting, including information about victims, offenders, property, and circumstances of the offense. Examples of Group A offenses include assault, burglary, theft, motor vehicle theft, drug violations, fraud, and operating while intoxicated (OWI).

Group B offenses are generally less serious offenses and are reported as arrestee-only information, rather than full incident details. Examples of Group B offenses include disorderly conduct, trespassing, liquor law violations, curfew violations, and driving without a valid license.
This classification system helps ensure consistency in crime reporting nationwide while allowing agencies to provide more detailed information on serious criminal incidents.

The following section outlines recent crime trends specific to the State of Wisconsin. These trends provide important context for understanding how statewide patterns compare to local activity and help identify broader shifts in public safety, enforcement priorities, and community needs.

- In 2024, Wisconsin recorded about 279 violent crimes and 1,154 property crimes per 100,000 residents.
- Wisconsin's violent crime rate is generally lower than the US average, which was about 380 per 100,000 in 2022 compared with 297 per 100,000 in Wisconsin.
- Violent crime in Wisconsin fell about 8.5% from 2021 to 2022, a sharper decline than the national trend.
- Property crime makes up the majority of incidents statewide.
- Violent crime risk in Wisconsin is estimated at about 1 in 359 residents annually, below national levels.
- Urban centers (e.g., Milwaukee, Green Bay) have much higher Crime rates than rural Towns.
- Small Towns and rural jurisdictions often report very low violent-crime incidence but still experience property crimes.
- Calls for service and quality of life issues often drive workload more than major violent crime.

Five-Year Summary

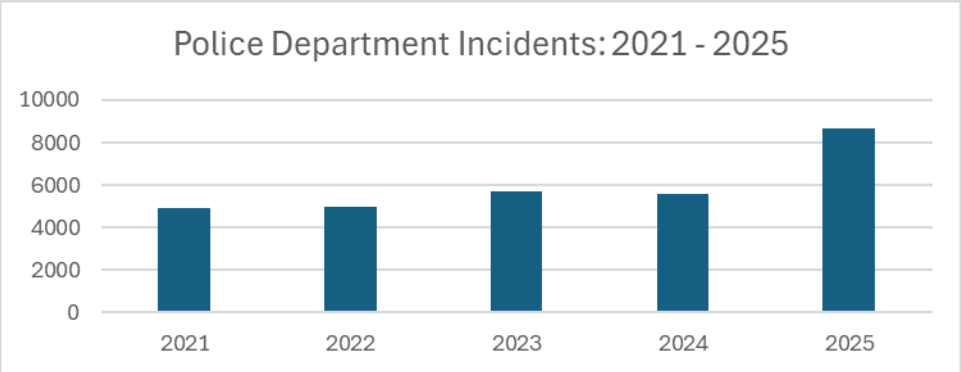

Over the five-year reporting period, UCR data reflects generally stable crime patterns with moderate fluctuations, particularly in property crimes and drug-related offenses. While total reported offenses declined in 2025 compared to the previous year, crimes against persons reached their highest level during the five-year period. Overall arrest activity has remained consistent in recent years.

The following charts illustrate the total number of calls received by the Police Department over the past five years. While overall activity has increased during this period, a detailed review of the data shows that much of this growth is directly tied to expanded traffic enforcement efforts. This increase in proactive enforcement, rather than a rise in broader criminal activity, accounts for the majority of the upward trend in call volume.

Figure: 2

Year	Police Department Incidents
2021	4,887
2022	4,948
2023	5,720
2024	5,583
2025	8,651

Figure: 3

FBI data indicates that police staffing levels across the United States average approximately 2.3 to 2.4 officers per 1,000 residents. This national benchmark, however, is not uniform; staffing levels vary significantly based on factors such as population density, community demographics, crime rates, and whether a jurisdiction is primarily urban, suburban, or rural. Regional differences also play a role. In the Midwest, for example, the average staffing level is slightly lower—about 2.2 officers per 1,000 residents—reflecting the region's mix of smaller municipalities and rural communities.

Using the Town's estimated 2024 population of 5,179 residents, the current staffing level of the police department equates to approximately 2.7 officers per 1,000 residents. This places the department modestly above the Midwest average and slightly above the national range. While being above average does not automatically indicate overstaffing, it does suggest that the Town maintains a comparatively strong police presence relative to similarly sized communities. This level of staffing can offer several operational advantages, including improved response times, increased capacity for proactive policing, and greater flexibility in managing training, leave, and special assignments.

It is important to note that population-based staffing metrics do not fully capture the seasonal fluctuations experienced by the Town. During peak tourism periods, special events, or times of increased recreational activity, the effective population can rise substantially. These temporary but recurring increases place additional demands on police services, often resulting in higher call volumes, increased traffic-related incidents, and greater need for visible patrol presence.

Because these seasonal surges are not reflected in standard census-based population counts, the calculated ratio of officers per 1,000 residents may understate the actual service burden placed on the department. When these fluctuations are taken into account, the department's staffing level may be more closely aligned with operational needs than raw population metrics alone would suggest.

FIRE – EMS DEPARTMENT

To create a comprehensive and effective response system, fire departments rely on a wide array of systems, resources, and organizational structures. This includes standardized operating guidelines, specialized apparatus and equipment, communication systems, incident command procedures, and ongoing training programs designed to maintain operational readiness. Together, these components form an integrated framework that supports safe and efficient emergency operations.

The fire department currently consists of 26 paid-on-call (POC) firefighters, 2 full-time AEMT/Firefighters, and 4 full-time Paramedics. The Fire Chief is a salaried employee but is not classified as full-time. Collectively, the organization represents a combination of full-time, part-time, paid-on-call, and administrative personnel. Training requirements, operational standards, and equipment capabilities have expanded significantly in recent years, reflecting both industry advancements and the increasing complexity of modern emergency response.

The EMS Division operates under the supervision of the Fire Chief and staffs a first-line Paramedic ambulance supported by a second AEMT-level ambulance. The division includes certified Paramedics and AEMTs who provide critical medical care to the community. Several EMS personnel also serve as firefighters, enhancing operational flexibility and strengthening cross-disciplinary response capability.

In 2022, the department transitioned from a fully POC model to a combination career/POC structure. Six full-time personnel now staff two on-duty positions around the clock, supplemented by 26 POC members who provide additional response capacity. The department delivers 24/7 coverage from two stations.
Station 1, located at 5698 Town Hall Road, is a 20,000-square-foot facility that houses:

- 1 Engine
- 1 Tower Ladder
- 1 Tender
- 1 Heavy Rescue
- 2 Ambulances
- 2 Personnel Chase Cars
- 1 Utility Pick-ups
- 1 Grass-Rig
- 1 UTV and Trailer
- 1 Airboat and Trailer
- 1 Storage Trailer

Station 2, located at 2702 CTH O. Station 2 is a 3600-square-foot facility that houses:

- 1 Utility Pick-up
- 1 Engine
- 1 Tender
- 1 Ambulance

Station 2 is not currently equipped with bunkroom accommodations, limiting the ability for personnel to staff the facility on a continuous 24/7 basis.

Fire Department Calls for Service Analysis

In 2025, the department responded to 668 incidents. This call volume demonstrates the department's capacity to manage a wide range of incident types, including medical emergencies, fire suppression, rescue operations, and mutual-aid responses. It's important to note that these figures reflect the actual number of incidents that occur each year. Historically, when a single call required both EMS and fire department response, the department recorded it as an incident for each division. As a result, one event could be counted twice, once for EMS and once for fire, even though it was a single incident.

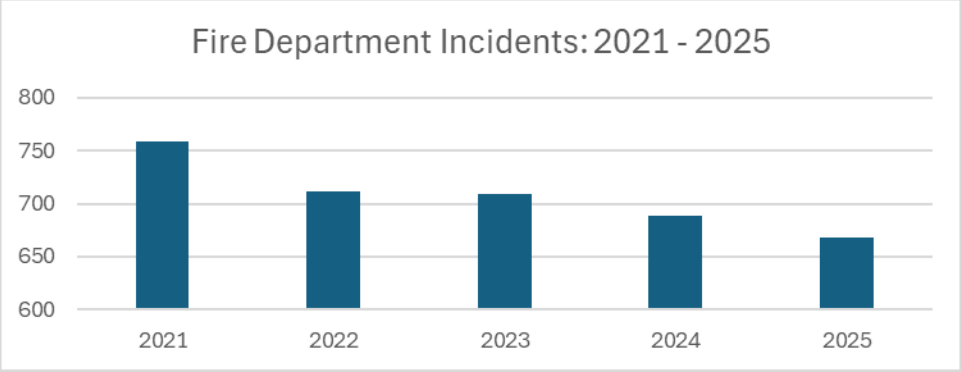

Five-Year Call Trends

Over the past five years, overall call volume has shown a slight but noticeable decline. While the reduction is modest, it provides useful insight into service demand and operational trends within the community. The following charts illustrate this pattern by detailing the fire department's incident activity across the same period, offering a clearer view of how call frequencies have shifted year to year.

Figure: 4

Year	Fire Department Incidents
2021	759
2022	712
2023	709
2024	689
2025	668

Figure: 5

According to the documentation provided, the fire department has steadily reduced its response times over the past five years. This improvement reflects a sustained commitment to operational efficiency, and the department should be commended for its efforts and encouraged to continue this progress. As shown in the following chart, the interval from call dispatch to unit arrival on scene has consistently decreased year over year.

Figure: 6

Year	Dispatch to On-Scene
2021	12:12
2022	8:19
2023	7:03
2024	6:48
2025	6:40

Fire Prevention and Community Engagement

The fire department conducted more than 269 fire inspections throughout the town, ensuring compliance with applicable fire and life-safety codes. This work is essential to maintaining strong relationships with

business owners and residents while proactively identifying hazards that could threaten public safety. Inspection records are maintained in the Chief's office, and more than 119 violations were documented.

Calls for service are a key component of this analysis, though they represent only one aspect of the department's annual workload. Fire personnel also support numerous community activities, including fundraisers, National Night Out, Trick-or-Treat events, and the annual Fire Department Open House. In 2023, the Fire Inspector and duty crews placed additional emphasis on improving address visibility and correcting other safety-critical issues to enhance emergency response effectiveness.

Automatic Aid & Mutual Aid

The Fire Department relies on strong, well-established partnerships with neighboring agencies to ensure effective public safety and dependable emergency response. These relationships support resource sharing, coordinated operations, and seamless communication during both routine incidents and large-scale emergencies. Maintaining and strengthening these partnerships is essential to the Department's operational effectiveness and enhances the overall level of service provided to the community.

In addition to local cooperative agreements, the Department participates in the Wisconsin Mutual Aid Box Alarm System (MABAS). This system provides a standardized, statewide framework for requesting and deploying resources during significant or complex incidents. Through MABAS, departments can rapidly access additional personnel, apparatus, and specialized capabilities that may exceed local capacity. Participation also promotes consistent operational procedures, improves regional coordination, and ensures that agencies can work together efficiently during high-demand or multi-jurisdictional events.

Despite the benefits of these partnerships, current data shows that the Town provides nearly twice as much mutual aid as it receives. This imbalance has the potential to add strain on available personnel and equipment, particularly during periods of high call volume or when staffing is already limited. While mutual aid is a critical component of modern fire service operations, the Town's disproportionate level of outgoing support underscores the importance of monitoring staffing levels, response capacity, and long-term sustainability.

National Standards and Performance Expectations

Wisconsin does not impose statutory response-time requirements for fire or EMS agencies. However, the National Fire Protection Association (NFPA) publishes widely recognized industry standards that outline recommended performance objectives. These standards are not regulatory mandates, but they serve as important benchmarks for evaluating operational readiness and service delivery.

For combination fire departments, national guidance is shaped primarily by two standards. NFPA 1710 establishes performance expectations for career departments, while NFPA 1720 is the standard most applicable to combination and volunteer-dependent organizations. NFPA 1720 addresses turnout times, minimum staffing, and the assembly of an effective response force; factors that directly reflect the operational realities of departments that rely on paid-on-call or volunteer personnel, particularly during evenings, weekends, and other off-peak staffing periods.

A key step in applying NFPA 1720 is determining the appropriate Demand Zone, which is based on the population density of the service area. This classification, urban, suburban, rural, or remote, drives the corresponding performance benchmarks, including recommended response times and the number of personnel required to form an effective firefighting force. Accurately identifying the Demand Zone ensures the department is evaluated against standards that align with the community's characteristics, risk profile, and service expectations.

Figure #7

NFPA 1720 Table 4.3.2 Staffing and Response Time				
Demand Zone	Demographics	Minimum Staff to Respond	Response Time (minutes)	Meets Objective (%)
Urban	>1000 people/sq. mile	15	9	90
Suburban	500-1000 people/sq. mile	10	10	80
Rural	<500 people/sq. mile	6	14	80
Remote	Travel distance > 8 mi	4	Dependent	90

Source: NFPA 1720, Standard for Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations, and Special Operations to the Public by Volunteer Fire Departments

Effective Response Force

The number of responders available is a critical factor in determining how a fire department can initiate operations at the scene of a fire. NFPA 1720 refers to this capability as the Effective Response Force (ERF), defined as the minimum number of personnel required on scene to safely and effectively perform all essential fireground tasks. These tasks typically include:

- Command and safety oversight
- Fire attack and backup lines
- Search and rescue
- Ventilation
- Rapid intervention team (RIT)
- Water supply
- Pump operations
- Support functions such as forcible entry and laddering

The ERF represents the coordinated team necessary to stop the escalation of an incident. Without an adequate ERF, critical tasks must be delayed, performed sequentially rather than simultaneously, or omitted entirely, each of which increases risk to civilians, firefighters, and property.

In a combination department with limited career staffing, the ERF is initiated by career personnel and complimented by paid-on-call responders. This makes volunteer recruitment, retention, availability, and training consistency essential components of ERF performance.

OSHA Two-In / Two Out

OSHA's "two-in/two-out" requirement establishes the minimum staffing necessary to begin interior operations in an environment classified as Immediately Dangerous to Life or Health (IDLH). An IDLH environment is any atmosphere that poses an immediate threat to life, would cause irreversible health effects, or would impair a firefighter's ability to escape without assistance. To comply with this standard, at least four firefighters must be on scene, and all four must be trained and equipped to operate as interior firefighters.

Two firefighters must enter the structure together to maintain accountability and safety, while two additional personnel remain outside the IDLH area to monitor conditions, maintain communication, and be immediately available to initiate rescue if the interior crew becomes endangered.

While positioned outside, these firefighters may perform essential support functions, such as establishing incident command, managing the water supply, operating the pump, or preparing equipment, provided these tasks do not delay their ability to perform an immediate rescue. This configuration ensures interior operations can begin safely while maintaining the required rapid-intervention capability.

An exception to the "two-in/two-out" requirement exists when firefighters are confronted with a known, immediate life-threatening situation where a rescue must be attempted without delay. In these circumstances, crews are permitted to enter an IDLH environment without the full complement of four personnel, provided the situation presents a clear and immediate need for rescue. This exception is intended to prevent loss of civilian life when waiting for additional personnel would result in a delayed response.

Staffing Analysis

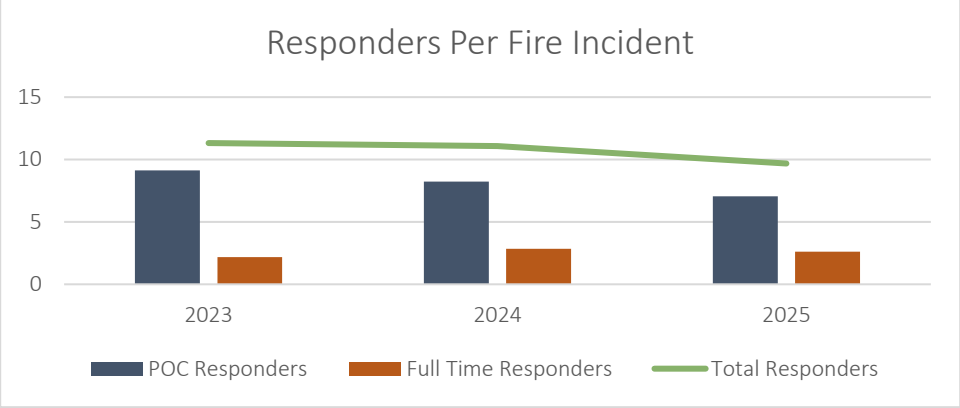

According to department documentation, the fire department has averaged 10.69 responders per fire incident over the past three years. This figure reflects a combined response from both paid-on-call personnel and full-time staff, as both groups are routinely dispatched to fire-related events. It is important to recognize this blended staffing model when interpreting the data, as it does not represent fire-only personnel.

In addition, the following charts show a gradual decline in the number of responders per incident during this three-year period. While the decrease is modest, it may indicate shifting availability among paid-on-call members, changes in response protocols, or broader trends in volunteer participation, factors that warrant continued monitoring to ensure adequate staffing for fire operations.

Figure: 8

YEAR	POC Responders	Full Time Responders	Total Responders
2023	9.14	2.17	11.32
2024	8.23	2.85	11.09
2025	7.06	2.61	9.68

Figure: 9

Based on input from the fire chief, current staffing levels are adequate to meet the community's immediate needs. However, the chief believes that an additional 3–4 full-time firefighter/EMS personnel will be necessary to sustain reliable service in the years ahead. He also reports that recruiting new paid-on-call (POC) members has become increasingly difficult, and several long-serving responders are nearing retirement or may soon be unable to continue active response duties.

IV. PROJECT RECOMMENDATIONS

This section presents the recommendations developed through this study. These recommendations are based on a comprehensive assessment of the two departments' organizational structure, personnel resources, call volume, population trends and national and local trends. The analysis considered current operations, projected service demands, and the department's ability to meet community expectations both now and in the future.

In addition to identifying current strengths and challenges, the recommendations aim to provide a strategic pathway for enhancing service delivery, operational efficiency, and long-term sustainability. They are designed to support informed decision-making by outlining practical steps that align staffing, organizational structure, and resource deployment with anticipated community needs. By focusing on both immediate improvements and future readiness, these recommendations offer a balanced approach that positions each department to adapt effectively to changing demands while maintaining a high standard of public safety service.

POLICE DEPARTMENT

The Town of Delevan Police department has added 3 sworn positions since 2018, Which has increased its full time staff of sworn officers to 14, In 2025 the Town eliminated the part time sworn positions which were used primarily to man the Towns Marine unit for summer boat patrol on Delevan Lake thus leaving the PD to fill the Marine unit with officers from the normal schedule causing minor disruptions in the schedule including moving supervisory staff from their normal duties to cover open shifts. The following recommendations are being made to address the situation.

- Marine Staffing outside of the CSO should be posted as overtime. DNR reimbursement under most circumstances pays for a percentage of time sworn officers doing recreational patrol such as a Marine unit or snowmobile patrol. Thus, only leaving the Town with the overtime portion.
- Engage in discussions with the Sheriff's Office and DNR to assist with lake patrols when the police department is unable to fill Marine shifts. While the Sheriff's Office and DNR are busy with other Marine patrol units the shared services discussion should still take place.
- Re-establish part-time sworn officers for special events such as the Marine unit. This option is not always popular and can be difficult during the current hiring environment but appeared to have worked well for the Town in previous years prior to the Town board removing the program.
- Adding one officer over the next 2-5 years through the normal budgeting process. A part-time administrative professional should also be considered to assist in the increasing demands of open records requests.
- Update the Towns strategic plan with a focus on Town wide staffing needs. This would give the Town a road map for future hiring and other large capital expenditures.
- Further study should be done to address future staffing and capital improvement needs such as the Police station, which is currently at capacity, so that the Town is better prepared for the potential of going to a future referendum for additional spending.

FIRE – EMS DEPARTMENT

The department is staffed by a mix of personnel, including 26 paid-on-call firefighters, two full-time AEMT/firefighters, and four full-time paramedics. The Fire Chief serves in a salaried capacity, though the

position is not classified as full-time. Together, these individuals form a blended workforce of full-time, part-time, paid-on-call, and administrative members.

To support the continued growth, effectiveness, and sustainability of the fire department, the following recommendations are offered:

- Strengthen recruitment and retention efforts. The department should continue expanding its recruitment initiatives for additional paid-on-call (POC) personnel while also prioritizing strategies that improve retention of current members. Consistent staffing is essential for maintaining operational readiness.
- Conduct a comprehensive Community Risk and Hazard Analysis, followed by a formal Standard of Cover (SOC) assessment. This process will allow the department to identify and quantify community risks, evaluate current and future staffing needs, and determine the most effective deployment strategies based on actual service demand and operational capability.
- Define the department's Effective Response Force (ERF). Establishing clear ERF expectations for each incident type will ensure consistent deployment practices and help guide long-term staffing and resource planning.
- Enhance data collection and performance tracking. The department should implement a structured process for capturing detailed response data, enabling leadership to measure performance, identify trends, and make data-driven decisions regarding staffing and operations.
- Plan for incremental staffing increases. As response data highlights specific needs, additional personnel should be added gradually through the normal budget cycle to maintain fiscal responsibility while improving service delivery.
- Evaluate facility needs for future staffing models. As staffing levels evolve, particularly if 24-hour staffing becomes necessary, the department should assess and plan for station modifications to accommodate personnel living quarters and operational needs.
- Review and update mutual-aid agreements to reflect current capabilities, expectations, and operational realities, and actively participate in regional planning efforts to strengthen interoperability and resource sharing. Well, coordinated mutual-aid partnerships enhance operational efficiency, improve firefighter safety, and help ensure that adequate staffing and water supply can be sustained during complex or prolonged incidents.
- Explore shared service and partnership opportunities. Collaborating with neighboring agencies may provide cost-effective ways to enhance service delivery, improve response capabilities, and reduce duplication of effort.
- Update the Town Strategic Plan. It is recommended that the town initiate a comprehensive strategic planning process that evaluates staffing needs across all departments, including the fire department, and incorporates those needs into a long-term, sustainable plan.

V. CONCLUSIONS

These recommendations reflect a comprehensive evaluation of the police department and fire department's organizational structure, staffing levels, operational capacity, and future service needs. The assessment considered current workloads, projected community growth, and the department's ability to meet evolving public safety expectations. Together, these findings provide a strategic foundation for strengthening service delivery, enhancing operational readiness, and supporting long-term sustainability.

The recommendations have been organized to clearly connect identified challenges with actionable steps that support the Town's long-term public safety goals. Each recommendation is grounded in data, operational

context, and industry best practices, ensuring that Town leadership can make informed decisions about resource allocation, staffing, and future planning. This approach provides a transparent roadmap for positioning departmental capabilities with community expectations while preparing both agencies for the demands of the coming years.

As the Town of Delavan continues to grow and its service environment becomes more complex, proactive planning and thoughtful investment will be essential. The recommendations presented here are intended to guide that process, helping the Town position both departments for continued success, improved community outcomes, and a resilient public safety system capable of meeting the needs of residents today and well into the future.

After reviewing the findings of the public safety staffing study, we are not recommending a referendum at this time. Current staffing levels for both the police and fire departments meet or exceed state and national averages. An analysis of the town's population shows that it has remained relatively stable since 2000, with no significant long-term growth or decline. Call volumes for both departments have also remained steady, with no notable increases over the past five years. Each department has added full-time staff in recent years and, according to department leadership, is operating effectively under its current staffing model.

Additional documentation and studies, particularly for the fire department, have been recommended and should be completed before considering any further staffing expansions. While both agencies report that they have adequate coverage for their present needs, they also express concerns about future staffing requirements and capital improvements to their facilities. If a referendum is considered now or in the future, building needs should be evaluated and incorporated into that process.

Overall, the Town of Delevan's police and fire agencies are well-positioned for the future. Both are led by highly qualified, forward-thinking chiefs who prioritize the best interests of the community. While current operational needs are being met, future needs should be incorporated into the town's long-term strategic planning.

2025 TDFD Annual Report

As we close out another year of service and look ahead to what's next, we are proud to present the Town of Delavan Fire/EMS Department's 2025 Annual Report. This past year challenged us in new ways, while also reinforcing the strength, adaptability, and dedication of our team.

A YEAR IN REVIEW

In 2025, our department continued to deliver dependable, high-quality emergency services to our community. We maintained strong response times and operational readiness, while continuing to rely minimally on mutual aid—a reflection of both our staffing model and our team's commitment.

Our success is driven by our combination structure of full-time and paid-per-call personnel. With consistent full-time coverage and the ongoing dedication of our paid-per-call members, we continue to operate at a high level within Walworth County. The culture within our department—built on teamwork, accountability, and professionalism—remains one of our greatest strengths.

At the same time, we are increasingly seeing the impacts of staffing shortages across neighboring communities. Over the past year, our department has been called upon more frequently to assist surrounding agencies, and we have answered that call. Supporting our regional partners is a critical part of the fire/EMS service, and this trend underscores the importance of strong collaboration and resource sharing.

LOOKING AHEAD

As we move into the coming year, our focus remains clear: sustaining a high level of service while proactively addressing the challenges facing the fire service nationwide.

Workforce Sustainability

Like many departments across the country, we continue to face pressures related to recruitment and retention—particularly within paid-per-call staffing. We remain committed to preserving this model as a cost-effective solution for our residents, while actively exploring new strategies to attract and retain qualified personnel.

Regional Cooperation & Shared Services

In response to increasing regional demand, we are actively working with neighboring departments to explore shared service opportunities and formal intergovernmental agreements. These efforts are intended to improve efficiency, strengthen response capabilities, and ensure that all communities involved can maintain reliable emergency services despite ongoing personnel challenges.

As part of this collaboration, we anticipate continuing—and potentially increasing—our response to neighboring jurisdictions when they are in need. While this reflects the strength of our department, it also reinforces the importance of long-term planning and sustainable staffing solutions at both the local and regional levels.

Health and Readiness of Our Team

The physical and mental well-being of our personnel remains a top priority. Emergency response demands a high level of preparedness, and we are committed to ensuring our members have the resources, training, and support necessary to perform safely and effectively.

KEY INITIATIVES

To support our mission, we are continuing to advance several important initiatives:

- **Regional Collaboration & Shared Services**
  Continuing to develop partnerships and evaluate intergovernmental agreements that enhance efficiency and response capabilities across jurisdictions.
- **Expanded Emergency Preparedness Training**
  Building on prior Emergency Operations Center (EOC) efforts to further strengthen coordination between town departments, regional partners, and county emergency management.
- **Joint Training with Law Enforcement**
  Enhancing coordinated response capabilities through continued training with the Town of Delavan Police Department, particularly in high-risk and rapidly evolving incidents.
- **Mutual Aid Development**
  Strengthening existing partnerships while adapting to increased demand for assistance from neighboring departments.
- **Strategic Equipment Planning**
  Addressing long lead times and rising costs by improving long-term planning for apparatus and equipment replacement.

A Message from Chief Jarosz Continued...

CHALLENGES AHEAD

While we are proud of our progress, we recognize the challenges on the horizon. Staffing shortages—both within our department and across the region—along with increasing call volumes and more complex incidents, continue to place pressure on personnel and resources.

Ensuring adequate staffing levels is critical—not only for effective response, but for the safety of our firefighters, EMS providers, and the community we serve. As regional reliance grows, it becomes even more important to balance service expectations with sustainable staffing and funding strategies.

IN CLOSING

I would like to extend my sincere appreciation to the residents of the Town of Delavan for your continued trust and support. It is an honor to serve this community.

With the dedication of our personnel and the strength of our regional partnerships, we are confident in our ability to meet the challenges ahead and continue providing the high level of service you expect and deserve.

Sincerely,

Chief Jamie Jarosz

TDFD Training

To ensure our community can receive the best possible care and service, we dedicate our time to continue to develop and practice our knowledge and skills. In total, our department spent a total of 3151 Hours of training.

Every month, we host a general meeting for our personnel. During this meeting, we discuss business, new policy/procedures, new equipment, and things happening in our area. During each meeting, a brief safety presentation is shown to discuss an important topic that pertains to calls we may be facing during the upcoming month.

Each month, we also host a department drill. This drill focuses on large-scale scene incidents, department certifications, and general skill improvement. This year, we covered the following topics:

- CPR Certifications
- Vehicle Stabilization and Extraction
- Incident Training at 5680 Parliament LN
- Live Burn training with a large barn
- Mass Casualty Training
- EVOC Training (Emergency Vehicle Operator Course)
- Apparatus Staging and General Apparatus Function
- Acquired Structure Training (Interior and Exterior Operations)
- Hazmat
- Ice Rescue

Additionally, EMS Members are required by the state to attend continuing education each month. To maintain the state requirements, each month Mercy Health hosts a 2 Hour training session at our station. Sessions include reviewing previous calls, new protocols, and skill review.

Lastly, in 2025, we also started an additional drill. This drill is where the Fire Captain and Lieutenants host an “officers’ choice” drill. These drills are optional drills to go over skills, techniques, and prepare for the upcoming events.

New Equipment

This year, we have purchased new equipment, gear, and additional operational items. Listed below are several new items of greater importance to our department.

Fire

This year, we purchased new Milwaukee lights and batteries, as well as two new saws. This new equipment is a much-needed upgrade for us to have the equipment required to properly serve our community.

EMS

We purchased 3 Sapphire™ Multi-Therapy Infusion Pumps for each ambulance to assist with delivering paramedic medications to patients.

We purchased another Lucas device to equip another ambulance. We now have 2 Lucas devices and will be continuing to phase out our Autopulse devices.

Furthermore, we purchased a pediatric restraint device to help us to secure pediatric patients better without them being held by family during transports. All of these items were purchased through the WI Funding Assistance Program funds (FAP) that we receive from the state every year.

We also purchased 3 Glidescope Go Video Laryngoscopes for patient intubations. These phased out our King Vision video laryngoscopes.

Lastly, we purchased a FoamFrat online membership for full-time personnel to have access to continuing education opportunities.

New Saws

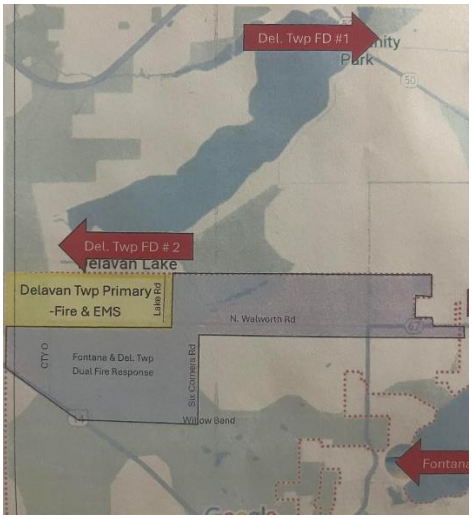

New Glidescope

New Lucas Device

Walworth Township Coverage

Starting May 1, 2025, the Town of Delavan Fire Department began covering the North-West portion of Walworth Township. As well as being requested simultaneously with the Fontana Fire Department to another portion of Walworth Township. This was made possible via an intergovernmental agreement between the three governments of the Town of Delavan, Fontana, and Walworth Township. We are proud to be serving the citizens of our newly acquired response area.

Department Showcase

This year, we were honored to be asked to be a part of the Wisconsin Fire Journal Fire Department Spotlight by the Wisconsin State Firefighters Association. The Wisconsin State Firefighters Association publishes bi-monthly publications. In their publications, they spotlight new equipment, general information about the fire service, and a dedicated spot showcasing a fire department.

Station Improvement

This year, our department agreed to purchase a new sign to display on the station. This sign was originally supposed to be a part of the station when it was first built in 2021. It was put on hold to ensure other critical items needed for operation were purchased. After the discussion, it became obvious to our department that it was time to add this final touch to our station.

Clinical Save Award

In October 2025, TDFD Members were recognized and presented the Clinical Save Award by Dr. Sean Marquis from Mercy Health for their effort that was displayed during the summer that saved the life of a patient who experienced sudden cardiac arrest requiring advanced care management to help revive and stabilize the patient before reaching the hospital. After receiving additional cardiovascular care at Mercyhealth Hospital & Trauma Center in Janesville, the patient was able to go home with their family about a week later.

The TDFD Members present were:

Assistant Chief Mike Hanson
Captain Michael Petkoff
Lieutenant Nathan Hartluab
Lieutenant Joey Balsitis
Lieutenant Mandalyn Witte
Brett Zillmer
Mike McClenthan
Kyle Smith
Ella Balabuszko

Fire Prevention

Fire Inspections

This year, the Town of Delavan Fire Inspector completed 272 inspections within the Town of Delavan. The Fire Inspector recorded a total of 65 violations. Out of 65 violations, follow-up inspections concluded that 54 of them have been corrected.

Fundraising

On August 2nd 2025 we continued our annual Pancake Breakfast held at our station. With the gracious support of our community, we were able to raise $30,073. We are thankful for the support of our community and look forward to our next Pancake Breakfast on August 1st, 2026.

Public Outreach

This year, we made it our goal to continue to be active in our community. We were present at the following events:

- National Night Out
- Fleet Farm Touch a Truck
- Delavan Lakefest
- Trick or Treating
- Westshire Parade and Visit
- Fourth of July Parade
- Multiple Station Tours

In 2025, our members also attended multiple school outreach events. These events are to provide an opportunity for students to learn more about the career and possibly enter the field. We attended both Delavan-Darien High School's Career Day and Gateway Technical College's Job Fair.

We frequently post updates about the department, photographs, general information, and emergency alerts. To find us on social media, you can visit our Facebook page at facebook.com/townofdelavanfire

Respectfully submitted by,

Chief Jamie Jarosz and the Town of Delavan Fire Department

Subject: TDFD interview follow up

Good afternoon Administrator Lothspeich:

I was pleased to have been in attendance at the interview of the TDFD interview this morning. One of the things that I made a note on was your comment regarding how communication might flow if TD is selected to be the fire service in support of Williams Bay.

It brought to mind a structure we currently have In our standing committee structure: an example is our Lake Committee, which by ordinance has a representative of the City of Delavan as a voting member at our monthly meetings. This came about as a result of the fact that the city does own the Lake Lawn Resort and golf course, situated on 1.6 miles of Lakeshore.

The city and town share a common investment and consider ourselves joint stakeholders in maintaining and protecting Delavan Lake water quality and recreation safety and maintenance efforts.

If the Town of Delavan is selected, I envision a similar arrangement could be provided by ordinance for our Fire and Rescue Committee which meets monthly. This would also be a voting representative of your choice from Williams Bay.

Rregards,
Mary Knipper
Chairman

1. COVER LETTER

April 19, 2026

Village of Williams Bay Board
c/o Village Administrator David Lothspeich
250 Williams Street / P.O. Box 580
Williams Bay, WI 53191

Dear Members of the Village of Williams Bay Board,

On behalf of the Fontana Fire Department, I am pleased to submit our response to the Village of Williams Bay Request for Proposal for Fire Services. We appreciate the opportunity to present our qualifications, organizational structure, and service delivery options for consideration as Williams Bay evaluates the future of its fire protection and prevention.

The Fontana Fire Department is a highly trained, combination fire and EMS organization staffed by full-time, part-time, and paid-on-call personnel. Over the past decade, we have successfully expanded our service model through intergovernmental agreements, including our ongoing emergency services with Williams Bay and Walworth Township. These partnerships reflect our commitment to regional cooperation, operational efficiency, and high-quality emergency preparedness and response.

The Fontana Fire Department is supported by a strong local governance structure, experienced leadership, and a proven staffing model that is fully capable of meeting the requirements outlined in the RFP. We recognize the importance of Williams Bay's unique characteristics, and our proposal reflects these considerations to provide a scalable framework designed to adapt to changing service demands while maintaining a high standard of public safety.

The Fontana Village Administrator, Theresa Loomer, can be contacted for price and contract inquiries. Chief Manthy can be contacted with technical questions.

Theresa Loomer - Fontana Village Administer
tloomer@vi.fontana.wi.gov
Phone: (262) 275-6136 Fax: (262) 275-8088

Richard Manthy Jr.–Fontana Fire Chief
rmanthy@vi.fontana.wi.gov
Office: 262-375-2131

Thank you for your consideration of our proposal. We look forward to the opportunity to discuss our submission further with the Village Board, committees, and staff.

Respectfully submitted,

Richard S. Manthy Jr.

Richard Manthy Jr
Fire Chief - Fontana Fire Department

2. DEPARTMENT BACKGROUND AND STATEMENT OF EXPERIENCE

The following is an overview of Key Fontana Fire Department personnel including all Fontana Fire Officers. Information is limited to personal achievements, formal certifications and significant accomplishments.

CHIEF OFFICERS

Name and rank – Richard Manthy Jr. – Fire Chief

Length of Service with Fontana FD – 12 Years

- 2014-2022 Paid-on-call Firefighter Paramedic
- May-2022 - Deputy Chief
- October 2023 - Interim Chief & Oct 2024- Fire Chief

Previous Fire Department / EMS Experience:

- Arlington Heights IL Fire Dept -1999 to Present (108 sworn firefighters)
  Battalion Chief (2022-Present), Division Chief (2017-22), Lieutenant (2011-17),
  Engineer (2007-11), Firefighter Paramedic (1999-07), Fire Academy Instructor (2001-15)
- Mercy Hospital - 2015-present - Basic, Pediatric and Advanced Life Support Instructor
- Salem WI Volunteer Fire Department 1986-1998 – Firefighter/PM – EMS Assistant Chief

Education

- *Associate's Degree in Fire Science (Presidential Scholar)*-Oakton College, Des Plaines, IL
- *Bachelor of Science in Business Management* - University of WI Parkside, Kenosha, WI
- *Graduate Certificate in Public Administration* – Northern Illinois University, Dekalb, IL

Certifications - WI Firefighter II, WI Motor Pump Operator, WI EMS Instructor, WI Fire Inspector, WI Paramedic, CPR Instructor, ACLS, PALS Instructor, Incident Safety Officer
IL Certifications - Instructor I & II, Officer I & II, Chief Fire Officer (CFO), and Fire Apparatus Engineer.

Biography – Started in the fire service in 1986 as an Explorer Scout for Salem Volunteer Fire Department. Experience in working with small volunteer, mid-sized combinations, and large urban fire departments. Worked on fire or EMS services in Walworth County since 1992.

Strong commitment to training, education, and firefighter mental health. State of Illinois advisory committee on mental health, Illinois Fire Chiefs Association legislative committee, and currently serves as a Board member for Ascension Behavioral Health in Arlington Heights.

Fontana FD Officer Background

Name and Rank – Jon Kemmett - Deputy Chief

Length of Service with Fontana FD – 43 years - Started January 3, 1983; Captain 1986-1991, Assistant Chief 1991-1994, Chief 1994-2008, Assistant Chief 2008-2025, Deputy Chief 2025-Present. Started Fontana EMS April 2004, Captain – Intermittent Chief 2007-2013 when departments combined.

Previous Fire Department Experience - City of Beloit FD – Full-time 1996 – 2015 (retired) Went through the ranks of firefighter, Motor Pump Operator, and Acting Lieutenant. Wisconsin Task Force 1 (WITF 1) Urban Search and Rescue Team 2008 – present. Fire Instructor Blackhawk Technical college 2010 - 2020

Education – Blackhawk Technical College classes on Fire Department Management, & Personnel Management

Certifications – Wisconsin Firefighter 3, Wisconsin Fire Officer 1, Wisconsin AEMT, NIMS 300, Numerous classes, trainings, and seminars on all aspects of the fire and EMS service.

Biography – Started with the Fontana Fire Department in January of 1983 after being asked to join by a current member and wanting to help my community. Joined Fontana EMS in April of 1984. With both departments I immediately attended classes obtaining my WI Firefighter 1 and EMT Basic. I worked my way up through the ranks of both organizations to the position of Chief. I Worked for the City of Beloit WI Fire Department for 21 years, retiring in 2015 as an Acting Lieutenant. During my time with Beloit FD started with newly formed Wisconsin urban search and rescue team WITF 1, which I am still active with today. Prior to joining in 1983 I was very active in Scouting obtaining the Rank of Eagle Scout. Later after being in the fire department, I helped start an Explorer Post for young people interested in firefighting and EMS.

Name and rank – Peter Ackman – Assistant Chief

Length of Service with Fontana FD – 18 Years - May 2008

Certifications – Fire Fighter 1, Advanced Open Water Diver, CPR-AED, ICS 100, 200, and 700.

Biography – I have been a dedicated member of the Fire Department since joining in May 2008. Having lived and worked in Fontana, Williams Bay, and Walworth Township my entire life, I have a deep-rooted understanding of the area and its residents.

Over my nearly two-decade career, I have witnessed the department's significant evolution, playing an active role in its successful transition from a Paid-on-Call (POC) organization to a full-time professional department. This first-hand experience during the department's growth has fueled my commitment to its continued success. I have a unique perspective on the department's history and a personal stake in its future. I remain dedicated to ensuring the department continues to provide the highest level of service to the communities that raised me.

Fontana FD Officer Background

CAPTAINS AND LIEUTENANTS

Name and Rank – Zachary J Budill - Duty Crew Captain

Length of Service with Fontana FD – 7 years - Starting in August of 2019

Previous Fire Department Experience - City of Lake Geneva Fire 2010-2015, Potosi MO Fire and EMSS 2015-2018, Paramount Private ambulance service, 2015-2018,

Education – Technical Diploma Paramedic, Gateway Technical College.

Certifications – Firefighter I, Firefighter II, NREMT Paramedic, Fire Officer I, Fire Officer II, Fire and Emergency Services Instructor I, WI Paramedic, ACLS, PALS, CPR Instructor, WI Driver/Operator-Pumper.

Biography – Currently, I am an experienced fire service professional with over 16 years of dedicated service in fire prevention, emergency response, and life safety operations. Currently, in my role as Captain with the Fontana Fire Department, I am responsible for delivering high-quality fire protection services, ensuring compliance with regulatory standards, and supporting mission-critical emergency preparedness initiatives. As a resident of the Geneva Lake area for 30 years, I couldn't be prouder of our services and what we can provide to the residents that I call neighbors, friends, and Family.

Name and rank – Stanton Livingston – Paid-On-Call Captain

Length of Service with Fontana FD – 12 Years – March 2014

Previous Fire Department Experience 4 years with the naval crash and salvage crew aboard the USS Nimtz CVN—68, 15 years with The Bennington Fire department. (Lieutenant for last 6 years)

Education – Some College Courses

Certifications – Fire 1, Hazardous Material Awareness, Hazardous Material Decontamination, Incident Safety Officer,

Biography – I am married with 4 kids, Twin boys and two girls, I was in the military and served aboard the USS Nimitz CVN-68 aircraft carrier. I have owned a Landscaping/Construction company since 1999. I enjoy spending time with my family and anything that has to do with being outdoors.

Fontana FD Officer Background

Name and rank – Cody Heindl – Duty Crew Lieutenant

Length of Service with Fontana FD – 11 Years - November 2015

Previous Fire Department Experience – Prior to joining the Fontana Fire Dept. I did a stint as an Intern at the Town of Madison

Education – Enrolled in associate's degree in fire science at Gateway technical College. Completed EMT and Advanced EMT at Gateway technical college.

Certifications – Firefighter 1, Firefighter 2, Motor Pump Operator, Fire Officer 1, Fire Officer 2, Instructor 1, Emergency Service Instructor 2, Live Fire Instructor, WI Advanced EMT

Biography –I am a Lieutenant/AEMT with the Fontana Fire Department, where I have served since 2015. As a fourth-generation firefighter, I take great pride in the fire service/ emergency medical field and am committed to continually improving myself both educationally and skill-wise to provide the highest level of service and care to the communities I serve.

Throughout my career, I have had the opportunity to witness the department's growth from a POC agency supplemented by contracted EMT/Firefighters into the professional organization it is today. I am proud to have been part of that transformation and am excited to see the department continue to grow as we strive to protect and serve our communities to the best of our abilities.

Name and rank – Erik Olsen – Duty Crew Lieutenant

Length of Service with Fontana FD – 3.5 Years

Previous Fire Department Experience - I have been in Fire and EMS since 2004. 22 years total

Education – Paramedic through Mercy Health and Critical Care through the University of Baltimore Maryland. Currently enrolled in UW Milwaukee for Community Paramedic

Certifications –Critical Care Paramedic, WI Fire 1, Fire 2, MPO, Officer 1, Officer 2, Instructor 1

Biography – Critical Care Paramedic and Firefighter active in the fire service since 2004 and worked in or around Walworth County since 2007. Passionate about teaching and serves as an instruct for Brew City Fools along with being a training Officer in Fontana. I am also still a volunteer in my hometown fire department.

3. SCOPE OF REQUIRED SERVICES

EXECUTIVE SUMMARY

Williams Bay and Fontana-on-Geneva Lake have already built a strong working relationship through their collaboration on emergency medical services, and we believe this partnership would be further strengthened by including fire service. Section J, "Implementation," outlines several options for fire service delivery to Williams Bay, all of which provide flexibility to utilize existing full-time and part-time staff to deliver fire services alongside current EMS functions.

- Option 1 - Working in partnership with Williams Bay Fire Department, Fontana would co-respond with Williams Bay Fire on all fire incidents in the same manner as the current mutual aid agreement.
- Option 2 – Fontana provides Williams Bay fire service from the Fontana Fire Station. EMS operations would operate from Williams Bay, and fire apparatus would respond from Fontana.
- Option 3 – Fontana provides Williams Bay fire service from both Fontana and Williams Bay fire stations. Williams Bay fire station personnel would respond with the ambulance or fire apparatus based on the call type; the Fontana fire station would supplement additional resources as needed.

Fontana Fire Department identifies "Option 3" as the approach that would best serve Williams Bay residents and businesses by establishing a unified Fire and EMS Department operating from both the Williams Bay and Fontana fire stations.

Several cross-staffed fire and EMS models are included under option 3. The first, option 3A, maintains current staffing of two 24-hour personnel in Williams Bay and has the least impact on Williams Bay's current fire budget. If selected to provide fire service, Fontana recommends expanding future Williams Bay staffing to include a third position during the daytime hours or on a 24-hour basis (Options 3B & 3C).

A. GOVERNANCE AND OVERSIGHT

Fontana Fire Department has been serving the Village of Fontana and neighboring communities since 1930, transitioning from separate fire and rescue organizations to a combined municipal fire department. The Fire Department reports to several layers of local governance to provide effective and transparent structure.

- Village of Fontana-on-Geneva Lake Committees
  - Protection Committee- Oversees policies and regulatory control.
  - Finance Committee - Responsible for budgetary oversight.
  - Human Resources Committee – Personnel items not covered by Police & Fire Commission.
  - Emergency Management Committee – Responsible for Fontana's Emergency Response Plan.
- Fontana Village Administrator – The Fire Chief reports directly to the Village Administrator who implements policies set by the Village Board, ensures that the department operates within municipal regulations, oversees the fire department budget, and assists with strategic planning. Holds Monthly department head meetings with Police, Fire, Public Works, Planning, and Library representatives.
- Fontana Village Board - Serves as the governing and policy-setting authority over the Fire Department. Its role is high-level focused on oversight, funding, and accountability.
- Fontana Police and Fire Commission (PFC) – An independent body created to ensure the Fontana police and fire departments are staffed and managed in accordance with Wisconsin statutes. Its authority is separate from the Village Board focusing on oversight related to hiring, promotions, and discipline.

- Joint Emergency Services Committee – Provides review and comments regarding current and future fire and EMS budgets and expenditures. The committee is made up of two representatives from Fontana, two representatives from Williams Bay, the Fontana Fire Chief, and one representative from Walworth Township.
- Fontana / Williams Bay Joint Board Meetings – Fontana and Williams Bay Village Boards meet regularly to review EMS operations and budget status. Fontana FD provides monthly reports with response data, department updates, staffing summary, and EMS response information.
- Fontana Fire Chiefs routinely attend Village Board and Committee meetings for all jurisdictions served by the Fontana Fire Department. Chief officers also attend Walworth County governance meetings and are active in Mutual Aid Box Alarm System (MABAS) Division 103.

Williams Bay Considerations - The following would be would be additional governance and oversight for Williams Bay fire service delivery under options 2 and 3.

- Fontana Fire Department will provide full responsibility for Williams Bay fire services.
- The Joint Emergency Services committee language from the EMS IGA would be added.
- The Fontana Fire Department and Fontana Fire Chief would be recognized as the authority having jurisdiction for Williams Bay Fire service delivery.
- Fontana to deliver regular reports including:
    - Response data and performance metrics.
    - Staffing updates.
    - Budget and cost tracking.
    - Fire inspections and short-term rentals.
- Fontana to participate in Williams Bay joint governance structure, including, but not limited to:
    - Village Board and committee meetings.
    - Joint Emergency Services Committee representation.
    - Participation in Williams Bay planning commission meetings.
    - Ensure transparency, accountability, and intergovernmental coordination.

B. ORGANIZATIONAL STRUCTURE

The Fontana Fire Department follows a para-military structure with several layers of fire department officers. Span of control is designed to have each officer responsible for no more than six personnel.

Chief Positions (3)

- Fire Chief - Oversees all department operations- part-time salaried position (30 hours/week)
- One Deputy Chief – Hourly part-time assigned to weekdays that the Chief is not in the office.
- One paid-on-call (POC) Assistant Chief - Responds direct from home/work to emergency incidents and serves as incident command or support on emergency incidents.

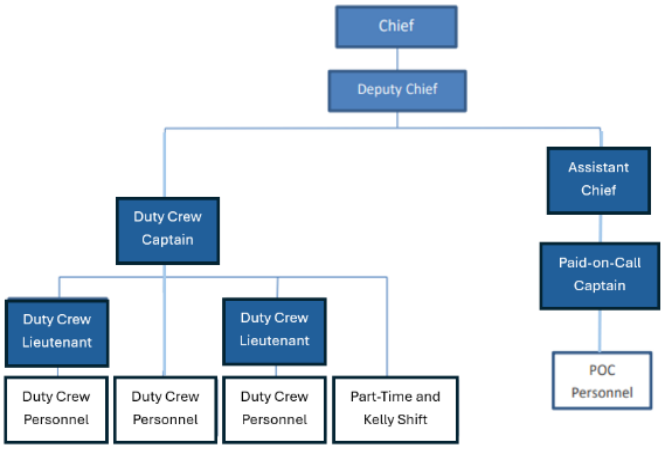

Captains and Lieutenants (4)

- One POC Captain - Responds directly to emergency incidents and is responsible for uniforms.
- One full-time Duty Crew Captain assigned to a 24-hour shift; oversees shift personnel and Lieutenants. Manages scheduling, station operations, technology, and onboarding.
- Two full-time Duty Crew Lieutenants manage daily 24-hour shift operations (up to six staff), with one overseeing EMS/reporting and the other handling fire training, apparatus, and equipment.

Mutual Aid Officers - Fontana Fire works closely with Williams Bay, Walworth, and Delavan Township to provide additional officers as needed. MABAS also automatically dispatches Chiefs to larger incidents.

Fontana FD Organiztioinal Chart

Fontana Fire Department's organizational and job descriptions Policy (P-100.1) clearly defines fire department chain of command and structure. The Fontana Fire Department has separate job descriptions for each full-time, part-time, and paid-on-call position within the organization. Span of control is limited to no more than six personnel working under one supervisor.

Williams Bay Considerations –One additional POC Assistant Chief and potential of up to two additional POC officers could be added under options 2 and 3.

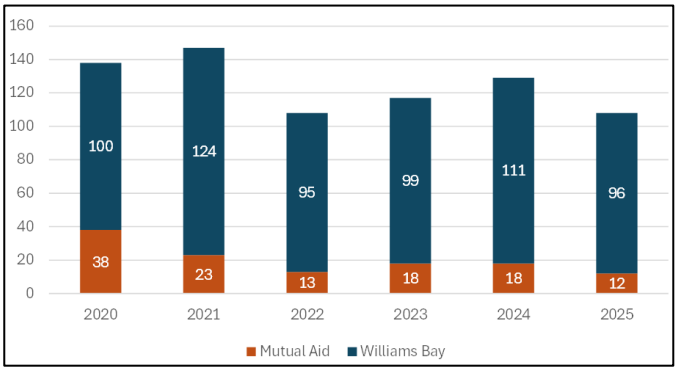

- Lateral officer transfers from Williams Bay would be considered based on recommendations from the Village of Williams Bay.
- Hiring and promotions would be required to follow the Fontana hiring policies and Police and Fire Commission promotional requirements.
- Additional Officers would receive an on-call stipend of five hours of pay per week.

C. LEVEL OF SERVICE

Williams Bay Fire Department averages 104 fire incidents annually within the village, along with 20 mutual aid responses to other municipalities, based on five-year Walworth County Dispatch data (excluding EMS incidents). Fontana Fire Department has the resources to provide effective fire protection services to Williams Bay, with capacity to expand as needed.

Williams Bay Fire Incidents 2020-2025

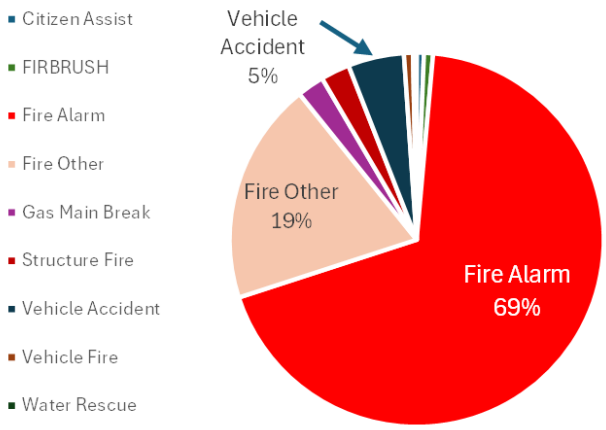

YEAR	Mutual Aid	Williams Bay	Total
2020	38	100	138
2021	23	124	147
2022	13	95	108
2023	18	99	117
2024	18	111	129
2025	12	96	108

Fire incidents in Williams Bay are primarily fire alarms (69%), other fire-related calls such as dumpster fires, odor investigation etc. (19%), and vehicle accidents (5%). These incidents are typically handled by a single unit with two to three personnel over 30–45 minutes. Full-time and part-time staff from the Williams Bay or Fontana stations can consistently manage these calls without relying on paid-on-call personnel or mutual aid, while maintaining the ability to handle additional incidents within the Fontana FD response area.

2020-2025 - WB Incident Types

Dispatch CFS Code	Total Incidents	Percentage
Fire Alarm	439	68.6%
Fire Other	123	19.2%
Vehicle Accident	31	4.8%
Structure Fire	16	2.5%
Gas Main Break	15	2.3%
Brush Fire	5	0.8%
Vehicle Fire	5	0.8%
Citizen Assist	4	0.6%
Water Rescue	2	0.3%

Use of Mutual Aid - Large incidents requiring additional apparatus and personnel would be supplemented by paid-on-call staff or by recalling full-time and part-time personnel. In rare cases, automatic aid, mutual aid, or the Mutual Aid Box Alarm System (MABAS) would be utilized.

A recent example is a Fontana structure fire on April 8, 2026. The initial dispatch included all Fontana fire resources, along with engines from Williams Bay, Walworth, Hebron and Lake Geneva, three additional Chiefs, and an ambulance from Elkhorn to provide EMS on scene. Fontana responded with 18 firefighters, EMTs, and officers, staffing one ambulance, three fire apparatus, and the fire boat.

Insurance Service Organization (ISO) – CLASS 3 – Fontana Fire earned a Class 3 ISO rating in 2023 on a scale of 1 to 10, with 1 being the best and 10 the worst. Class 3 departments are generally considered high-performing, well-equipped, and capable of effectively handling serious fires (Elmore, 2025). ISO ratings are commonly used to help establish commercial fire insurance rates, with some insurers also applying them to residential properties (WI DSPS, 2025). Fontana Fire would work to improve Williams Bays ISO rating.

Williams Bay Considerations – Williams Bay faces several current and emerging challenges in fire service delivery. Fontana Fire would address these through robust fire inspection, public education, and community risk reduction programs, and has experience in providing planning input with the Fontana Plan Commission team. The following examples are areas with a potential impact on fire protection for Williams Bay.

- Preserve Development – The planned transition of 137 acres of the former George Williams College into a combined nature preserve and resort.
- Downtown Master Plan – Ongoing comprehensive planning for downtown Williams Bay, with several completed projects, will continue to shape emergency service demands.
- Kishwauketoe Nature Preserve – Requires support for natural area protection, large events, wildland response, and medical calls in remote locations.
- Residential Developments – Recent large-scale housing growth requires awareness of evolving construction types, water supply considerations, and resource deployment.
- Williams Bay Public Schools - Fontana Fire already provides services to area schools and offers a strong public education program, including fire extinguisher training, fire safety classes, CPR/first aid, and safety outreach for both students and staff.
- Geneva Lakefront – Fontana maintains extensive water-response capabilities and regularly trains for water-related and on-shore emergencies.

The 2024 Public Administration Associates study relied on Wisconsin Department of Administration population projections to estimate minimal growth for Williams Bay and Fontana (PAA, 2024). Based on the factors outlined above, actual growth may exceed these projections, and Fontana has the resources to remain flexible in meeting increased service demands.

Table 3. Combined Fontana and Williams Bay populations

Year	Current permanent population	2040 population projection
Permanent	4,864	5,621
Seasonal	11,389	12,391
Total Peak Population	16,253	18,012

D. PROFESSIONAL / PAID-ON-CALL / VOLUNTEER STAFFING METHODS

Fontana Fire Department's 40 members function as a combination of career, part-time, and paid-on-call personnel, providing daily staffing of five 24-hour positions and a sixth daytime position, supplemented by paid-on-call staff. A roster of Fontana personnel, including year of hire and certifications, is included as "*Appendix A*". The following is a breakdown of Fontana FD's current and new-hire personnel:

- Chief Positions – The Chief and Deputy Chief split weekday office hours from 9 am to 5 pm. The Assistant Chief is a paid-on call position responding from home or work.
- 13 Full-time Positions – Daily staffing of four 24-hour positions (365 days/yr).
  - Ten firefighter paramedics and three firefighters EMTs / Advanced EMTs.
  - Twelve assigned to one of three 24/48 hours off shifts.
  - One assigned as Kelly Shift – Two 24-hour shifts per week.
- Two Permanent Part-time Positions - Assigned to a full-time shift, with an emphasis on weekend coverage; working three 24-hour shifts per two-week period (36 hours/week).
- Six Part-time Personnel – Required to be Fire and EMT certified.
  - Minimum requirements of 30 hours per month.
  - Shift options include day (7 am to 5 pm) and night positions (5 pm to 7 am).
- 16 Paid-on-call Personnel - POC members respond to the station as needed and may work part-time hours if qualified. Several EMT POC members are full-time college students who work part-time during the summer months.
  - One POC Captain.
  - Nine Firefighters / Firefighter EMT's.
  - Five EMS only certified personnel (EMT / Advanced EMTs).

Daily In-Station Staffing - Current minimum daily staffing is three firefighter/EMS personnel per day with at least two certified paramedics. Minimum staffing will be increased to four per day once current new hires have completed the onboarding process. The following is a breakdown of how in-station staffing is assigned.

FONTANA FD DAILY STAFFING HOURS

	#1 (24 Hr)	#2 (24 Hr)	#3 (24 Hr)	#4 (24 Hr)	#5 (24 Hr)	#6 (8-10 Hr)	
Daily Scheduled Hours Summary	Full-Time FF/PM	Full-Time FF/PM	Full-Time FF/EMT	Full-Time FF/EMT	Part-Time Day/Night	Part-Time Day	**Total Hours**
Monday - Friday	24	24	24	24	24	8 (Chief)	**128**
Saturday & Sunday	24	24	24	24	24	10	**130**

Five-Year Historical Staffing Model - Fontana has been providing full-time 24-hour staffing since 2018 with gradual increases to meet service delivery to Williams Bay and Walworth Township. The following is a summary of scheduled hours from 2022 throught April, 2026.

FONTANA FD 5-YEAR HISTORICAL STAFFING MODELS

Year	Scheduled Hours	Average Daily Hours	Staffing Model	Changes from Previous Year
2022	18,457	51	Full Time - Two 24-hour per day Part-time - Chief 20 hours / week	No change from 2021
2023	36,176	99	Full Time - Three / Four 24-hour per day Part-time - Chief 30 hours / week	Three 24-hour positions in January transitioning to four 24-hour positions by mid-2023.
2024	38,393	105	Full Time - Four 24-hour per day Part-time -Daytime 3-4 days per week	Addition of part-time day positions- 7 days/week over summer and 3 days/week off season
2025	42,741	117	Full Time - Four 24-hour per day Part-time -Daytime (7 days per week)	Part Time day position Increased to 7 days/week (year round) with second day position on weekends
2026	14,659	122	Full Time - Four 24-hour per day Part-time -24 hour & days positions	24-hour part-time position added with implementation of permanent part-time positions

Ability to Attract and Retain Firefighters – Recruiting volunteer (POC) firefighters and EMS personnel has been increasingly difficult over the past 10 years for both Fontana and Williams Bay due to a combination of demographic, economic, and operational factors. Fontana FD has addressed these challenges by implementing full-time and part-time staffing models, while maintaining a POC base, and developing strong partnerships with Williams Bay and Walworth Township.

Fontana has been fortunate in maintaining and recruiting a core group of paid-on-call personnel while adding full-time and part-time coverage. This level of integration is uncommon in the fire service, as paid-on-call engagement often declines or altogether eliminated following the transition to full-time staffing models.

Fontana maintains an open hiring policy for paid-on-call personnel residing within 15 miles of the Fontana Fire Department and currently fully staffed for full-time and part-time positions. Fontana completed a hiring process in January 2026, resulting in 12 qualified applicants. The hiring list is effective through March 2027, with two accepted offers for employment.

Utilization to Meet Coverage Requirements – Fontana Fire Department serves Fontana, Williams Bay, and Walworth Township as one unified system, rather than independent entities sharing resources. The goal for emergency service delivery is to deploy all personnel and apparatus based on need and proximity, not jurisdictional boundaries. This has been successful in responding to second and third simultaneous incidents.

Paid-on-call, part-time, and off-duty full-time staff supplement on-duty personnel when necessary. Fontana's current staffing model effectively meets the needs of all municipalities served. The Village of Fontana has no current plans to seek additional referendum funding to maintain dependable emergency services.

Fontana operates as a cross-staffed agency, with most personnel serving in both fire suppression and EMS roles. This structure provides a flexible, capable, and cost-effective emergency response system that can adapt to changing service demands while significantly reducing reliance on mutual aid assistance.

Union Working Relationship - Fontana's full-time firefighter and EMS employees voted to organize in 2023, and the Village entered into a Collective Bargaining Agreement effective from 2024 to 2026 as associate members of the Janesville International Association of Firefighters Local 580. The Village and Department administration maintain a strong working relationship with the Local and view the union as enhancing employee relations while contributing to a higher level of professionalism.

Local 580 has endorsed Fontana Fire Department's proposed fire service coverage for Williams Bay, highlighting several benefits of utilizing union firefighters *(Appendix B)*.

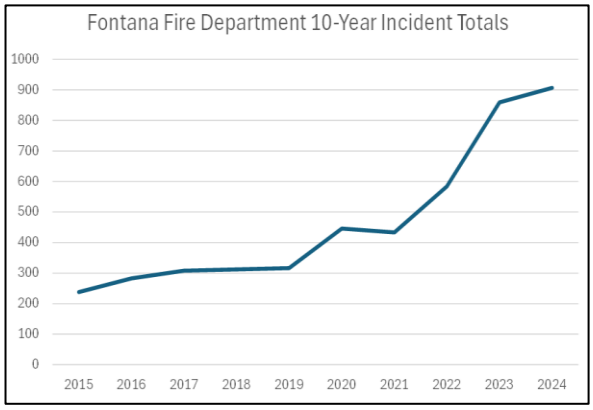

Williams Bay Considerations – Williams Bay paid-on-call personnel encouraged to apply with Fontana (15-mile residency restrictions would apply). Applicants would follow the Fontana hiring process (criminal/medical background checks and Police and Fire Commission approval). Additional staffing considerations are included under Section J. "Implementation".

E. FUTURE GROWTH

The Fontana Fire Department has successfully navigated significant changes over the past ten years by adapting fire and EMS operations and implementing collaborative intergovernmental agreements with Williams Bay for EMS services and with Walworth Township for fire and EMS services. Fontana has remained resilient by adjusting staffing models and equipment to meet these challenges, including transitioning from contracted EMS services to employing full-time and part-time municipal staff.

Impact on Williams Bay Fire Protection Needs

One way that Fontana and Williams Bay effectively met service delivery needs was through public support of joint referendum funding and the implementation of cooperative agreements with neighboring communities. The Fontana Fire Department is confident that the current working relationship for emergency medical services with the Village of Williams Bay can be readily expanded to include fire services. The existing cross-staffed personnel funded by Williams Bay will further enhance the effectiveness of a cohesive and integrated emergency service delivery model.

Rapid growth of any organization can be both beneficial and potentially challenging if not managed properly. Over the past year and a half, Fontana Fire has carefully prepared for, and implemented, expanded service to Walworth Township while maintaining the highest level of service across all communities served. Fontana considers its primary service area the highest priority and works to ensure that mutual aid is truly "mutual". Fontana FD rarely requires mutual aid for routine responses but does utilize neighboring departments for Chief officer responses and larger incidents such as structure fires.

Village of Walworth – In addition to Williams Bay, Fontana Fire also maintains a strong working relationship with the Walworth Fire Department. In 2025, the Fontana Village President, Village Administrator, and Fire Chief met with their counterparts in the Village of Walworth to discuss current and future collaboration. The meeting confirmed that the Walworth Fire Department has no current plans to pursue partnerships with neighboring communities and will continue operating as a stand-alone fire department for the foreseeable future. A successful fire referendum in 2025 has already contributed to increased stability in service delivery.

Fontana has a long-standing agreement with the Village of Walworth for Paramedic intercept services which was utilized 16 times in 2025. Paramedic intercepts require a single paramedic to respond and provides expanded advanced life support experience for Fontana FD personnel while addressing the ongoing competition for limited Paramedic employees in Walworth County.

Delavan Township – Soon after approving the Walworth Township IGA, Fontana Fire Department reached out to Delavan Township Fire Department to improve response coverage for the northwest portion of the Township. Those discussions resulted in an intergovernmental agreement assigning primary coverage to a small area of Walworth Township and establishing a dual response area including Inspiration Ministries and Faith Christian School.

Fontana Fire's working relationship with Delavan Township Fire in this dual response area has been highly effective, and there is potential to amend the current agreement if Fontana FD is selected to provide fire service to Williams Bay. Fontana Fire can manage routine fire incidents in Williams Bay and could utilize resources from Delavan Township for larger incidents such as structure fires or mass casualty events.

Walworth Township – Fontana entered into an intergovernmental agreement with Walworth Township in 2024 for Fire and EMS protection effective January of 2025. The Walworth Town Board is supporting Fontana Fire Department expanding services to Williams Bay. Walworth Township further understands that there may be increases in contributions to expanding services to all municipalities served by Fontana FD. A letter supporting fire services to Williams Bay was provided by Walworth Township and their Board approved support at their 4/21/26 meeting (Appendix C).

F. EQUIPMENT / VEHICLES

Fontana Fire Department provides a highly reliable and well-equipped fleet of fire apparatus, complemented by strong water response resources, delivering a level of service that can fully support and enhance fire protection for the Village of Williams Bay. The following is a summary of Fontana's apparatus.

FONTANA FIRE APPARATUS LIST	
FIRE APPARATUS	
QUINT 371	2014 Pierce Quint 75' 2000GPM 500gal with Class B Foam & Extrication
BRUSH TRUCK 371	2016 Ford 350 Brush Rig 125gal 2800 PSI Skid with Wildland Foam
SQUAD SQD 371	2007 Rosenbauer Engine 2000 GPM 500gal with Class B Foam Rear Mount & Extrication
ENGINE ENG 371	2000 Pierce Lance Engine 2000 GPM 1000gal with Class B Foam
TENDER TND 371	2003 US Tanker / Kenworth 2100 Gal Tender
EMS	
ALS AMBULANCE MED 371	2018 Horton Dodge Ambulance
ALS AMBULANCE MED 372	2008 Cheverolet Lifeline Ambulance
ALS AMBULANCE MED 373	2023 Chevrolet Demers Ambulance
BLS AMBULANCE - AMB 374	2004 Ford Reserve Ambulance - Shared with Walworth Fire Department
ALS INTERCEPT / CAR 371	2023 Chevrolet Tahoe
WATER RESCUE	
BOAT 371	2005 Lake Assault 28 FT Boat 1500 GPM -FLIR, & Side Scan Sonar
AIR BOAT 373	2018 MRA Air Boat 22', Enclosed Cabin, FLIR, Side Scan Sonar, JIB Crane
ROV	2020 Remotely Operated Vehicle SRV8 Video & Sonar Equipped with Grabber Arm.
TOW FISH SONAR	2023 Marine Sonic 1800 khz Tow Fish Sonar
SPECIAL EQUIPMENT	
SPECIAL OPERATIONS TRAILER	12' Atlantic Special Ops Trailer with soft shell boat, dive gear and assorted rescue equipment.
UTILITY VEHICLE	2026 Can-am 6 X 6 UTV with water tank, pump, and brush fire equipment

- Engines – Fontana's fire engines (quad and engine) are in good working order and pass annual testing. Squad 371 is equipped with a system for filling self-contained breathing apparatus bottles on the scene of emergency incidents and serves a mobile command post. Engine 371 is equipped with an on-board foam system and 1000 gallons of water. Fontana has a replacement Engine ordered with Custom Fire out of Osceola WI for a Sutphen fire engine with 1,500 gallons of water, a 2,000-gpm pump and on-board foam system (2028 Delivery).
- Quint – In the fire service a "quint" is a versatile ladder truck with a pump, water tank, fire hose, an aerial device (ladder), and ground ladders. Fontana specifically chose a quint over a traditional ladder truck for its versatility and ability to function in limited access subdivisions commonly found in Fontana and Williams Bay.
- Tender– Walworth Township is required to supply one Tender for Fontana operations.
- Brush Fire Apparatus – Fontana has a pickup truck and recently took delivery of a 2026 6X6 utility vehicle (also supplied by Walworth Township) for grass fires and access to remote locations. Both have water and pumping capabilities.
- Water and Specialty Rescue – Fontana is well equipped for Williams Bay water incidents including a fire boat which is staged at the Abbey Harbor, an air boat for winter operations, and a multitude of advance water rescue equipment (ROV and towable sonar). The fireboat is equipped with a 1500-gpm pump for on-water and lakefront fire operations in addition to water rescue events. Fontana also has an enclosed trailer for water rescue and technical rescue equipment.
- EMS Apparatus - Fontana has four ambulances; three paramedic level ambulances (one provided by Williams Bay) and one EMT level ambulance shared with the Village of Walworth. A 2023 Tahoe functions as a paramedic intercept / command vehicle and tows the special operations or UTV trailers. Fontana has a replacement ambulance on order through Lifeline with anticipated delivery of 2027.
- Apparatus Maintenance - Maintenance for Fontana apparatus is primarily performed by Fontana DPW staff. Use of an on-site mechanic provides rapid availability to address issues and reduces the overall cost of maintenance. Repairs and testing outside of staff's ability is handled by Siren Services or other qualified third-party repair / testing service.

<u>Williams Bay Apparatus consideration for option 3</u>.

- Williams Bay shall provide all initial apparatus and equipment required for responses from the Williams Bay fire station. Recommendation of implementing the same style lease agreement used for the Williams Bay Ambulance. The following are recommended for Williams Bay apparatus.
    - Williams Bay shall provide a minimum of one fire engine, one support vehicle, and work to choose one shared reserve fire engine.
    - Williams Bay will retain ownership of all initially supplied apparatus and equipment.
    - All Fire apparatus will be maintained and insured by the Village of Fontana.
    - Fontana Public Works will provide preventive maintenance, and Fontana will contract out with third party repair centers for work outside the scope of Fontana Public Works.
    - All Fontana and Williams Bay fire apparatus, boats, and fire equipment repairs will be split according to cost sharing calculations; except for those included in the Williams Bay EMS and Walworth Township IGAs (WB Ambulance, Township Tender, & Township UTV). Fontana and Walworth Township would remain responsible for the two Fontana Ambulances.
    - Williams Bay will not be required to contribute to the current fire engine and ambulance on order with Fontana Fire Department.
    - Future replacement apparatus cost sharing will be agreed upon between Fontana and Williams Bay Village Boards

G. FACILITIES

Fontana currently operates out of an outdated Public Safety Building on Fontana Boulevard with plans to construct a new Public Safety Building at the corner of Highway 67 and Wild Duck Road.

Current Facilities – The Fontana Public Safety Building is shared with the Fontana Police Department and has been adapted over the years to accommodate overnight fire department staffing of up to five personnel. The apparatus bay currently houses two fire engines, one ladder truck, two ambulances, one airboat/UTV, one tender, one SUV, one brush truck, and a special operations trailer. The facility also includes a small training room, sleeping quarters for five personnel, a workout area, kitchen and dining area, living area, utility room, and two separate office areas.

The Village constructed a Fire Department auxiliary storage building at the Public Works location in 2025, capable of housing two additional apparatus and spare equipment. The building is used to store the fireboat and UTV during the winter months and the airboat during the summer.

Future Fontana Public Safety Building – The Village of Fontana has actively been moving to construct a new public safety building. The following summary of steps taken is available on the Village of Fontana website.

- Site Study – *(Village of Fontana Site, 2025)* Study by Ruekert Milke to investigate all viable building sites for a combined public safety building or separate police and fire facilities.
- Public Information Sessions – *(Village of Fontana info, 2026)* Two public informational sessions were held to review the site study and provide feedback through a standardized questionnaire. Responses supported a joint public safety building on Wild Duck Road and approved by the Village Board.
- New Site Study – *(Village of Fontana – New Site, 2026)* The Wild Duck Road option was expanded to include relocating Wild Duck Road and abandoning a secondary access road (Dade Rd). The proposed site "4c-Duck Pond Central" improves response times and addresses traffic concerns.

The Village Board interviewed three architectural firms and plans to move forward with a selection soon. The next step will be choosing a construction management firm and potentially beginning construction as early as spring 2027. These plans include fire department facilities sufficient to meet the response needs of Fontana and Walworth Township, as well as support functions such as administration, training, and reserve apparatus/equipment storage for Fontana and any additional communities served.

Impact on Williams Bay Fire Protection Needs – The Public Administration Associates (PAA) study completed in 2024 addresses the possibility of a single station servicing Fontana and Williams Bay; however, states under section IV(A) that "*Even if a single entity were providing Fire/Emergency Medical Service to both communities, we would recommend a two-station model*". The study further provides several response heat maps showing response times best provided from the current Williams Bay fire station. When specifically referring to fire responses the study refers to NFPA 1710 for response times and that *"regardless of population density: a travel time of less than 4 minutes and a time of less than 90 seconds for turn out from the station once the alarm is received, together with a 30-second dispatch time*" (PAA, 2024). Fontana currently meets or exceeds NFPA 1710 standards based on fire and EMS apparatus arriving on scene rather than a firefighter arriving in their personal vehicle with limited capabilities.

Although it is possible to provide fire service from a station outside of Williams Bay, the preferred option would be to establish a satellite station staffed by a cross-trained crew responding to fire or EMS emergencies. Administration, training, and reserve apparatus could be located at a separate remote facility to reduce costs and redundancy. This is also addressed in the PAA study at the start of Section 2 stating *"At a minimum, a new* (Williams Bay) *station should provide 24-hour accommodation for the two firefighter/paramedic staff members. To properly plan for the future, however, a new station should be designed to accommodate a fully-staffed ambulance and engine company, or six personnel"* *(PAA, 2024)*.

The following are considerations under option 3 for fire service delivery.

- Williams Bay to provide a fire station for fire and EMS responses.
    - Suitable for 24-hour accommodation including adequate dining, living, sleeping, workspace, company level training, and workout area.
    - Climate controlled parking for one ambulance, one fire engine and one support vehicle. Additional Williams Bay apparatus may be stationed in Williams Bay.
- Fontana Fire Station
    - The current Fontana / Williams Bay IGA includes language regarding shared administrative and training areas. Shared reserve fire apparatus and equipment storage in Fontana may need to be considered.
    - Administrative functions, primary training facilities, reserve apparatus, and equipment would be primarily stored in Fontana.

H. DEPARTMENT INVENTORY

Fontana maintains a detailed inventory of all small tools and equipment using our fire records software, Imagetrend. Items are categorized and entered in Imagetrend when placed into service. A detailed list of equipment is provided under "Appendix D."

Several full-time personnel have been assigned responsibility for specific areas of tools and equipment such as extrication equipment, self-contained breathing apparatus, saws, air monitoring devices, radios, water rescue equipment, hoses and nozzles, ladders, and medical equipment. This allows for accountability for all areas of equipment without overloading one or two individuals.

The following are equipment considerations for option 3.

- Williams Bay will provide all equipment required to meet National Fire Protection Administration (NFPA) standards on Williams Bay fire apparatus. This shall include, but not be limited to, self-contained breathing apparatus, saws, hand tools, ladders, extrication equipment, radios, data terminals, lights, safety equipment, water rescue equipment, and monitoring devices (4-gas, natural gas, CO)
- All Fontana and Williams Bay fire equipment repairs and replacement will be split according to cost sharing calculations.

I. OPERATIONS

Fontana Fire Department operations are strategically divided among full-time, part-time, and paid-on-call personnel to maximize efficiency and ensure effective use of on-duty and paid-on-call resources.

Inspections – Fontana employs five full-time and several part-time state-certified fire inspectors. Occupancies in Fontana and Walworth Township are inspected on a biannual basis using shift personnel.

- Fontana can provide routine Williams Bay fire inspections and/or short-term rental inspections using certified on-duty personnel.
- Recommendation to continue utilizing Williams Bay's current fire inspector for non-routine inspections and plan review role could be expanded to Fontana and Walworth Township.

Fire Prevention – A designated fire prevention team coordinates public education efforts, including school programs, station tours, community events, and safety outreach for assisted living facilities.

- Provide public education programs for Williams Bay local schools including fire safety materials.
- Assist with community events such as Corn and Brat Fest, Kishwauketo 5K, Williams Bay High School sporting events, Truck-a-Polooza, and Boo in the Bay.

Fire Records Management – Fontana uses the Imagetrend platform for all fire and EMS records. The department recently transitioned to the new national records platform of National Emergency Response Information System (NERIS) and was one of the first agencies in Walworth County to obtain compliance. Fontana is a data driven department with the capability of pulling detailed call data back to 2010.

Formal Policies & Guidelines – Fontana uses Microsoft Teams to easily share operating documents among personnel. Policies established administrative and daily fire station activities. Guidelines provide a framework for common emergency scene operations.

CPR Education – Fontana offers CPR training through Healthline First Aid, providing public and private classes for residents, businesses, schools, and nonprofit organizations. The program includes a pool of instructors, five CPR mannequins, and AED trainers, along with Stop the Bleed and first aid courses.

Risk Management – Community risk reduction remains a priority, with two full-time staff members certified as Wisconsin community paramedics allowing for advanced in-home supportive care. Planned initiatives include home safety visits, smoke detector installation and replacement, and post-hospital follow-up care.

Training – Fontana Fire Department maintains a strong commitment to training. Daily training objectives are scheduled for full-time staff, monthly drills are conducted for POC personnel, live fire training occurs at least twice per year, and personnel regularly attend conferences, seminars, and hands-on training sessions. The following are additional training considerations for Williams Bay fire service deliver

- Maintain daily training for full-time personnel and monthly drills for paid-on-call staff in Williams Bay and Fontana locations working with neighboring fire departments.
- Integrate training with Williams Bay Police and Public Works departments.

Water Rescue – Fontana is one of the most well-equipped and highly trained water rescue agencies in southeast Wisconsin. Recent responses include aid to Racine, Kenosha, Pleasant Prairie, Rock County, and Madison. These resources would be directly beneficial in serving Williams Bay.

Technical Rescue – Fontana has three full-time personnel trained in technical rescue and is one of three departments in Walworth County leading the development of a regional specialty rescue team.

Emergency Management and Disaster Preparedness – Fontana has adopted an Emergency Action Plan that is regularly updated and overseen by a Village committee. Training includes preparedness for large-scale incidents such as tornadoes, flooding, mass casualty events, hostile incidents, and hazardous material responses. Support for Williams Bay emergency management and disaster responses would include:

- Severe weather incidents preparation and response.
- Mass casualty and active shooter incident training school districts and local/County law enforcement.
- Assist with Williams Bay's Emergency Response Plan.
- Work with Williams Bay Police and Public Works regarding disaster responses.

A recent study, One Step Ahead, completed by Policy Forum for the Walworth County Fire/EMS study Committee categorized Fontana Fire Department as providing a "High Level of Stability". The Study further stated that "The Williams Bay Fire Department already contracts with the Fontana Fire Department for EMS. Given that it likely will struggle to maintain its fire services in the future under its existing POC model, a full consolidation with Fontana may be the next logical step" (Policy Forum, 2025)

J. IMPLEMENTATION & RECOMMENDATIONS

The Fontana Village Board approved several options for Fire Service Delivery to the Village of Williams Bay. All options can be implemented immediately upon approval, or gradually over the next 12 months based on the direction of the Williams Bay Board and staff. All proposals are based on a percentage of the fire budget, in the same manner EMS costs are allocated between Fontana, Williams Bay, and Walworth Township. The following options are being proposed for Fontana Fire Department to provide fire services to the Village of Williams Bay.

Cost Calculations - Fire expenses would be distributed based on a two-year rolling average of fire responses (based on dispatch data) to addresses within Williams Bay and Fontana. Mutual aid and Walworth Township responses would be accounted for as part of the calculations. Use of population was considered; however, population can vary greatly due to non-resident property owners and high tourism fluctuations in both Williams Bay and Fontana. We also looked at assessed tax value as a consideration, but this can create perceived unfairness based on high value lakefront homes and several non-profit occupancies. After reviewing all options, call volume remains the most direct measurement of usage.

When comparing 2024 and 2025 data, the number of fire incidents dispatched were extremely close with 219 total responses in Fontana and 207 in Williams Bay resulting in 51.4% to 48.6% respectively. Future demand for fire service can fluctuate greatly and a two-year rolling average will provide accountability for increases or decreases in fire service demand for each community. The following is an example of how the costs would be distributed using 2024 and 2025 response data for the 2026 Fontana Fire Department Budget.

Two-Year Rolling Average Incident Percentage

Fire Incidents	Fontana Incident Count	Williams Bay Incident Count
2024	122	111
2025	97	96
Total	219	207
Percentage	**51.4%**	**48.6%**

2026 Fire Budget Distribution Example

Walworth Township contributes 15.13% to Fontana Fire operational line items. The remaining 84.87% is split between Fontana and Williams Bay based on responses.

Walworth Township	Fontana	Williams Bay
15.13%	**43.62%**	**41.25%**

2026 Fontana Fire Department Expense – Current Fontana Fire Department expenses are categorized as either Rescue (EMS) or Fire operations with the majority going to EMS and full-time staffing. Fire expenses are split between Fontana and Walworth Township based on a similar two-year rolling average. The following are 2026 Fontana FD operating expenses distributions (excluding capital).

Current Fontana Fire Expense Distribution				
Fire Operating Expenses	Fontana	Williams Bay	Walworth Twp.	TOTAL
	$253,493	N/A	$49,091	$302,584

Current Fontana EMS Expense Distribution				
EMS Operating Expenses	Fontana	Williams Bay	Walworth Twp.	TOTAL
	$1,133,633	$1,055,729	$385,262	$2,574,625

Total Operating Expense $2,877,209

Costs distributions examples are based on fire budget expenses and reflect proposed distribution between Fontana, Williams Bay, and Walworth Township based on 2024 and 2025 fire incident totals.

OPTION 1 – WORKING IN PARTNERSHIP WITH WILLIAMS BAY FIRE DEPARTMENT

The Williams Bay Fire Department is highly respected with a long-standing commitment to serving Williams Bay residents. Under option one, Fontana would respond to all Williams Bay fire incidents with Williams Bay Fire Department. Williams Bay Fire Department would continue to operate independently and maintain its own separate personnel, equipment and fire station.

- Two Fontana Fire / EMS personnel stationed in Williams Bay would respond to all fire incidents.
- Fontana would respond with Williams Bay, providing personnel and apparatus from Fontana.
- Current Fontana Fire Budget operating costs would be split based on call percentage calculations.
- Fontana Fire / EMS personnel stationed in Williams Bay would continue to serve Williams Bay, Fontana, and Walworth Township with a staffed ambulance.
- Standardized policies and procedures between Williams Bay and Fontana.

EXAMPLE Option 1 Fontana Partnering with Williams Bay Fire Department				
2026 Fire Operating Expenses	Fontana	Williams Bay	Walworth Twp.	Total
	$130,509	$123,513	$48,561	$302,584

Option 1 would result in duplication of fire expenses to Williams Bay and provide limited operational cohesiveness; however, Fontana is willing to continue serving as a secondary fire service if desired.

OPTION 2 – FONTANA PROVIDES FIRE SERVICE FROM FONTANA FIRE STATION

Option 2 assumes transitioning Williams Bay and Fontana into a single Fire Department. Fontana Fire Department would assume responsibility for Williams Bay fire protection with all fire apparatus responding from the Fontana Fire Station. Williams Bay would have one ambulance staffed in their station.

- Two Fontana Fire / EMS personnel stationed in Williams Bay would respond to fire incidents with an ambulance if available.
- Fontana would respond to Williams Bay fire incidents with personnel and apparatus from Fontana.
- Forty percent increase in insurance and fuel and twenty percent increase in other operating expenses.
- Fontana Fire / EMS personnel stationed in Williams Bay would continue to serve Williams Bay, Fontana, and Walworth Township.

EXAMPLE Fontana Providing Fire Service From Fontana Fire Station				
2026 Fire Operating Expenses	Fontana	Williams Bay	Walworth Twp.	Total
	$145,580	$136,775	$48,561	$330,916

OPTION 3 – FONTANA PROVIDES FIRE SERVICE FROM FONTANA AND WILLIAMS BAY

Fontana Fire Department would assume responsibility for all Williams Bay Fire protection with fire apparatus responding from Williams Bay and/or Fontana fire stations. Fontana would staff the Williams Bay Fire station with personnel and respond with fire apparatus to fire incidents and with an ambulance to Williams Bay EMS incidents. Williams Bay station staffing options are offered as 3A, 3B, or 3C.

- Fontana Fire / EMS personnel stationed in Williams Bay would respond to fire incidents with an ambulance or fire apparatus based on call type.
- Fontana would respond to Williams Bay fire incidents from the Fontana station as needed.
- Fire Inspections – Same as option 2.
- Additional 300 hours of Paid-on-call hours for large incident responses, training, public education, and meetings.
- Options under 3B and 3C provide additional part-time or full-time Williams Bay station staffing.
- Williams Bay to provide a fire station with adequate facilities for 24-hour staffing, and front-line fire and EMS apparatus. Fontana shall maintain a location for reserve apparatus.
- Fire Apparatus –Apparatus to be provided by Williams Bay to Fontana via Lease.
    - One front line fire engine.
    - One Support Vehicle for POC response & utility.
    - One brush truck (optional).
    - One UTV (optional).
    - One reserve engine shared between Fontana and Williams Bay (TBD)
- Twenty percent increase in operating expenses based on call volume increases.
- Williams Bay would not be required to contribute to the purchase of current on-order apparatus.
- Maintenance for all fire apparatus shall be shared between Williams Bay, Walworth Township and Fontana with 40% increase in maintenance, fuel, insurance, fire supplies, and equipment expenses.
- Fontana Fire / EMS personnel stationed in Williams Bay would continue to serve Williams Bay, Fontana, and Walworth Township.
- Recommend modification of IGA with Delavan Township.

3A Staffing – Current In-Station Staffing of Two 24-hour Personnel Staffing Williams Bay

- Williams Bay fire station staffing - Two 24-hour dual certified (fire/EMS) personnel.
- Fontana fire station staffing – Three 24-hour personnel plus Chief (day) position.

** EXAMPLE** Fontana Providing Fire Service From Williams Bay - Two 24-hour Personnel				
2026 Fire Operating Expenses	Fontana	Williams Bay	Walworth Twp.	Total
	$149,631	$141,501	$55,801	$346,933

3B Staffing– Two 24-hour personnel PLUS- 3rd part-time position staffed daytime hours (10 hrs.– 365 days)

Option 3B provides a transition to 24-hour fire protection with three during daytime hours. Fire apparatus could respond with two personnel at night.

** EXAMPLE** Fontana Providing Fire Service From Williams Bay - 3B Third Daytime Position				
2026 Fire Operating Expenses	Fontana	Williams Bay	Walworth Twp.	Total
	$187,663	$177,467	$68,993	$434,123

3C – Three 24-hour personnel adding a third 24-hour part-time position -**Fontana FD Recommendation**

- Addition of three permanent part-time positions with WRS contributions.
- Health Benefits not included with calculations.
- Williams Bay fire station staffing – Three 24-hour personnel.
- Fontana fire station staffing - Three 24-hour plus Chief (day) position.

** EXAMPLE** Fontana Providing Fire Service From Williams Bay - 3C Third 24-Hour Position				
2026 Fire Operating Expenses	Fontana	Williams Bay	Walworth Twp.	Total
	$253,457	$239,686	$91,814	$584,957

Full-Time Comparison - The option of additional full-time personnel was not approved by Fontana or Walworth Township Boards. Full-time budget considerations are included for comparison purposes only.

- Addition of health benefits, paid time off, overtime, and increase in WRS.
- Fontana does not anticipate the need for additional full-time firefighters in the foreseeable future.

** EXAMPLE** Fontana Providing Fire Service From Williams Bay - Three Full-Time Positions				
2026 Fire Operating Expenses	Fontana	Williams Bay	Walworth Twp.	Total
	$340,057	$321,580	$121,852	$783,489

Full-time staffing calculations were included to illustrate the cost savings associated with the current staffing model, which relies on part-time and permanent part-time personnel. Full-time staffing projections may be beneficial to support long-term cost projections and long-term referendum considerations.

Implementation

- Immediate or phased implementation options
  - Fontana has already committed to providing automatic aid to all Williams Bay fire responses throughout the end of 2026 at no cost to Williams Bay. This agreement was approved by Fontana and Walworth Township Boards and could transfer to full fire service immediately.
  - A pro-rated agreement could be entered into at any time in 2026.
  - A graduated transition from Option 1 to Options 2 or 3 could also be implemented.
  - Fontana would recommend transitioning to Option 3 at the start of 2027.
- Coordinate transition of services, including:
  - Personnel integration including an open hiring process for all Williams Bay paid-on-call personnel wishing to work for Fontana Fire Department.
  - Operational alignment to ensure all fire department operations are transferred seamlessly.
  - Policy and procedure standardization taking into consideration current Williams Bay mutual aid agreements and intergovernmental arrangements.
- It will be the highest priority to ensure no interruption to emergency service delivery during transition

CONCLUSION

In closing, the Fontana Fire Department is confident in its ability to provide reliable, efficient, and forward-thinking fire protection services to the Village of Williams Bay. We believe that building upon the already successful EMS partnership offers a practical and seamless path toward a more integrated and effective emergency response system. Our approach emphasizes maintaining strong service to all communities served while enhancing operational coordination, response capabilities, and long-term sustainability.

If selected to provide Fire service, Fontana recommends future considerations to merge the two separate Williams Bay / Fontana IGAs into one agreement moving toward more of a true "district" style organization. We feel it is important to wait until fire services are well established prior to taking this next step.

The Fontana Fire Department appreciates the thoughtful consideration of this proposal and welcomes the opportunity to further discuss service options, implementation strategies, and answer any questions the Village Board or committees may have at our April 29th meeting. We look forward to continued collaboration in support of public safety for the residents and visitors of Williams Bay.

COST PROPOSAL

All cost proposals are based on Section J "Implementation" criteria using the number of fire incident dispatched to the Village Williams Bay compared to those dispatched to the Village of Fontana. The cost of fire services would be proportional to actual expenditures rather than an arbitrary budget amount.

EMS Invoicing History - Williams Bay and Fontana have been sharing expenses based on a percentage since 2022 for emergency medical services with Fontana consistently coming in under budget. The following is a history of EMS budget and actual billing to Williams Bay compared to referendum funding.

Williams Bay EMS Service Budget & Invoicing

	WB Budgeted Amount	WB Actual	WB Budget Surplus / Deficit	Referendum	Referendum Surplus/Deficit	Notes
2022	New IGA	$221,297	N/A	N/A	N/A	WB EMS - IGA effective May 1, 2022
2023	$909,251	$759,730	$149,521	$928,077	$168,347	Referendum effective Jan 2023
2024	$930,633	$775,626	$155,007	$928,077	$152,451	Walworth Township IGA (2025 Start)
2025	$919,355	$783,969	$135,386	$928,077	$144,108	10 Year WB IGA - March 10, 2025
TOTAL	**$2,759,239**	**$2,319,324**	**$439,915**	**$2,784,231**	**$464,907**	

Fire Service Cost Proposal - Fontana is recommending following a similar model for Williams Bay fire service with a percentage contribution to actual fire budget expenses. Examples of detailed 2026 fire expenses and how they would be distributed are listed under "Appendix E". The following was taken into consideration.

- Increases in operational costs for Options two and three were compared to current Williams Bay fire, EMS, and dive line items. Several areas of savings were identified by combining resources.
- Operating Costs do not include capital purchase items.

Estimated Williams Bay Fire Service Operating Cost Through 2032

Year	Option 1	Option 2	Option 3A	Option 3B	Option 3C	Full-Time
2026	$123,513	$136,775	$141,501	$177,467	$239,686	$321,580
2027	$129,689	$143,614	$148,576	$186,340	$251,670	$337,659
2028	$136,174	$150,794	$156,005	$195,657	$264,254	$354,542
2029	$142,982	$158,334	$163,805	$205,440	$277,467	$372,270
2030	$150,131	$166,251	$171,996	$215,712	$291,340	$390,883
2031	$157,638	$174,563	$180,595	$226,498	$305,907	$410,427
2032	$165,520	$183,292	$189,625	$237,823	$321,202	$430,949

5% increases are an estimate. Actual increases may vary

Comments

- Fontana seeks grant funding whenever possible and other opportunities to fund emergency services.
- Term – Ending at the same time as the current EMS IGA. December 21, 2034.
- Williams Bay would retain Wisconsin 2% funding and could be used to offset fire service funding.
- Item # 7 of Williams Bay / Fontana IGA for EMS Service states "The Parties agree to work together in good faith in order to reach agreement in the event that Williams Bay chooses to add fire protection services from Fontana.
- Cost proposals are intended to provide several service delivery options with scalable implementation for staffing the Williams Bay fire station.

APPENDIX B – LOCAL 580 SUPPORT LETTER

JANESVILLE FIRE FIGHTERS
LOCAL 580

JUSTIN WISKIE, PRESIDENT | TYLER MAECHTLE, VICE PRESIDENT | ADAM SCHMIDT, SECRETARY-TREASURER

Williams Bay Village Board
250 Williams St
Williams Bay, WI 53191

April 16, 2026

Dear Village Board members,

Fontana's existing staffing model includes full-time, part-time, and paid-on-call personnel. This blended model has proven effective in meeting the evolving needs of the communities they serve. We further believe that expanding this structure will meet the service expectations of Williams Bay. Local 580 supports this flexible approach, which allows the department to provide reliable coverage while maintaining professional standards.

Union firefighters, EMTs, and paramedics bring a unique set of advantages to any municipality they serve. As trained professionals, who operate under a collective bargaining agreement, they ensure consistent qualifications, accountability, and adherence to nationally recognized standards. Municipalities benefit from a workforce committed to safety, ongoing training, operational readiness, and strong labor-management relationships. Residents and visitors can trust that their emergency services are provided by personnel who are dedicated to excellence and supported by resources that uphold both safety and efficiency.

The Village of Fontana and Janesville Fire Fighters Local 580 have a positive and productive working relationship. This partnership has fostered mutual respect, constructive communication, and a shared commitment to public safety. We are confident that this same cooperative spirit will extend to Williams Bay should the Village choose to move forward with this service agreement.
Thank you for your time and consideration. Local 580 stands ready to support efforts that enhance regional fire and EMS services and strengthen the protection provided to the communities of Walworth County.

Sincerely,
Justin Wiskie
President - IAFF Local 580
303 Milton Ave
Janesville, WI 53545

APPENDIX C – WALWORTH TOWNSHIP SUPPORT LETTER

TOWN OF WALWORTH

WALWORTH COUNTY, WI

April 22, 2026

Village of Williams Bay Trustees,

As you are aware, the Town of Walworth has entered into a long-term intergovernmental agreement with the Village of Fontana-on-Geneva Lake for both fire protection and EMS services.

Throughout this process, Fontana has demonstrated a high level of professionalism, transparency, and collaboration in working with surrounding communities and departments. They have successfully established agreements with the Town of Delavan and Hebron Fire District that includes both shared dual-response areas and clearly defined primary response zones, ensuring efficient, consistent and effective service delivery.

Given that the Village of Williams Bay already contracts Fontana for EMS services, there is a natural advantage in maintaining continuity by aligning fire protection services as well. Fontana's familiarity with your community's geography, infrastructure, response patterns, and existing apparatus creates a seamless operational environment that directly benefits response times, coordination, and overall public safety.

In addition to emergency response, Fontana has been a reliable partner in fire prevention. The Town of Walworth has entrusted Fontana with fire inspections for local businesses and vacation rentals, as well as school-based fire safety and prevention programs. Their consistency and commitment in these areas have been instrumental in enhancing safety across our Town.

While the Town of Delavan has been a valued service provider to the Town, we made the decision to contract with Fontana FD, recognizing their capacity and strategic approach to service delivery. We placed our confidence in Fontana's expertise to help shape response areas and mutual aid agreements that prioritize effectiveness over strict adherence to municipal boundaries. This approach has proven beneficial in optimizing coverage and ensuring timely resource deployment.

It is imperative that our communities continue to work collaboratively to support our emergency service providers and empower them to design response systems that maximize efficiency and minimize response times. Fontana has demonstrated its ability to do exactly that for the Town of Walworth, and we are confident they will deliver the same high level of service and commitment to the Village of Williams Bay.

We encourage you to give full consideration to the long-term benefits of continuity, coordination, and proven performance in your decision-making process as you evaluate your fire protection service options.

Alex Rasch

Village of Fontana Trustees

RE: Williams Bay RFP for Fire Services

To Whom It May Concern:

During the Town Board Meeting held on April 21, 2026, the Board voted to support the Fontana Fire Department's request to respond to the Williams Bay Request for Proposal (RFP) for Fire Services as follows:

Supervisor Rasch made a motion to approve the cohesive agreement, as proposed by Chief Manthy, which included all provisions up to and including section C3 with all the same stipulations by those set by the Village of Fontana for part-time personnel, and did not apply to full-time staff at this stage. Supervisor Pearce seconded the motion. The Board unanimously carried the decision with a vote of 5-0.

Please contact me if you have any questions.

Regards,

Marie Baker

Marie Baker, Clerk-Treasurer

cc: Chief Manthy

Subject: Fontana RFP Presentation Follow up
Attachments: Williams Bay Responses - Jan 2021 to Dec 31- 2025.pdf; Williams Bay Responses - 2026 Jan 1 to Apr 29.pdf; Fontana RFP Presentation.pdf

Administrator Lothspeich,

Thank you for taking time to meet with Fontana representatives regarding Fontana FD's response to Wiliams Bay's request for proposal for fire services. Attached is a copy of our presentation.

We would like to follow up on discussions from this week's protection committee meeting.

1. **Williams Bay paid-on-call staff -** Fontana utilizes a Police and Fire Commission for hiring, promotions, and discipline. All Fontana paid-on-call staff are required to complete a background and medical physical prior to hiring. There are no physical agility or other testing requirements; simply a pre-employment medical physical completed by Mercy Occupational Health. Williams Bay could also continue to employ paid-on-call personnel independent of Fontana.
2. **Ambulance Abandonment** – This is a term that I had not previously heard in my years in the fire service; however, based on several recent discussions, there appears to be a concern with a Fontana ambulance crew, staffed with certified firefighters, assisting with firefighting activities. To my knowledge, there were two incidents which Fontana ambulance crews "abandoned" the ambulance.
    1. Oct 10, 2025 - 509 Wiswell St - The Fontana ambulance crew arrived on scene of a Williams Bay structure fire and were advised by command to stage down the street. The crew "abandoned" the ambulance to assist outside crews but remained available for on-scene medical care. Delavan Township responded to a Williams Bay EMS incident due to Fontana units being committed to the Williams Bay fire.
    2. Jan 1, 2026 – 91 Potawatomi Rd – While responding to a Williams Bay structure fire, the ambulance crew noted an active basement fire with one occupant unaccounted for in the unit above the fire. Upon arrival, the ambulance crew reported to a Williams Bay Fire Captain and were told the unit was not yet searched. With no other fire crews available, the decision was made to have the Fontana ambulance crew "abandon" the ambulance to perform a high priority search. I fully support the ambulance crew's decision to perform an immediate search rather than wait outside for another crew to arrive.

   Ambulance crews on a fire scene provide immediate life saving actions, medical assistance to victims, and protect the firefighters working at the scene. I strongly disagree with the practice of assigning an ambulance (dedicated to protecting firefighters) to respond to another incident. The issue of on scene EMS can easily be addressed in Williams Bay by adding an additional mutual aid ambulance to structure fires (typically 2-3 fires per year) as we do in Fontana.

   I hope this provides the information needed to move past "ambulance abandonment" discussions and concentrate on the future fire service delivery needs of Williams Bay.
3. **Mutual Aid utilization for Williams Bay EMS**- Fontana has been regularly responding to Williams Bay for EMS emergencies since prior to 2021. From January 2021 through April 29, 2026, Fontana responded to a

total of 1,602 incidents to the Village of Williams Bay; three of which required mutual aid EMS responses from Delavan Township (including the fire noted in the ambulance abandonment section). This equates to **99.8% availability** to respond to Williams Bay EMS incidents, and we feel meets delivery expectations set forth in the EMS IGA. The attached response summary shows all incidents that Fontana responded to Williams Bay since 2021 with mutual aid EMS incidents highlighted.

4. **Fontana mutual aid fire to Williams Bay-** Fontana FD received a formal request from Williams Bay to assist with fire service delivery on Friday, February 6th at 2:10 pm (effective immediately). Meetings were held that afternoon with Village staff and Fontana Chiefs followed by an emergent request from Walworth County Dispatch. Service was established and dispatch responses implemented prior to the end of that business day. Fontana Fire obtained approval from Fontana and Walworth Township Boards to continue fire service through the end of 2026 with no additional cost to Williams Bay. Williams Bay was asked if they wanted Chief officers to respond with the fire apparatus, and we were told that he only wanted fire apparatus. Fontana can provide additional staffing to Williams Bay fire incidents if Officers are included in the response.

Please let us know if this addresses your questions and if any further information is needed.

Fontana Fire Department

Village of Williams Bay RFP for Fire Services

Request For Proposal Topics

1. Officer Background & Experience
2. Scope of Required Services & Recommendations
   - Operational Capabilities
   - Three Service Delivery Options
   - Scalable Staffing Solutions
3. References
4. Cost Proposal

Officer Background & Experience

Chief & Deputy Chief

Paid-On-Call Officers

Assistant Chief

Captain

Full-Time Company Officers

Duty Crew Captain

Two Duty Crew Lieutenants

Scope of Services

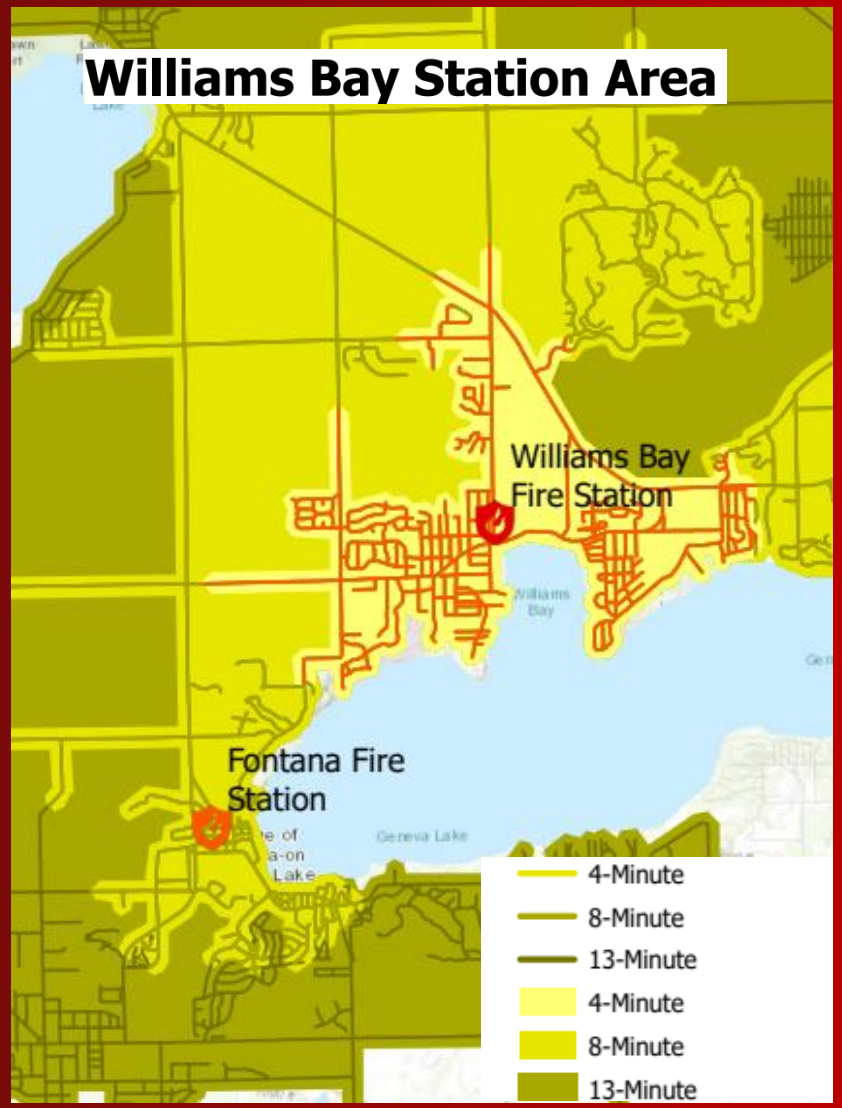

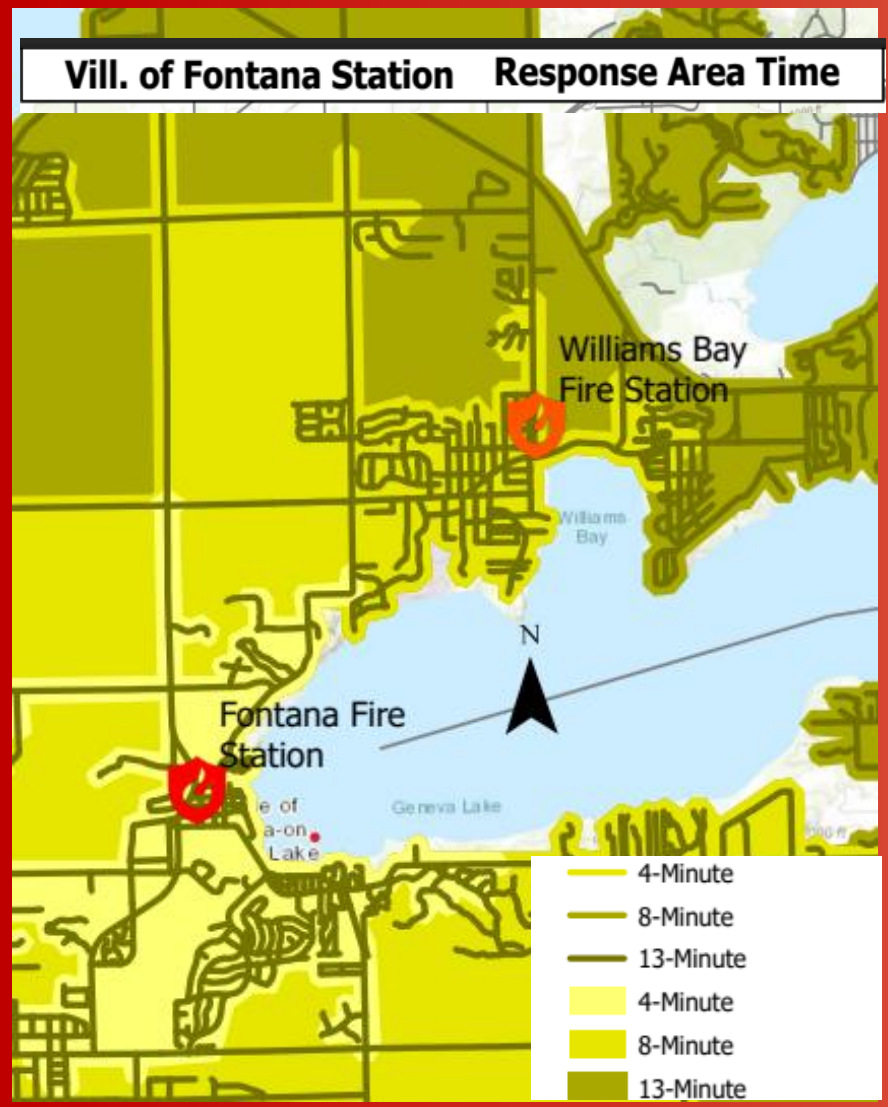

EXECUTIVE SUMMARY

- Option 1 - Working in partnership with Williams Bay Fire Department.
- Option 2 – Fontana provides Williams Bay fire service from the Fontana Fire Station.
- Option 3 – Fontana provides Williams Bay fire service from both Fontana and Williams Bay fire stations.

NFPA 1710

"regardless of population density: a travel time of less than 4 minutes and a time of less than 90 seconds for turn out from the station once the alarm is received."

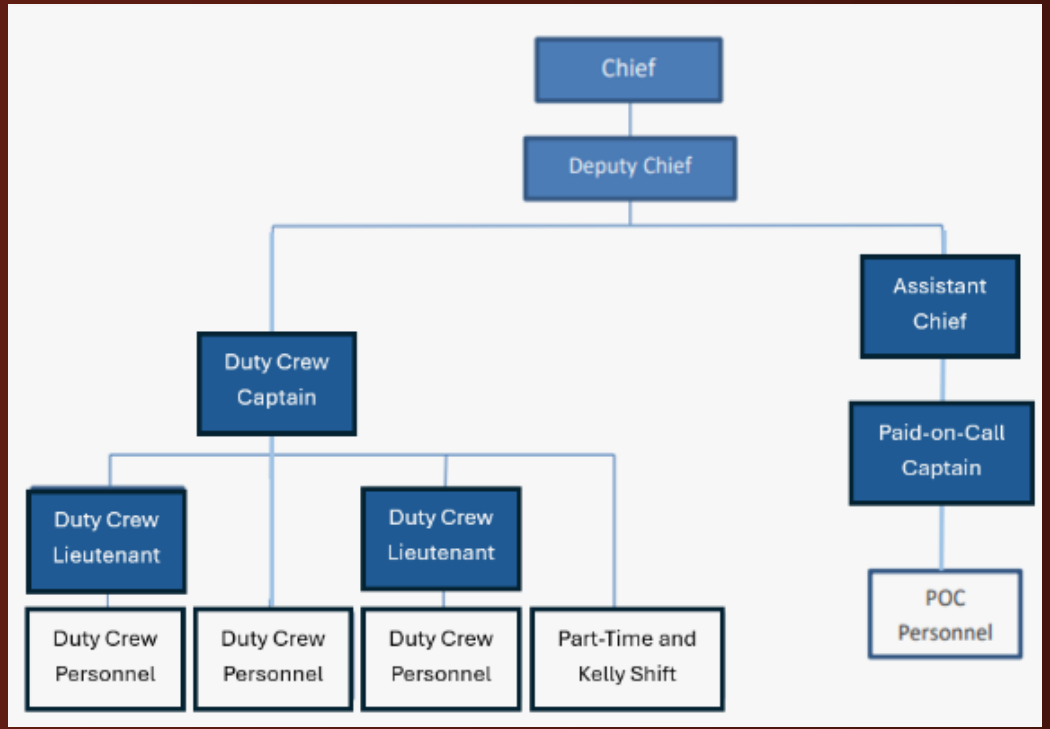

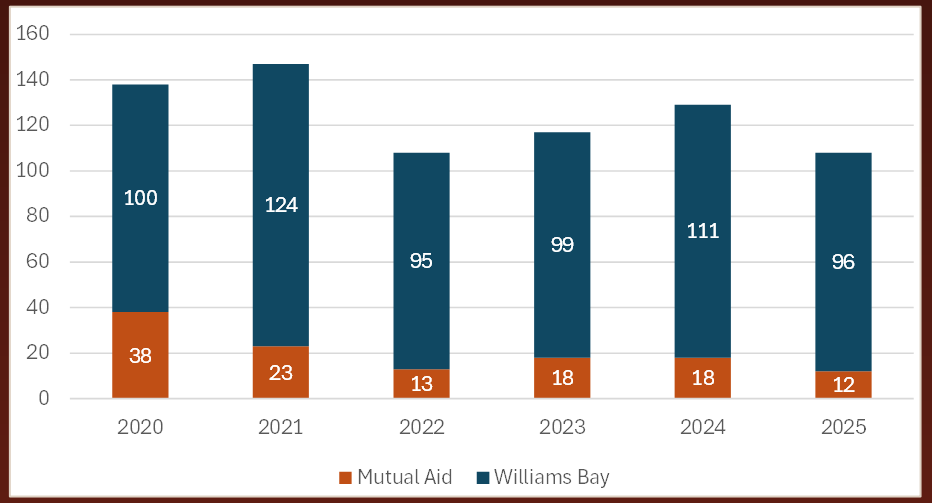

Scope of Services

A. Governance & Oversight
   - Village Administration
   - Joint Emergency Services Committee
   - Fontana Police & Fire Commission

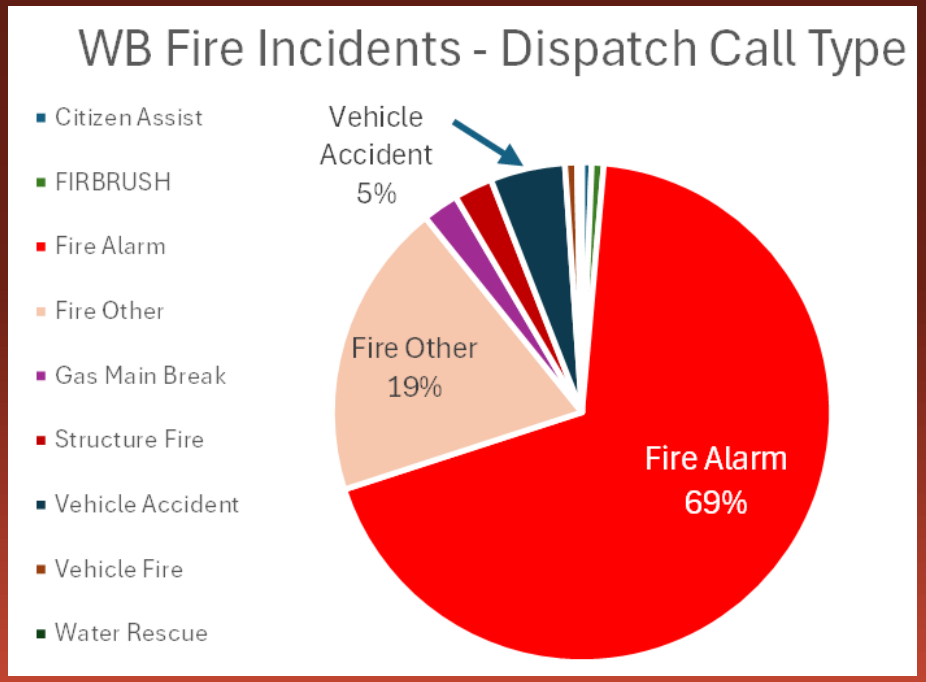

B. Organizational Structure
   - Additional POC Assistant Chief Position
   - Lateral Williams Bay Officer Transfer

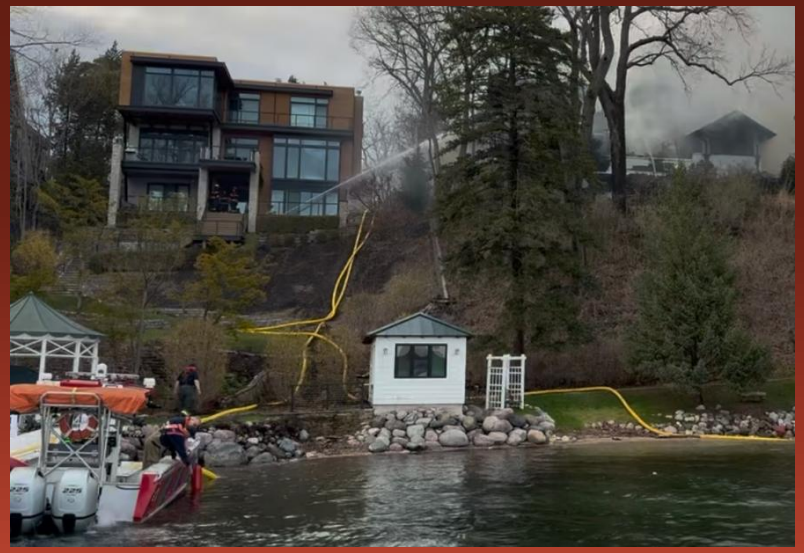

C. Level of Service

- Fire Response Resources
- Mutual / Auto Aid & Box Alarms
- Insurance Service Organization (ISO)

Williams Bay
Fire Service Considerations

- Preserve Development
- Comprehensive Plan
- Kishwauketoe Nature Area
- Public Schools
- Geneva Lakefront

D. Staffing Methods & Future Growth

- 3 Chief positions
- 13 full-time
- Two permanent Part-time
- Six part-time
- 16 Paid-on-call
- **Transitioning Williams Bay Paid-on-call personnel**

FONTANA FD 5-YEAR HISTORICAL STAFFING MODELS

Year	Scheduled Hours	Average Daily Hours	Staffing Model	Changes from Previous Year
2022	18,457	51	Full Time - Two 24-hour per day Part-time - Chief 20 hours / week	No change from 2021
2023	36,176	99	Full Time - Three / Four 24-hour per day Part-time - Chief 30 hours / week	Three 24-hour positions in January transitioning to four 24-hour positions by mid-2023.
2024	38,393	105	Full Time - Four 24-hour per day Part-time -Daytime 3-4 days per week	Addition of part-time day positions- 7 days/week over summer and 3 days/week off season
2025	42,741	117	Full Time - Four 24-hour per day Part-time -Daytime (7 days per week)	Part Time day position Increased to 7 days/week (year round) with second day position on weekends
2026	14,659	122	Full Time - Four 24-hour per day Part-time -24 hour & days positions	24-hour part-time position added with implementation of permanent part-time positions

Table 3. Combined Fontana and Williams Bay populations

Year	Current permanent population	2040 population projection
Permanent	4,864	5,621
Seasonal	11,389	12,391

G. Facilities

Current Fire Station Concerns

- Health & Safety
- 24-hour accommodations

Future Station Considerations

- PAA Study
- Fontana Public Safety Building
- Williams Bay Fire Station

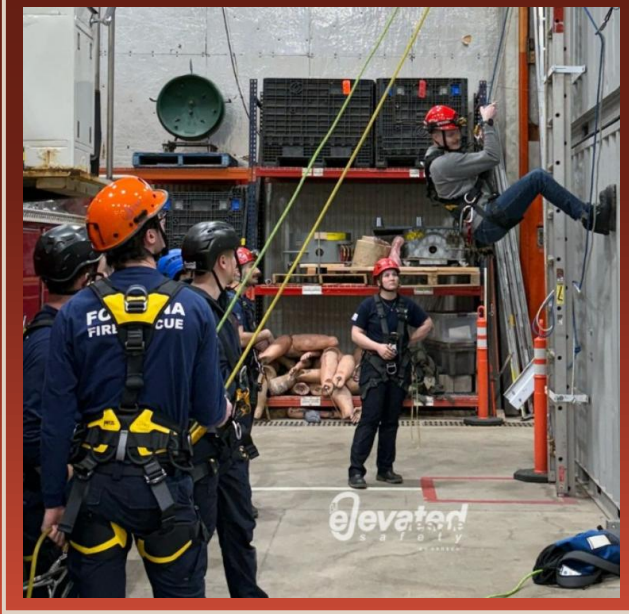

I. Operations

- **Technical & Disaster Response**
- **Training & Reports**
- **Public Education & CPR**
- **Water Rescue**
- **Policies & Guidelines**
- **Fire Inspections**
- **Firefighter Wellness**

Fontana Fire Department serves Fontana, Williams Bay, and Walworth Township as one unified system, rather than independent entities sharing resources. The goal for emergency service delivery is to deploy all personnel and apparatus based on need and proximity, not jurisdictional boundaries.

Implementation & Cost Proposal – 2026 Example

Cost Allocation Calculation

- Based on 2-year rolling average of Williams Bay and Fontana fire call volume (dispatch CFS data)
- Mutual aid shared - Williams Bay and Fontana
- Walworth Township calculated independently
- Williams Bay retains 2% funding

Remainder split based on call volume
84.87%

Walworth Twp
15.13%

Percentage based on Twp IGA

Fontana	Williams Bay
219 Fire Calls	207 Fire Calls

3-Way Split Percentages		
Fontana	Williams Bay	Walworth Twp
43.62%	41.25%	15.13%

OPTION 1 – Partnership with Williams Bay Fire Dept.

- No Increases in Fontana Budget
- Fire response from Fontana & Williams Bay FD

Fontana	Williams Bay	Walworth Twp.	Total
$130,509	$123,513	$48,561	$302,584

OPTION 2 – Responding from Fontana Fire Station

- 20% Increase in operating expenses (40% in fuel)
- 300 Additional POC hours & 2nd Assistant Chief

Fontana	Williams Bay	Walworth Twp.	Total
$145,580	$137,765	$53,789	$337,133

OPTION 3 – Responding from Fontana & Williams Bay

- Option 2 expenses and 40% increase in maintenance
- Scalable Staffing Models
- Williams Bay provides WB apparatus & Station

Cost Analysis

Year	Option 1	Option 2	Option 3A	Option 3B	Option 3C	Full-Time
2026	$123,513	$137,765	$141,501	$177,467	$239,686	$308,420
2027	$129,689	$144,653	$148,576	$186,340	$251,670	$323,841

WILLIAMS BAY STATION STAFFING OPTIONS

3A – Two cross-staffed 24-hour personnel

3B – Third part-time position – 10 hours / day

3C - Third part-time position – 24 hours / day

Full-time comparison – Additional $166,629 (total)

Additional Considerations

- Future apparatus purchases
- Williams Bay fire station maintenance
- Williams Bay staffing contributions shared with Fontana and Walworth Township

2026 Williams Bay Budget (Draft)

Fire Department (E)	$81,366.00
Dive Team (E)	$6,543.00
EMS (E)	$65,050.00
EMS Housing	-$50,000.00
Total Operating Exp.	**$102,959.00**
2% Dues Revenue	$45,000.00
	$147,959.00

Village of Williams Bay, Walworth County

Request for Proposal (RFP)
For Fire Services

The Village of Williams Bay is requesting a statement of qualifications and service proposal, including level of service and organizational census from the Williams Bay Fire Department, Delavan Township Fire Department and Village of Fontana Fire Department.

Background

The Village of Williams Bay is located in Walworth County in Southeast Wisconsin on the northerly shores of Geneva Lake. The Village's population is approximately 2,900 with summer seasonal population increasing 2-3 times. The Village encompasses roughly three (3) square miles and is located nearby to the Village of Fontana to the west and the Township of Delavan to the north. The Village operates under a 7-member Village Board form of government.

The Williams Bay Fire Department is a volunteer department that was established in 1948. The Williams Bay Fire Department is not a department of the Village but rather under Village Code the Department is officially recognized as the Fire Department serving the Village of Williams Bay, and the duties of firefighting and fire prevention in the Village are delegated to such Department. The Williams Bay Fire Department shall be responsible for the program of fire defense for the citizens and property within the Village of Williams Bay. Emergency Medical Services (EMS) are currently provided by contract through Fontana/EMS Williams Bay Rescue Squad, and, when requested, the Williams Bay Fire Department.

As being experienced throughout fire service, the Fire Department continues to experience reductions in volunteers and the Department has increasingly experienced difficulty maintaining an adequate number of trained firefighters to adequately respond to fire calls in a timely manner.

Purpose & Scope:

Overall, the purpose of this RFP is to provide information to the Williams Bay Village Board in regards to:

- Which of the Fire Departments, or a combination, should the Village of Williams Bay turn to for services in combination with or in lieu of the current volunteer department,
- How a "partnership" might be structured with another department.

The intent of this study is to obtain data of the staffing, practices, organizational structure, equipment & facilities of the fire departments in order to provide efficient delivery of fire services for serving the Village of Williams Bay. The successful department(s) shall provide detailed information and data from the department necessary for review, analyze and report on the condition, policies, procedures and capabilities of the department to serve as the Village of Williams Bay Fire Department.

Services to be provided:

The departments are asked to provide written responses and supporting information/data on the following topics which are briefly described below. Each objective has considerable depth and this outline is intended to illustrate the scope of information requested-not the breadth of the topic:

A. **Governance & Oversight: Does the department a governance structure that will support expansion of services to cover Williams Bay?**
   The department's ability to provide an efficient, effective and transparent leadership structure and administrative procedures to ensure that resources are used in the best manner possible. Provide the department's leadership structure and confirm how the department has sufficient resources to ensure department cohesiveness, teamwork and effectiveness:

B. **Organizational Structure: Does the Department organizational structure provide adequate structure to cover Williams Bay?** Detail the department's organizational model (including span of control) ensuring that it is consistent with generally accepted management principles and will foster effective operations;

C. **Level of service: Does the Department have adequate staff to cover Williams Bay?** Provide staffing levels to ensure that the department sufficiently meets the requirements to provide effective fire protection service;

D. **Professional/Paid-on call/Volunteer: Does the Department have a staffing model that appears capable of providing services to Williams Bay?** Detail current staffing methods, numbers & distribution of personnel, include prior 5-years historical data. Confirm the ability to attract volunteer/paid on call firefighters and on-duty firefighters. Indicate if/when on-duty firefighters should be utilized to meet coverage requirements;

E. **Future Growth:** Confirm the departments ability to meet demand needs for future projected community growth in their existing service area as well as Williams Bay and their impact on fire protection needs;

F. **Equipment/Vehicles:** Provide detailed itemized list of the existing vehicles and equipment confirming that the department currently has sufficient resources to meet community needs and those of Williams Bay;

G. **Facilities:** Confirm fire station facility needs/deficiencies. Can the existing facilities, plus those in Williams Bay, provide adequate space;

H. **Department Inventory:** Provide the inventory list of all departmental equipment and supplies and inventory procedures of the Department;

I. **Operations:** Describe how the following operational items are accomplished effectively and efficiently by the department: inspections, training, emergency management and disaster planning, fire prevention, safety & risk management etc.;

J. Implementation: Provide a prioritized implementation strategy based on realistic timeline for completion. Include estimated costs associated.

K. Fire Department: The Village of Williams Bay Fire Department Fire Chief, Rescue Squad Captain Gluth, will be included in the evaluation process. Additional individual, group or department meetings will be at the Village's discretion. The scope of the discussions will also be at the Village's discretion;

L. Police Department: It is expected that the Williams Bay Police Chief will be involved who routinely interact with the fire department to gain insights on service needs;

M. Village Board: The Village Protective Services Committee will lead the selection process with support by the Village Finance and Personnel Committee in making recommendations to the Village Board in the selection process. The scope of the Village Committees and Board's involvement (i.e. group meetings, individual interviews, etc.) will be at their discretion;

Calendar of events:

Activity:	**Date:**
Proposals due	*Friday April 24, 2026*
Committee Review/Department Interviews	*Week of April 27, 2026*
Committees Recommendation	*Monday, May 4, 2026*
Village Board department selection	*Monday, May 18, 2026 (Tentative)*

*The Village recognizes these dates may need to change based on the scope of submittals and reviews.

Terms and Conditions for making proposal:

A. Inquiries from departments: Questions regarding this request for proposals should be directed to Administrator David Lothspeich Village of Williams Bay @ 262-245-2700 or admin@vi.williamsbay.wi.gov

B. Cost incurred in responding: All costs, directly or indirectly related to the preparation of a proposal, including any oral presentations required to supplement and/or clarify a proposal, shall be the sole responsibility of the department

C. Response instructions: One (1) digital copy of the proposal should be emailed in PDF format bearing the name and address of the respondent and subject line "RFP for the Village of Williams Bay Fire Department" along with 10 hard copies.

Proposals are to be emailed and hard copies mailed to:
David Lothspeich, Administrator
Village of Williams Bay 250 Willams Street
PO Box 580
Williams Bay, WI 53191
E-mail: admin@vi.williamsbay.wi.gov
Phone: 262-245-2700

Proposals must be submitted by Friday, April 24, 2026 at 4:00 p.m. The Village of Williams Bay shall not be responsible for late delivery of the proposals under any conditions.

D. Proposal Acceptance Period: It is understood that, upon submission of the proposal, the fees proposed will be valid for a period of ninety (90) days.

Proposal format:

Overview of required sections:

1. Cover letter:
   The cover letter should contain the name of the proposing department, the address of the department, and the contact individual (s) authorized to answer technical, price, and contract questions; including respective contact information.

2. Department background and statement of staff experience:
   Identify the key personnel of the department who will be assigned to this project. Describe the organization of the staff team that would service the Village. Provide a listing of the management level members of the staff team.

   Include name, title, length of service with the firm, biography, education level, and professional achievement and/or certification of any staff that will assist with the project. This section should include the range of services previously performed by the department, and the department's background in providing these services to municipal entities.

3. Scope of required services:
   Describe how the department will cover services outlined in the "Service to be provided" section

4. References:
   List a minimum of five (5) municipal references. Provide a contact person and telephone number for each reference. Include services provided to these governmental references.

5. Cost proposal(s):
   Cost of service quotes should be included for all required components referenced above, detailing all costs associated with the services to be provided. Proposal should include payment terms.

Award of contract:

The Village of Williams Bay will award the services in a manner that will obtain the highest quality of services at the most competitive price. The Village reserves the right to negotiate or reject any and all proposals. Proposals will be evaluated by using the following criteria:

1. Experience in providing the requested services;

2. Compliance with specifications as outlined in the "Proposal Format" section of this request for proposal;

3. Proposed cost of service;

4. Reference checks.

   Please note that no formal opening of the proposals will take place. Proposals will be evaluated and the successful department will be contacted subsequent to Village approval.

General terms and conditions

Indemnification: The department shall indemnify, defend and hold harmless the Village of Williams Bay, its officers, agents, employees, representatives and assigns, from lawsuits, actions, costs (including attorney's fees), claims or liabilities of any character brought because of any injuries or damages received or sustained by any person, persons, or property on account of any act or omission, neglect or misconduct of said contractor, its officers, agents and/or employees arising out of, or in the performance of any of the provisions of the contract, including any claims or amounts recovered for any infringement of patent, trademark or copyright; or from any claims or amounts arising or recovered under the "Worker's Compensation Act" or any other law, ordinance, order or decree.

The Village reserves the right to reject any or all proposals, waive formalities, and select the department that best meets the needs of the Village and its employees. The Village reserves the right to request additional information during the evaluation period.

/s/ Tina Kolls, Village Clerk

These are not official Minutes until approved by the Governing Body.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is entered into between the Village of Williams Bay (the Village) and the Town of Linn (the Town), effective as of the date of the last signature of the parties to this Agreement.

RECITALS

A. The Village operates a municipal beach within the corporate boundaries of the Village which provides access to Geneva Lake (the Beach).

B. The Village has determined that it is appropriate in 2026 to allow access to the Beach by individuals who are not residents of the Village, subject to the purchase of beach tags for that purpose.

AGREEMENT

In consideration of the Recitals and provisions which follow, the Village and the Town agree to the following.

1. The Village agrees to provide and bill the Town for 200 beach tags at the non-resident rate of $95.00 each. If additional tags are needed, the Village will provide and bill the requested amount. Any unsold tags will be returned to the Village, and a refund will be issued.

2. The Town agrees to pay the billing from the Village for the beach tags within 30 days of receipt of tags. Unsold tags will need to be returned to the Village on or before October 1, 2026. Refund will be issued to the Town within 30 days of receipt.

3. This MOU may be executed in multiple counterparts. Signatures transmitted by e-mail in PDF shall be treated as originals.

JANITORIAL SERVICE AGREEMENT
Village of Williams Bay
Administration Office
PO Box 580
Williams Bay, WI 53191

THIS AGREEMENT, made this the day of April 15th, 2026 by and between Janesville Janitor Service & Industrial Supply Inc. of Janesville, WI, and Village of Williams Bay Administration Office, hereinafter called "Client".

WHEREAS, Janesville Janitor Service & Industrial Supply Inc cleaning maintains a cleaning service rendered on an individual contract basis in office buildings, schools, medical clinics and other locations;

WHEREAS, Client desires Janesville Janitor Service & Industrial Supply Inc to supply such cleaning services at the property known as Village of Williams Bay Administration Office located at 131 N Walworth St, Williams Bay, WI 53191 hereinafter called the "area to be serviced" 2 nights per week being Monday & Thursday nights after 5 p.m.

NOW THEREFORE, the parties hereto agree as follows:

1. Beginning on **April 20th, 2026,** Janesville Janitor Service & Industrial Supply Inc will provide and perform for the Client, the services described in the "Specifications list", a true and accurate copy of which both parties have, in the areas to be served.

2. Janesville Janitor Service & Industrial Supply Inc will be considered for all purposes an independent contractor, and it will not at any time directly or indirectly act as an agent, servant or employee of the Client, or make any commitments or incur and liabilities on behalf of the Client without its express written consent.

3. Janesville Janitor Service & Industrial Supply Inc shall provide insurance coverage set forth and below, and deliver to Client, Certificates of Insurance upon request;

a-Comprehensive Liability;

Bodily injury Liability: $500,000 per person and $1,000,000 per occurrence

Property Damage Liability: $500,000 per occurrence and $1,000,000 aggregates.

b-Worker's Compensation as required by the state.

4. Without limiting the responsibility of Janesville Janitor Service & Industrial Supply Inc for proper conduct of its personnel and the cleaning of areas to be serviced hereunder, the conduct of the cleaning personnel will be guided by the rules and regulations as agreed upon from time to time between the Client and Janesville Janitor Service & Industrial Supply Inc and such additional special written instructions as may be issued by the Client to Janesville Janitor Service & Industrial Supply Inc as its designated agent.

5. Janesville Janitor Service & Industrial Supply Inc is responsible for the supervision of its personnel through its designated representative, and such representative will, in turn, be available at all reasonable times to report and confer with the designated agents of Client with respect to services rendered.

6. Janesville Janitor Service & Industrial Supply Inc agrees the cleaning services to be provided shall be performed by qualified, careful, and efficient personnel in conformity with the practices of the janitorial industry.

7. Janesville Janitor Service & Industrial Supply Inc further agrees upon written request of Client to remove from services any of its personnel who in the reasonable opinion of client are guilty of improper conduct or are not qualified to perform the work assigned to them.

8. Janesville Janitor Service & Industrial Supply Inc.'s maximum liability relating to its performance under this Agreement will be limited to the yearly amount of the contract. Neither party will be liable for consequential or special damages, incidental or punitive or indirect loss, damage or expenses, lost profits or lost data. The allocations of liability in this Section represent the agreed and bargained-for understanding of the Parties, and the monies exchanged between the Parties reflects such allocations.

9. It shall be understood and agreed that during the term of this agreement, and for 90 days thereafter, the Client shall not, directly or indirectly hire any person employed by Janesville Janitor Service & Industrial Supply Inc for any cleaning services.

10. In exchange for performance of services the Client shall make payment to Janesville Janitor Service & Industrial Supply Inc for services rendered at the rate of **$897.00** per month. First Billing will be made on the first day of services and will be payable in 30 days. Subsequent billing and due dates will be on the monthly anniversary. Janesville Janitor Service & Industrial Supply Inc will give the Client at least 90 day notice of any price change, for services rendered and Client will notify Janesville Janitor Service & Industrial Supply Inc at least 60 days of termination of this agreement, or changes to the service provided under this agreement. It is understood by the parties, in the event that Janesville Janitor Service & Industrial Supply Inc. is unable to gain access to the property as a result of our keys indoor access not allowing us to get into the property, the customer is not entitled to a credit.

Invoices can be sent to the following:

Delivery Method: EMAIL

Email/Mailing Address: treasurer@williamsbay.org
CC Email: clerk@williamsbay.org

11. Janesville Janitor Service & Industrial Supply Inc. will furnish equipment and chemicals needed to perform the cleaning tasks. Customer will be responsible for providing paper goods, soaps, urinal screens, sprays and can liners.

12. Janesville Janitor Service & Industrial Supply Inc will perform all services required under this agreement, except when prevented by lock out, act of God, accident or other circumstances beyond its control.

13. This agreement shall continue in effect from the date services begin but may be terminated by either party if not satisfied with services but not without prior warning. This agreement will be for 12 months. It is further understood by the parties this contract shall automatically renew on the anniversary date of this contract at the rate of the previous year plus a 3% cost of living increase.

This agreement contains all the covenants and agreements of the parties, and may not be modified except by writing, signed by both parties.

IN WITNESS WHEREOF, the parties have caused this agreement to be executed as of the date first above written.

Village of Williams Bay, Walworth County

Request for Proposal (RFP)
For Fire Services

The Village of Williams Bay is requesting a statement of qualifications and service proposal, including level of service and organizational census from the Williams Bay Fire Department, Delavan Township Fire Department and Village of Fontana Fire Department.

Background

The Village of Williams Bay is located in Walworth County in Southeast Wisconsin on the northerly shores of Geneva Lake. The Village's population is approximately 2,900 with summer seasonal population increasing 2-3 times. The Village encompasses roughly three (3) square miles and is located nearby to the Village of Fontana to the west and the Township of Delavan to the north. The Village operates under a 7-member Village Board form of government.

The Williams Bay Fire Department is a volunteer department that was established in 1948. The Williams Bay Fire Department is not a department of the Village but rather under Village Code the Department is officially recognized as the Fire Department serving the Village of Williams Bay, and the duties of firefighting and fire prevention in the Village are delegated to such Department. The Williams Bay Fire Department shall be responsible for the program of fire defense for the citizens and property within the Village of Williams Bay. Emergency Medical Services (EMS) are currently provided by contract through Fontana/EMS Williams Bay Rescue Squad, and, when requested, the Williams Bay Fire Department.

As being experienced throughout fire service, the Fire Department continues to experience reductions in volunteers and the Department has increasingly experienced difficulty maintaining an adequate number of trained firefighters to adequately respond to fire calls in a timely manner.

Purpose & Scope:

Overall, the purpose of this RFP is to provide information to the Williams Bay Village Board in regards to:

- Which of the Fire Departments, or a combination, should the Village of Williams Bay turn to for services in combination with or in lieu of the current volunteer department,
- How a "partnership" might be structured with another department.

The intent of this study is to obtain data of the staffing, practices, organizational structure, equipment & facilities of the fire departments in order to provide efficient delivery of fire services for serving the Village of Williams Bay. The successful department(s) shall provide detailed information and data from the department necessary for review, analyze and report on the condition, policies, procedures and capabilities of the department to serve as the Village of Williams Bay Fire Department.

Services to be provided:

The departments are asked to provide written responses and supporting information/data on the following topics which are briefly described below. Each objective has considerable depth and this outline is intended to illustrate the scope of information requested-not the breadth of the topic:

A. **Governance & Oversight: Does the department a governance structure that will support expansion of services to cover Williams Bay?**
   The department's ability to provide an efficient, effective and transparent leadership structure and administrative procedures to ensure that resources are used in the best manner possible. Provide the department's leadership structure and confirm how the department has sufficient resources to ensure department cohesiveness, teamwork and effectiveness:

B. **Organizational Structure: Does the Department organizational structure provide adequate structure to cover Williams Bay?** Detail the department's organizational model (including span of control) ensuring that it is consistent with generally accepted management principles and will foster effective operations;

C. **Level of service: Does the Department have adequate staff to cover Williams Bay?** Provide staffing levels to ensure that the department sufficiently meets the requirements to provide effective fire protection service;

D. **Professional/Paid-on call/Volunteer: Does the Department have a staffing model that appears capable of providing services to Williams Bay?** Detail current staffing methods, numbers & distribution of personnel, include prior 5-years historical data. Confirm the ability to attract volunteer/paid on call firefighters and on-duty firefighters. Indicate if/when on-duty firefighters should be utilized to meet coverage requirements;

E. **Future Growth:** Confirm the departments ability to meet demand needs for future projected community growth in their existing service area as well as Williams Bay and their impact on fire protection needs;

F. **Equipment/Vehicles:** Provide detailed itemized list of the existing vehicles and equipment confirming that the department currently has sufficient resources to meet community needs and those of Williams Bay;

G. **Facilities:** Confirm fire station facility needs/deficiencies. Can the existing facilities, plus those in Williams Bay, provide adequate space;

H. **Department Inventory:** Provide the inventory list of all departmental equipment and supplies and inventory procedures of the Department;

I. **Operations:** Describe how the following operational items are accomplished effectively and efficiently by the department: inspections, training, emergency management and disaster planning, fire prevention, safety & risk management etc.;

J. Implementation: Provide a prioritized implementation strategy based on realistic timeline for completion. Include estimated costs associated.

K. Fire Department: The Village of Williams Bay Fire Department Fire Chief, Rescue Squad Captain Gluth, will be included in the evaluation process. Additional individual, group or department meetings will be at the Village's discretion. The scope of the discussions will also be at the Village's discretion;

L. Police Department: It is expected that the Williams Bay Police Chief will be involved who routinely interact with the fire department to gain insights on service needs;

M. Village Board: The Village Protective Services Committee will lead the selection process with support by the Village Finance and Personnel Committee in making recommendations to the Village Board in the selection process. The scope of the Village Committees and Board's involvement (i.e. group meetings, individual interviews, etc.) will be at their discretion;

Calendar of events:

Activity:	**Date:**
Proposals due	*Friday April 24, 2026*
Committee Review/Department Interviews	*Week of April 27, 2026*
Committees Recommendation	*Monday, May 4, 2026*
Village Board department selection	*Monday, May 18, 2026 (Tentative)*

*The Village recognizes these dates may need to change based on the scope of submittals and reviews.

Terms and Conditions for making proposal:

A. Inquiries from departments: Questions regarding this request for proposals should be directed to Administrator David Lothspeich Village of Williams Bay @ 262-245-2700 or admin@vi.williamsbay.wi.gov

B. Cost incurred in responding: All costs, directly or indirectly related to the preparation of a proposal, including any oral presentations required to supplement and/or clarify a proposal, shall be the sole responsibility of the department

C. Response instructions: One (1) digital copy of the proposal should be emailed in PDF format bearing the name and address of the respondent and subject line "RFP for the Village of Williams Bay Fire Department" along with 10 hard copies.

Proposals are to be emailed and hard copies mailed to:
David Lothspeich, Administrator
Village of Williams Bay 250 Willams Street
PO Box 580
Williams Bay, WI 53191
E-mail: admin@vi.williamsbay.wi.gov
Phone: 262-245-2700

Proposals must be submitted by Friday, April 24, 2026 at 4:00 p.m. The Village of Williams Bay shall not be responsible for late delivery of the proposals under any conditions.

D. Proposal Acceptance Period: It is understood that, upon submission of the proposal, the fees proposed will be valid for a period of ninety (90) days.

Proposal format:

Overview of required sections:

1. Cover letter:
   The cover letter should contain the name of the proposing department, the address of the department, and the contact individual (s) authorized to answer technical, price, and contract questions; including respective contact information.

2. Department background and statement of staff experience:
   Identify the key personnel of the department who will be assigned to this project. Describe the organization of the staff team that would service the Village. Provide a listing of the management level members of the staff team.

   Include name, title, length of service with the firm, biography, education level, and professional achievement and/or certification of any staff that will assist with the project. This section should include the range of services previously performed by the department, and the department's background in providing these services to municipal entities.

3. Scope of required services:
   Describe how the department will cover services outlined in the "Service to be provided" section

4. References:
   List a minimum of five (5) municipal references. Provide a contact person and telephone number for each reference. Include services provided to these governmental references.

5. Cost proposal(s):
   Cost of service quotes should be included for all required components referenced above, detailing all costs associated with the services to be provided. Proposal should include payment terms.

Award of contract:

The Village of Williams Bay will award the services in a manner that will obtain the highest quality of services at the most competitive price. The Village reserves the right to negotiate or reject any and all proposals. Proposals will be evaluated by using the following criteria:

1. Experience in providing the requested services;

2. Compliance with specifications as outlined in the "Proposal Format" section of this request for proposal;

3. Proposed cost of service;

4. Reference checks.

   Please note that no formal opening of the proposals will take place. Proposals will be evaluated and the successful department will be contacted subsequent to Village approval.

General terms and conditions

Indemnification: The department shall indemnify, defend and hold harmless the Village of Williams Bay, its officers, agents, employees, representatives and assigns, from lawsuits, actions, costs (including attorney's fees), claims or liabilities of any character brought because of any injuries or damages received or sustained by any person, persons, or property on account of any act or omission, neglect or misconduct of said contractor, its officers, agents and/or employees arising out of, or in the performance of any of the provisions of the contract, including any claims or amounts recovered for any infringement of patent, trademark or copyright; or from any claims or amounts arising or recovered under the "Worker's Compensation Act" or any other law, ordinance, order or decree.

The Village reserves the right to reject any or all proposals, waive formalities, and select the department that best meets the needs of the Village and its employees. The Village reserves the right to request additional information during the evaluation period.

Distribution List:

Village of Williams Bay Administrator and Fire Department Chief

Town of Delavan Administrator and Fire Department Chief

Village of Fontana Administrator and Fire Department Chief

Fire Services Proposals -- April 2026

Town of Delavan

	1	2	3
Existing Fire/Rescue/ Dive Expenses	$154,608	$154,608	$154,608
EMS Expense (budgeted)			$1,047,644
Delavan Charge	$325,810	$319,805	$194,123
Subtotal	$480,418	$474,413	$1,396,375
Rescue/Dive Remains			
2% Dues Retained by WB	$45,000	$45,000	$45,000
Total	$435,418	$429,413	$1,351,375
Add to Budget	$325,810	$319,805	$194,123

Option 1: Fire and EMS Services provided by Delavan using Delavan ambulance
Option 2: Fire and EMS Services provided by Delavan using WB Ambulance
Option 3: Fire Services Only. Continue to use Fontana for EMS

Assumptions:
That WB Fire, Rescue and Dive Departments continue to exist
In Options 1 and 2 would have to negotiate our way our of exisiting EMS agreenent with Fontana

Add to budget	$50,331	-$18,833	-$13,107	$22,859	$85,078

Option 1: Fontana supplements WB as current
Option 2: Fontana provides WB Fire services from Fontana Stations
Option 3a: Fontana provides WB fire services from WB Station
Option 3b: Fontana provides WB fire services from WB station, increased staffing
Option 3c: Fontana provides WB fire services fron WB station, increased staffing

Assumptions
WB fire, rescue and dive expenses are eiminated

INTERGOVERNMENTAL AGREEMENT
VILLAGE OF FONTANA
AND
VILLAGE OF WILLIAMS BAY

This Agreement entered into on March 10, 2025 between the Village of Fontana-on-Geneva Lake, Walworth County, Wisconsin, a Wisconsin municipal corporation (Fontana), and the Village of Williams Bay, Walworth County, Wisconsin, a Wisconsin municipal corporation (Williams Bay), also collectively referred to as "the Parties," both of which are created and existing under Chapter 61 of the Wisconsin Statutes.

RECITALS

A. WHEREAS, Fontana and Willams Bay did previously enter into an Intergovernmental Agreement for ambulance and Emergency Medical Services dated May 1, 2022 and later amended on July 26, 2023; and

B. WHEREAS, Fontana and Williams Bay wish to enter into a new, successor Intergovernmental Agreement pursuant to which Fontana will provide ambulance and Emergency Medical Services for Williams Bay.

NOW, THEREFORE, in consideration of the above Recitals which are incorporated as a part of this Agreement and the mutual covenants contained herein, the Parties agree as follows:

1. PURPOSE. The purpose of this Agreement is to provide adequate ambulance and emergency medical services for all persons within Williams Bay by means of the Fontana EMS. It is the belief of the Parties that ambulance and emergency medical services within Williams Bay can best be provided through this Agreement on a fair and cost-efficient basis; and that this Agreement will serve the interests of Fontana by the provision of additional resources to the Fontana EMS by Williams Bay as described herein.

Furthermore, the Parties enter into this Agreement for the purpose of establishing a cost effective, coordinated, uniform delivery system for the provision of emergency medical services to individuals within the Village of Fontana and the Village of Williams Bay and for the purpose of determining the roles and responsibilities of each of the Parties and for determining the sharing of costs and/or fiscal responsibility for the provision of those services described in this Agreement.

2. AUTHORIZATION. This Agreement is entered into pursuant to the authorization granted under Sections 61.34 and 66.0301, Wis. Stats.

3. DEFINITIONS

For purposes of this Agreement, the following terms shall have the meanings set forth herein:

a. "Emergency medical technician or EMT" shall have the meaning set forth in sec. 256.01(6) of the Wisconsin Statutes.

b. "Advanced emergency medical technician or AEMT" shall have the meaning set forth in sec. 256.01(1k) of the Wisconsin Statutes.

c. "EMS" shall mean Emergency Medical Services as defined by DHS 110.04(22) Wisconsin Administrative Code.

d. "Full-time equivalent or FTE" shall represent a unit of measurement standardized to equal the number of hours worked by the typical full-time employee which is 49.8 hours per week.

e. "Paramedic" shall have the meaning set forth in section 256.01(14) of the Wisconsin Statutes.

4. SERVICES PROVIDED. Fontana agrees to provide ambulance and emergency medical services at an EMT or greater level upon call to any and all persons in need of its services within the corporate boundaries of Williams Bay. The ambulance and EMS will be available 24 hours a day, seven days a week, unless said ambulance and EMS resources are already utilized or unavailable.

Fontana shall, in good faith, pursue and maintain an "automatic aid" agreement with one or more municipalities as necessary so as to provide additional coverage to all portions of Williams Bay. Fontana agrees to share copies of any automatic aid agreements and mutual aid agreements affecting Williams Bay on an annual basis or as may be requested.

5. EQUIPMENT AND PERSONNEL. In providing ambulance and emergency medical services, the ambulance will be properly approved and licensed by the necessary authorities. Fontana agrees to maintain its ambulance and equipment in good working order as required by state law. Fontana also agrees to obtain all necessary licenses for operation of the ambulance services. All EMT's and paramedics serving as ambulance attendants will be licensed by the State of Wisconsin.

6. INSURANCE AND INDEMNITY. Each Party shall maintain general liability insurance with a limit of not less than five million dollars per occurrence, with coverage extending to both general liability and errors and omissions coverage, for services performed pursuant to this Agreement. Each Party shall be responsible for its own cost and expense for said insurance. Each Party shall name and endorse the other Party and its representatives, agents and employees as an additional insured in such insurance policy. Each Party shall maintain and extend insurance to all equipment owned by each Party to the extent utilized in providing services pursuant to this Agreement. Proof of said insurance shall be provided on the effective date of the Agreement and annually thereafter.

To the extent of each Party's proportionate share of negligence, each Party to this Agreement shall indemnify and hold harmless the other and its respective officers, agents and employees, from and against all claims, suits. damages, losses, costs, expenses, judgments, and liabilities, including but not limited to reasonable attorney's fees, costs and expenses, arising out of or in connection with the Party's performance of or failure to perform this Agreement, provided that any such claim, suit. damage, loss, costs, expenses, judgments, or liabilities are attributable to bodily injury, sickness, disease or death, or to injury or destruction of tangible personal property, including the loss of use

resulting therefrom, that is caused in whole or in part by any act or omission of the Party, anyone directly or indirectly employed by them or anyone for whose acts any of them may be liable. Except as expressly stated to the contrary herein, neither Party has any obligation to pay for any Party's legal defense costs prior to a final determination of each Party's liability or to pay any amount that exceeds the Party's finally determined percentage of liability based upon the comparative fault of the Parties and their employees, subcontractors, or anyone whose acts for which they may be legally liable.

Notwithstanding anything contained here into the contrary, neither Party to this Agreement waives the statutory limit on damages for which municipalities are liable or any defense of statutory immunity as provided by law.

7. BILLING. Fontana shall be responsible for billing and collecting all patient fees and charges at rates determined by Fontana. All fees and charges collected shall be retained by Fontana. On or before November 1 of each year, Fontana shall provide Williams Bay with a list of all charges for public service for the upcoming year. As to EMS services provided to the residents of Williams Bay, Fontana will not pursue collection of amounts for EMS charges that exceed the amount of health insurance available for said service to residents of Williams Bay. Fontana will not balance bill (insurance only billing) Williams Bay residents pursuant to the Office of Inspector General Advisory Opinion No. 06-07.

8. COMPENSATION. During the term of this Agreement, Williams Bay shall compensate Fontana for those costs set forth in Addendum "A" and Section 8.a herein (the "Costs"), as follows:

a. The intent of Fontana is to employ a total of 14 FTE EMS personnel at all times. Fontana shall bill Williams Bay for half the cost of hiring and employing up to 14 EMT's, AEMT's or Paramedics; further, Williams Bay shall pay Fontana for half the cost of the Fontana Fire Chief, half the cost of the Fontana Deputy Fire Chief and half the cost of part-time EMS personnel beyond the initial fourteen FTE EMS

personnel; all said costs per this Section 8.a. are set forth more specifically in Addendum "A", attached hereto and incorporated herein by reference.

b. Williams Bay shall lease one ambulance to Fontana which shall be provided with such equipment and accessories as determined necessary by the Chief of the Fire Department of Fontana. The lease shall be as set forth in Addendum "B" and Fontana shall remain the primary service provider. Williams Bay shall also be responsible for any costs associated with necessary repair or maintenance of the ambulance (not to include the cost of fuel). The ambulance will be located at a site to be determined by the Chief of the Fire Department of Fontana. If sufficient FTE EMS persons are on duty to staff two ambulances during daytime times, the Chief of the Fire Department of Fontana (or his/her designee) shall use his or her best efforts to ensure that one ambulance is located in Williams Bay unless operational needs require its presence elsewhere.

c. All billings for Costs by Fontana for the items described in this paragraph 8 shall be submitted and invoiced not more often than monthly, in writing, to the Williams Bay Treasurer. Williams Bay shall pay such invoices within thirty (30) days of receipt of same.

d. In the event of the non-payment or incomplete payment of compensation, as defined herein, owed by Williams Bay to Fontana within the time period called for by this Agreement, then Fontana may then provide written notice of delinquency to Williams Bay. Said written notice shall include a demand for payment in full within seven days. If the past due payment is not received in full by Fontana within seven days of said notice, then at any time thereafter Fontana may terminate this Agreement by written notice thereof to Williams Bay.

e. If a dispute arises between the Parties as it relates to this Agreement, or the alleged breach thereof, and if the dispute cannot be settled through direct negotiation, the Parties agree to first try in good faith to settle the dispute by mediation administered by a jointly selected mediator. The Parties shall each pay half the costs billed by the mediator for mediation services.

Any controversy or claim arising out of or relating to this Agreement, or the alleged breach thereof, not resolved through mediation shall be settled by arbitration administered by a jointly selected arbitrator. The judgment on award rendered by the arbitrator shall be binding on the Parties and may be entered in any court having jurisdiction thereof. The prevailing Party in such an arbitration shall be awarded its costs and reasonable attorney's fees, including those fees incurred during mediation. The Parties shall each pay half the costs billed by the arbitrator for arbitration services.

f. Payments from Williams Bay to Fontana shall continue in a timely manner "under protest" during the period of any dispute arising out this Agreement or services provided by this Agreement, subject to the final outcome of mediation or arbitration.

g. Fontana shall share, on an equal basis, funds received from other contracting municipalities for EMS services, other than funds received for Administrative Fees, for Fire Services or expenses not listed in this Agreement in Addendum "A".

9. TERM. This Agreement will commence on January 1, 2025 and remain in effect for ten years until December 31, 2034 ~~2035~~.

If Fontana Terminates this Agreement prior to the end date provided in Section 9, then Fontana shall continue to perform the services set forth in this Agreement for up to another six months, and on

the same terms, for as to allow Williams Bay to obtain alternate EMS coverage. In addition, Fontana shall reimburse Williams Bay for its actual cost of obtaining new EMS coverage, including, but not limited to reasonable Attorney, Consultant and start up fees. Said reimbursement shall be capped at $50,000.00.

If Williams Bay terminates this Agreement prior to the end of the term provided in Section 9, then Williams Bay shall pay Fontana for the "Costs" of any employees hired pursuant to Section 8. a. in excess of 9, up to a limit of 13, until the end of the Term or until the number of said employees is reduced to 9 or less through attrition, whichever occurs first.

Termination will be accomplished by the terminating Party providing written notice to the Clerk of the other Party. Such termination will become effective at the end of the calendar year in which the written notice is delivered, provided that if the written notice is not delivered to the Clerk of the other Party by June 30th of the calendar year at the end of which termination is directed, then the termination will not occur until the end of the following year.

10. CONSULTATION AND REPORTS. The Village Board of Fontana and the Village Board of Williams Bay agree to meet jointly not less than two times per year, with the first meeting prior to April 1st and the second meeting prior to September 1st of each year that this Agreement remains in place. The purpose of such meetings is to discuss the financial aspects of this Agreement prior to the establishment of the respective budgets of each Party.

a. Fontana shall provide Williams Bay with monthly reports containing details concerning EMS services provided to Williams Bay in the preceding month. Such reports shall be provided within twenty (20) days of the end of each month and will be submitted to the Williams Bay Clerk.

b. Joint Emergency Services Committee. There shall be established a Joint Emergency Services Committee ("Committee"). The purpose of the Committee is to provide review and comment regarding past, current and future fire and EMS budgets

and expenditures. All Committee members shall be entitled to vote. The Committee shall be comprised of the following members:

(1) Two representatives appointed by Fontana;

(2) Two representatives appointed by Williams Bay;

(3) One representative appointed by any municipality contracting for EMS services from Fontana;

(4) Fontana Fire Department Fire Chief or his or her designee.

The duties and membership of the Committee as set forth in this Agreement may be reviewed and amended by mutual agreement of the Parties.

The Committee shall meet not less than once annually and prior to October 15 each year. Additional Committee meetings may be held as needed. Committee meetings may be called at the request of any member municipality.

11. WILLIAMS BAY FIRE DEPARTMENT EMS PERSONNEL. Fontana agrees that Williams Bay Fire Department EMS personnel may have use of the ambulance and related equipment and accessories provided by Williams Bay to Fontana pursuant to paragraph 8.b. of this Agreement to provide EMS services during special activities occurring in Williams Bay such as athletic events, parades, events occurring in Village parks and other similar events. In that circumstance such EMS personnel shall be under the direction and supervision of the Fire Chief of the Williams Bay Fire Department. Should the Chief of the Fire Department of Fontana call upon Williams Bay Fire Department EMS personnel to assist Fontana EMS in Williams Bay, the Williams Bay EMS personnel shall provide such assistance under the direction and supervision of the Fire Chief of the Fire Department of Fontana. However, the Williams Bay personnel shall not be considered employees of Fontana and Williams Bay shall be responsible for all actions of said Williams Bay personnel as well as all benefits which may accrue to such Williams Bay personnel from providing such assistance.

12. MISCELLANEOUS.

a. Non-assignability. This is a personal services agreement between Fontana and Williams Bay. Neither Party may assign any of the obligations or rights contained in this Agreement to any other party without the consent of the other Party to this Agreement.

b. Amendment. This Agreement may be amended by the Parties only in a written document signed by the Parties.

c. Interpretation. This Agreement must be interpreted and construed reasonably and neither for or against either of the Parties, regardless of the degree to which either of the Parties participated in its drafting. The Parties intend that the authority granted to them by Wis. Stats. sec. 66.0301 be interpreted liberally in favor of cooperative action.

d. Public Record Law. The Parties to this Agreement agree to at all times cooperate with regard to Public Record Law requests as may be filed pursuant to Chapter 19 of the Wisconsin Statutes, including responding to each other with regard to individual record requests in a timely manner and without additional costs.

e. HIPAA Compliance. The Parties to this Agreement shall carry out their obligations under this Agreement in compliance with the Privacy regulations set forth in Public Law 104-191 of August 21, 1996, known as the Health Insurance Portability and Accountability Act of 1996, as amended, in order to protect the privacy of personally identifiable protected information that is collected, processed or learned as a result of services provided pursuant to this Agreement.

f. Notice. Any notice required to be given to either Party pursuant to this Agreement shall be provided as follows:

If notice is given to the Village of Fontana-on-Geneva Lake:

Attention Village Clerk, 175 Valley View Drive PO Box 200, Fontana, WI 53125

If notice is given to the Village of Williams Bay:

Attention Village Clerk, P.O. Box 580, Williams Bay, WI 53191

Notice shall be given either in person or by regular mail. If notice is given by regular mail, it shall be deemed received three calendar days from mailing.

g. Articles and Headings. The Article and Headings contained in this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement

h. Severability. If any provision of this Agreement shall be held or made invalid by court, decision, statute or rule, or shall otherwise be rendered invalid, the reminder of this Agreement shall not be affected thereby.

i. Entire Agreement. This Agreement and the Addenda attached hereto shall constitute the entire contract between the Parties to this Agreement, and no representation, inducement, promise, agreement, oral or otherwise, as it pertains to the obligations set forth in this Agreement shall be enforceable.

j. Authorization. The Parties to this Agreement, as a material inducement to enter into this Agreement, do hereby represent that all approvals required by Wisconsin Law have been fulfilled and that this Agreement has been legally approved by each Party municipality.

ADDENDUM A

The "costs" to be billed by Fontana to Williams Bay shall be comprised of the following:

1) Those costs described in Section 8, herein.

2) The costs for hiring those persons described in Section 8 shall include:

   a. Gross Salary

   b. Employer paid taxes

   c. Employer paid insurance including worker's compensation insurance

   d. The Employer cost of all employee benefits, including but not limited to, health, dental and vision insurance, life insurance and pension

   e. The cost of uniforms and that equipment provided by employer to employee

   f. The cost of required employee training

   g. The cost of required employee certification or recertification

   h. The cost of disciplinary employees and post-employment costs or claims not based on employer misconduct

   i. Software required to maintain EMS employees and services, including but not limited to; scheduling, patient care reporting, controlled substance medication tracking, Training, National Fire Incident Reporting System (NFIRS) reporting

   j. Technology required to maintain EMS employees and services, including but not limited to; email licensing, Microsoft utilities, electronic Fire Station access

   k. Overnight accommodations including but not limited to; resources & furnishing for bunk room,

day room, and kitchen/dining areas of the Fontana Municipal Building

3) Capital Purchases – Purchases of items needed to equip the Williams Bay ambulance.

4) Administration and Training – Williams Bay and Fontana shall make a good faith effort to support costs associated with EMS administrative and training facilities.

5) Administrative Fees – Annual administrative fees shall be billed independent of the operational and capital budget. Administrative fees will be shared equally among all municipalities contracting to be served by the Fontana Fire Department, including the Village of Fontana.

Total billed administrative fees shall be based on twenty percent of the most recent annual budgeted salaries and benefits for the Village of Fontana Administrator and fifteen percent of the most recent annual budgeted salaries and benefits Treasurer. (i.e. if split between three municipalities, each would contribute six and 2/3 percent for the Village Administrator expense and 5 percent of the Village Treasurer expense)

6) Reconciliation. At the end of each calendar year Fontana shall compare actual operating expenses to the annual budget and compare to the Williams Bay "costs" as paid by Williams Bay to Fontana per this Agreement for said calendar year. Fontana shall either reimburse the Village of Williams Bay for excess "costs" in the event actual expenses are less than annual budgeted expenses or bill the Village of Williams Bay for the deficiency in the event that actual expenses exceed the annual budget expenses.

7) The Parties agree to work together in good faith in order to reach agreement in the event that Williams Bay chooses to add fire protection services from Fontana.

ADDENDUM B

LEASE FOR AMBULANCE USE

This Lease Agreement (hereinafter "Agreement") is entered on July 26, 2023 by and between the Village of Fontana-on-Geneva Lake, Walworth County, Wisconsin, a Wisconsin municipal corporation (Fontana) and the Village of Williams Bay, Walworth County, Wisconsin, a municipal corporation (Williams Bay), together collectively referred to as "the Parties"

Recitals

A. The Parties are lawfully organized and existing in municipalities under the Constitution and laws of the State of Wisconsin.

B. Wisconsin Law provides that units of local government may contract among themselves to obtain or share services.

NOW, THEREFORE, in consideration of$10 (ten dollars), the mutual agreement contained herein, and in consideration of the mutual obligation set forth in the current Intergovernmental Agreement between the Parties, and upon the further consideration of the recitals herein set forth, the Parties agree as follows below:

1. **Ambulance Lease.** Williams Bay agrees to lease to Fontana an ambulance referred to as Village of Williams Bay 2022 Chevrolet Ambulance, and equipment related to the Ambulance (the "Ambulance"). Fontana shall re-stock the Ambulance with medical or other supplies used by Fontana for patient care. Fontana shall pay $10 (ten dollars) as a first-year lease payment at the execution of this Agreement and said $10 (ten dollar) lease shall be paid annually at renewal thereafter for its term.
2. **Term and Termination.** The term of this Agreement shall begin on July 26, 2023 and

shall be consistent with the term outlined in the Intergovernmental Agreement Village of Fontana-on-Geneva Lake and Village of Williams Bay, originally effective May I, 2022, as amended from time to time.

3. **Damage to Ambulance.** Fontana shall be responsible for any damage or destruction to the Ambulance when in use by Fontana.
4. **Insurance.** Fontana represents to Williams Bay that Fontana carries liability insurance in sufficient amounts to cover Fontana's use of the Ambulance as provided for by this Agreement.
5. **Hold Harmless.** To the extent permitted by law, Fontana shall save and hold harmless Williams Bay from and against all liabilities, claims, and demands of whatsoever kind of nature arising out of or connected with Fontana's use of the Ambulance and will defend at its own expense any actions against Williams Bay based thereon and shall pay all reasonable charges of attorneys and all reasonable costs and other expenses arising out of Fontana's own negligence or intentional misconduct.
6. **Notices.** All notices provided for in this Agreement to be given by either arty to the other shall be delivered or mailed to the respective Village Hall, as the case may be. Unless otherwise provided, a notice shall be deemed to be received by a patty (A) on the date of personal service; (B) five (5) calendar days after being sent by registered or certified mail, return receipt requested, postage prepaid, or (C) on the next business day if sent by overnight delivery service (such as Federal Express) with all fees prepared. Notice may be sent to a provided e-mail

address, however, notice sent via e-mail shall be followed by notice delivered by a method described in subsections (A)-(C), unless such additional notice is waived in writing by the party receiving the notice via e-mail. If notice is affected by e-mail, notice shall be deemed received on the date the receiving party provides written notification to the other party that a delivery

of notice by supplemental means is not required. Either party may change the designated contact by providing notice to the other party of the new information in accordance with this paragraph.

7. **Counterparts.** This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, with the same effect as if the signatures thereto and hereto were upon the same instrument. Delivery of an executed counterpart of a signature page to this Agreement by facsimile or email shall be as effective as delivery of a manually signed counterpart to this Agreement.
8. **Waiver.** No waiver of any breach or default hereunder shall be considered valid unless in writing and signed by the party giving such waiver. No such waiver shall be deemed a waiver of any subsequent breach or default of the same or similar nature.
9. **Severability.** If any part of this Agreement shall be held invalid for any reason, the remainder of this Agreement shall remain valid to the maximum extent permitted by law.

IN WITNESS THEREOF, the parties have executed this Agreement on the day and first written above.

RESOLUTION NO. R-32-26
RESOLUTION APPROVING MEMORANDUM OF UNDERSTANDING (MOU) WITH
THE TOWN OF LINN FOR WILLIAMS BAY BEACH PASSES

WHEREAS, the Village of Williams Bay neighbors the Town of Linn on the north side of Geneva Lake; and

WHEREAS, the Village of Williams Bay has a public beach that allows non-residents to use with the purchase of a beach pass; and

WHEARAS, the Town of Linn does not have a public beach on the north side of Geneva Lake and may Town of Linn residents enjoy the use of the Williams Bay Beach; and

WHEARAS, as a convenience to the Town of Linn Residents, the Village of Williams Bay will sell the Town of Linn with a set number of beach passes for their residents to purchase from the Town of Linn; and

WHEREAS, at the end of the season, the Village of Williams Bay will buy back any remaining beach passes that are not sold; and

WHEREAS, the Village Williams Bay Parks and Lakefront Committee and Finance and Personnel Committee have recommended approval of the Memorandum of Understanding; and

WHEREAS, the Village Board of the Village of Williams Bay, having reviewed the proposed Memorandum of Understanding and having determined that it is in the best interest of the Village and its residents to approve the same.

NOW, THEREFORE, the Village Board of the Village of Williams Bay, County of Walworth, State of Wisconsin, do hereby resolve as follows:

Section I: **Recitals**. The foregoing recitals are incorporated herein as the findings of the Village Board of Trustees.

Section II: **Approval.** The Village Board of the Village of Williams Bay hereby approves the Memorandum of Understanding with the Town of Linn, which is attached hereto (Exhibit A), and the Village President and Village Clerk are hereby authorized to sign same on behalf of the Village of Williams Bay.

Approved by the Village Board of the Village of Williams Bay this 4th day of May 2026.

VILLAGE OF WILLIAMS BAY

Exhibit A
Memorandum of Understanding
(2026)

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is entered into between the Village of Williams Bay (the Village) and the Town of Linn (the Town), effective as of the date of the last signature of the parties to this Agreement.

RECITALS

A. The Village operates a municipal beach within the corporate boundaries of the Village which provides access to Geneva Lake (the Beach).

B. The Village has determined that it is appropriate in 2026 to allow access to the Beach by individuals who are not residents of the Village, subject to the purchase of beach tags for that purpose.

AGREEMENT

In consideration of the Recitals and provisions which follow, the Village and the Town agree to the following.

1. The Village agrees to provide and bill the Town for 200 beach tags at the non-resident rate of $95.00 each. If additional tags are needed, the Village will provide and bill the requested amount. Any unsold tags will be returned to the Village, and a refund will be issued.

2. The Town agrees to pay the billing from the Village for the beach tags within 30 days of receipt of tags. Unsold tags will need to be returned to the Village on or before October 1, 2026. Refund will be issued to the Town within 30 days of receipt.

3. This MOU may be executed in multiple counterparts. Signatures transmitted by e-mail in PDF shall be treated as originals.

APPROVED by the Village Board of the Village of Williams Bay this ___ day of April 2026.
